# DRTP HUBBELL'S

CRYSTAL GEM SPECTACLES AND EYE GLASSES

**Exclusive Professional Attention to the Adjustment** 

RUTLAND, Vt., August 3, 1885,

Dear Sir.—I write to give my testimony to the
effleacy of the Liver and Kidney Cure. In the
early part of 1881 my health became impaired,
and I consulted the leading physician of this vicinity, who pronounced it liver and kidney
trouble, and prescribed for me. I continued his
treatment nearly the entire year, with but little
benefit. In the spring of this year I was induced
to try Dr. Royce's Liver and Kidney Cure. After
using two bottles I felt a decided improvement,
which caused me to continue to take it and I
have now taken seven bottles and am entirely
cured. And I gladly recommend it to all sufferers. Yours truly.

Charles Decker.

May 16, 1890 EDITOR NEWS AND CITIZEN:-It is possible that some of your Vermont readers may still have enough curiosity about the wild and woody west to peruse a letter from our new and growing town, which started in the wilderness from nothing on the 15th of January last, and now has a population of 3000, with expectations of the progress made. Hundreds of acres of heavy fir timber have been removed and miles of streets graded. We have eight or ten hotels, twice as many saloons, and real estate offices galore. Expect the Union Pacific and Northern Pacific railways to make a terminus here. Any one who has a large map of the Puget Sound country will find this town at the North end of Fridays Island, East of Victoria, North-East of Port Townbeen accustomed to dress flesh wounds for a town. Without regard to the abiding place at least for the summer months. We have daily communication with Seattle via Puget Sound steamers, and shall have access by rail during the season, as a road is already completed for several miles. The whole Puget Sound country is having a boom this year, something marvelous; towns are springing up everywhere; fortunes are made in

> > Right is right, and wrong is wrong Popular opinion cannot make the right wrong, or the wrong right. Yet many a man or boy, on coming into a new community finds that opular opinion just there approves hat which he knows ought not to question whether he is to accept popular opinion as his guide, or is to conform his course to a standard that he knows to be correct. On his

Fifty years ago a young countryman from Vermont went to Boston to try his fortune. He hit upon the idea of establishing a parcel carrying business between Boston and New York, he being responsible for the safety of the parcels. His patronage was not large. At first he carried all the parcels he had between the two sometimes. The young countryman's brated its fiftieth anniversary. It has a capital of \$12,000,000, carries parcels to every state and territory in the Union, and keeps 2000 wagons, 3000 horses and 20,000 men busy the year round. Is not this a

good story?
