## Household Cares

**Tax the Women of Greenville the Same as Elsewhere.**

Hard to attend to household duties

With constant aching back, A woman should not have a bad back,

And she seldom would if the kidneys were well.

Doan's Kidney Pills are endorsed by thousands. Ask your neighbor!

Have been used in kidney trouble over 50 years.

Read what this Greenville woman says:

Mrs. J. W. Kirk, 753 S. Main St., says: "I suffered from kidney complaint and my back ached so I could hardly do my housework. When I was doing my washing, I couldn't straighten my back and it ached so. I thought it would break. My kidneys didn't act right, either. A friend advised me to use Doan's Kidney Pills and I procured some at the Boyd Drug Co. Doan's helped me from the start and soon my back aches and other symptoms of kidney trouble left. I felt like a different person."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Kirk had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

## AN OVERBURDENED MOTHER

If the steps a mother takes and the work she does could only be emasured by figures, what an array they would make. Through girlhood, wifehood and motherhood woman toils on, often suffering from backache, pain in side, headache, nervousness and sleeplessness, symptoms of more serious ailments peculiar to her sex. Thousands of such women, however, have found relief from suffering by taking Lydia E. Pinkham's Vegetable Compound, as is evidenced by the letters of recommendation being published in this paper.

**Come and hear the phonograph with which the Edison Laboratories challenge the talking machine manufacturers!**

Here it is—the Official Laboratory Model—which the Edison Laboratories, in a sweeping challenge, have pitted against the talking machine world!

## READ THE CHALLENGE

We've printed it word for word. 4,000 such Comparison Tests have been made all over the United States and Canada. They have brought home to over 3,500,000 people, the wonderful Realism of the New Edison.

The illustration above shows the test made recently at Los Angeles, Cal., when 1,500 persons were unable to distinguish the difference between the voice of Marie Morrissey, famous contralto, and its RE-CREATION by the New Edison.

## YOU CAN DETERMINE

The New Edison's Realism for yourself, in an interesting and fascinating way. Ask for the Realism Test. We give it with the Official Laboratory Model. See if its realism is all that the challenge claims.

## PRICES MAY RISE

The price of the New Edison has advanced less than 15% since 1914. Most of the increased costs of manufacture are borne personally by Mr. Edison. But conditions may yet force a price advance. Get your New Edison now. Our Budget Plan—a little common-sense applied to spending, pays for it. Ask.

## The Challenge!

"We are informed that the representatives of one or more talking machine manufacturers have stated, on several occasions, that they are able to distinguish between a singer's voice, or instrumentalist's performance, and the New Edison's RE-CREATION of such voice or performance."

"We hereby invite responsible representatives of any reputable talking machine manufacturer to permit themselves to be blindfolded, and to listen to such a comparison, in the presence of judges of their own choosing, indicating to such judges when they think they are listening to the artist, and when to the New Edison. There is only one condition attached, and that is—that the representatives of such talking machine company, and the judges selected by them, shall sign a written statement, setting forth, in full detail, the results of such test. 'The test will be made with an Official Laboratory Model, taken from stock, such as can be bought in any Edison dealer's store.'"
