A new, up-to-date revised edition is now ready for mailing. Better send NOW, before all are gone. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION THE ONE REMEDY for woman's peculiar ailments good enough that its makers are not afraid to print on its outside wrapper its every ingredient. No Secrets—No Deception. THE ONE REMEDY for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots of well established curative value.

HIGH SCHOOL WINS FROM HILL MILITARY

The high school boys of this city won a victory last Friday night which shows that the boys know something of the game of basketball after all. The H. M. A. boys seemed sorely disappointed and surprised to see such a fast team in this part of the state and furthermore to see Baker play with the opposition when he was formerly one of their men. A rather small crowd witnessed the game, but those who were present missed the best game of basketball that has ever been played by the high school. Quite a few students were there to give yells and also a half dozen H. M. A. boys witnessed the game. During the first half of the game the team work, basket throwing and fouls were each evenly divided among both teams, but just as soon as the second half began our men shifted back to their old positions and the game went on with renewed vigor. At the beginning of the second half Baker played like a whirlwind, making one basket from the foul line and three from the field. Young made two from the field and the rest were made by Johnson. The visitors played a good game and every basket thrown at from the foul line, was made. They took their defeat well and did not oppose the referee in his decisions. The lineup is as follows: H. M. A. Hill, McGuire, Phillip, Zibaden, Nett. H. R. H. S. Baker, Johnson, Hartley-Young, Early Hartley, Bell, Esteras, Ford, umpire, Waldstein, Score 23-12.

ARRESTED a cough that has been hanging on for over two months by taking Ballard's Honeycomb Syrup. If you have a cough, don't wait—stop it at once with this wonderful remedy. Splendid for coughs, cold on chest, influenza, bronchitis and pulmonary troubles. Price 25c, 50c and \$1.00. Sold by Chas. N. Clarke.

What Congress Has Done. Congress is the biggest machine in the United States. It constructs laws with which the judiciary overrides its power and combines the will of the majority. A great machine is congress. It has ground out many important laws and measures to the discredit of the nation, to the humiliation and loss of the people. Here is a sample: Congress has not donated a single cent from the national treasury towards the construction of the public roads in the United States. It has donated about 2,000,000 acres of the public domain to three corporations for the construction of about 1000 miles of so-called military roads through Eastern Oregon and Idaho. It is said these corporations made these grant constructed roads which were nothing better than trails, and that the several counties have since made them wagon roads and maintained them by taxes levied on the farming community. The fathers of the constitution lived before the railroad age had come in. This arterial system of transportation was not in their minds nor in their dreams when they framed section 8. During the past 40 years congress has donated 300,000,000 acres of the public domain to five trans-continental railroad systems of internal communication. This vast area is equal to the entire area of France and Germany combined, which contains 100,000,000 of inhabitants. To one of these railroads congress has donated \$1,000,000 acres; this area is equal in extent to the six following states: New York, New Jersey, Massachusetts, Rhode Island, Connecticut and Delaware—Walla Walla Telegram.

Many Sleepless Nights, Owing to Persistent Cough. Relief Found at Last. For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably covered a period of several weeks and caused her many sleepless nights. My wife, Wil J. Haver, editor of the Barley, Col., Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was indeed marvelous. After three doses the cough entirely disappeared and has not manifested itself since. This remedy is for sale by Kier & Cass.

Facts About Oregon. The business men, ministers, school children and citizens of Portland generally are busily engaged sending in personal letters to their friends a "leaflet," which in addition to no other advertising, states the fact that "Oregon is the place for you" and giving the low coldest rates to this state, contain the following condensed facts on Oregon: OREGON Has one-sixth the standing timber of the United States, or more than any other state. Government estimate, three hundred billion feet. A vast undeveloped area now available to the home maker and inventor will go on the market in 1909. This will be the most luscious melon out in Uncle Sam's domain during the present year. Has arable land enough for twenty million people. Present population 700,000. Does more than any other state to advance irrigation, being the largest contributor to the United States Reclamation Fund. Is natural dairy state. Annual product \$17,000,000, an increase from \$5,000,000 five years ago. Western portion has pasture every month in the year. Ranks second in wool clip among the States. Oregon apples, pears and cherries find their way to tables of sovereigns and multi-millionaires of every civilized land—they are the best. Returns of from \$500 to \$1,000 per acre on fruit lands are not exceptional.

