## President Guarded By Secret Service

Closely attending President Wilson at every conference, reception, fete, dinner and parade in which the Chief Executive of the United States participates will be a group of self-effacing men in modest civilian garb whose names will never appear in the cable and wireless dispatches and mention of whose presence at these epochal events will never be made. No matter how many regiments of American, or British, or French, or Italian, or Belgian soldiers may guard the distinguished American in Europe, this handful of alert civilians will never be farther than ten feet from the person of President Wilson, and when he seeks his rest at night, whether it be in his official residence in Paris or in the palace of kings or in the humble inns in the villages along the old battle lines these men will stand guard outside his chamber door.

## LETTER FROM THE FRONT Nov. 7th, 1918.

Dear Friend:—  
As I didn't get very much written in my last letter I will try it again, although I don't know very much of interest to write you. As I have told you before, I can pass the time away in letter writing better than any other way.

I have been getting along pretty well considering everything. I have had a little rest of about seven days, in a place about like where you found me the time you came to see me in camp, but you see I didn't have to stay very long. Don't worry, I am feeling good now.

Say, G., how was the bean hulling at White's? Did you get to go or not? I hope you enjoyed yourself and hulled enough beans for us both. I forgot to thank you for the bouquet you sent me in your letter. It sure was nice, and you don't know how glad we are to get a little present like that over here—in a place where there isn't anything except—well, not flowers. Well I am going to stop for tonight as I have to work a little before I try to go to sleep.

Friday, Nov. 8th: Had a very good night's sleep last night, so am feeling pretty good this morning. The sun is shining for the first time in several days. Although the mud is rather hard to travel in, I never go around to keep out of it. I have a pair of boots that is high enough to fasten in my belt straps, and why should I go around to keep out of the mud.

I am looking for some mail from you this afternoon or tomorrow and I will wait to close this letter. I have gotten so I can hardly write a letter over here that is worth your time in reading. Guess I am going to have to make my letter short and let you do most of the writing.

Saturday night, Nov. 9th: Will now try to finish your letter if I have time, as I want to get it mailed tomorrow.

I must tell you my dream today, and I suppose you will wonder why I was dreaming in daylight—well, we sleep any time we get a chance. I dreamed that it was all over and that I was at home fixing to crank the Ford up to go over to W. Town. Will tell you later what awoke me and I didn't get all the way. I will have more to tell you when I see you than I will ever get told, and I hope that won't be long.

Here it is the 13th, and don't you know I haven't had time to finish this. I have been some busy for the past week. I guess you have heard the news, but I am sure you haven't heard what I have had to go through with right on the last. It is through my power that I am still able to write you. I have a lot to be thankful for this morning. Will tell you more when I see you.

Well, I had another letter from you last night at eleven o'clock. Was just preparing to retire when I received it. I started up the fire so I could see to read it, as our lights were out of order. You said you hadn't received but nine letters from me since I have been over here. I sent you at least thirty, and have received about twenty-five from you so far. You have got a lot more letters by this time.

I will close for today and get this mailed. Hope to have more time after this to write you. Will write all I think will pass the censor.

Write me all the news. As ever,  
GEO. R. LANE.

## TO THE PEOPLE OF GREENEVILLE

The Christmas Roll Call is the great plan to again help suffering humanity. The American Red Cross must be kept strong and efficient that it may do its full share. With our two million soldiers across the water, with the epidemic of influenza so bad the Red Cross work must be kept up, we want every man, woman and child to join. It is only one dollar. Oh, how much good your dollar can do! Join now.

Get somebody else to join. We want to add two thousand to our number. If you are a member, renew. If not a member, join. See the chairman of your auxiliary; give in your name, help him get other names. It is your work. We have made a record in Greene county; we must keep the good work up.

We are depending on you.  
Dec. 16th to 23rd is the date.

## NO WAGE CUT TILL DOLLARS BUY MORE

By resolution yesterday the Manufacturers' Council of New Jersey pledged its membership to make no reductions in wages until after the purchasing power of the dollar shall have increased materially. The 200 manufacturers who attended the convention in the Robert Treat Hotel at Newark also pledged themselves to refrain from cutting wage scales, until after other elements of their business are adjusted.

Warren C. King, President of the Council, proposed a State Industrial Commission for the intelligent handling of after-the-war problems.

President Quinn and Secretary Hilfers of the New Jersey Federation of Labor spoke on the relationship of employer and employee. They took the view that the day is fast arriving when capital and labor will come into close communion for mutual benefit.

The labor leaders also suggested that labor and the manufacturers get together in the consideration of a State insurance arrangement with the object of bettering their mutual interests. At present manufacturers of New Jersey are paying insurance companies \$4,000,000 on workmen's insurance, but the workmen get only 25 per cent. of that sum it was said.

The agricultural conference adopted resolutions calling for the creating of better credit facilities for farmers, extension of rural telephones and free delivery and the carrying of freight by trolleys, revision of freight schedules and legislation for the more adequate protection of the farmer against unscrupulous dealers and distributors.