NO INDIGESTION OR DYSPEPSIA

healthy stomach and it will digest your food in a natural way. Pleasant to take. Sold by Keir & Cass. After consultation with officials of the reclamation service, Representative Ellis has written to settlers under the proposed Malheur irrigation project, informing them that the government will gladly take up and build that project if they themselves will promptly get together and induce all landowners, including the Wagon Road Company, to join the Water Users' Association in agreeing to sell their surplus lands when the water is ready for delivery and file application for water rights for all irrigable lands. The project is attractive to the government engineers, more so than many others under consideration, but it is up to the people themselves to say whether or not it shall be built now or later. Poultry products \$5,000,000 annually. Local market demands three times that amount at highest prices. Has water powers (being rapidly developed) sufficient to run all the machinery in the United States. Live stock in this state estimated at \$75,000,000—packing plants now building insure a trebled market. Has two prosperous mining sections, located in the eastern and southern portions of the state—gold, silver, iron, copper and oil among the product. Has diversity of climates and soils suited to every product of the temperate zone not dependent upon hot nights. Kennedy's Laxative Cough Syrup not only allays inflammation and irritation of throat and lungs, but it drives out the cold from the system by a free yet gentle action of the bowels. Sold by Keir & Cass. Will Water 20,000 Acres. An option has been secured on a tract of 20,000 acres on the north bank of the Columbia, near Coyote rapids, around the bend from White Bluffs, which will be put under water this summer if the local residents complete. This will be one of the largest irrigation projects on the Columbia, and the land will be devoted to fruit raising. The option has been secured by L. F. Jones, Puget Sound passenger agent for the New York Central lines, for eastern capitalists whose names are not announced. The men interested have a colonization scheme in mind and intend to bring out families from the east and settle up the entire tract. The land will be watered by pumps from the Columbia river and a small tract assigned to each family. The land fronts on the river opposite the northern extremity of the Hanford lands, and once under water would combine with the Hanford and White Bluffs projects to form a large tract of irrigated land in the Columbia valley. Actual, prompt relief for all your misery is at your Pharmacist, waiting for you. These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion.

THIS IS SAID TO HELP MANY

Get from any prescription pharmacist the following: Fluid Extract Dandelion, one half ounce; Compound Kagon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime. The above is considered as the most certain prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the eliminative tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism. Some persons who suffer with the afflictions who do not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs. Mix some and give it a trial. It certainly comes highly recommended. In connection with an eminent author, whose entire reputation, it is said, was established by it. A druggist here at home, when asked, said that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless. California Prepares To Build Good Roads. If Oregon and Washington will only follow the example set by California the dream of a great highway extending from Mexico to British Columbia will be realized within a comparatively few years. The golden state has before its legislature a bill providing for a bond issue of \$18,000,000, the money to be used in building and maintaining a great and comprehensive system of highway extending from one end of the state to the other. There are two bills—one providing money and regulations for mapping out the system and other arranging to submit to the voters at the election in November of next year the proposition to issue \$18,000,000 of fifty-year 4 per cent bonds to build the great highway, of the system as laid out. The first bill meets the main contention of the California Good Roads Association and provides that the different counties may construct roads as part of the system; get them accepted as part of the state highway, and then have care for them forever. The second section of the bill makes it the duty of the department of engineering to lay out and adopt a continuous and connected state highway system running north and south through the state traversing the Sacramento and San Joaquin valleys and along the Pacific coast by the most convenient, direct and practicable routes, connecting the county seats of the several counties through which it passes and joining the centers of population, together with such branch roads as may be necessary lying east and west of such state highway, the right of way which shall be at least forty feet wide. The bridges and culverts are to be of stone or concrete, and the road material "Telford" macadam or gravel, and the improved or permanent roadway not be at least twelve feet wide. Section 5 of this bill provides for the construction by the counties of portions of the great highway, for the turning over to the state of those portions and for the state's future maintenance of the same. Each state provision is made for the letting of contracts by the state engineer and department of engineering and for payment for the work done. This department of engineering is given power to accept, lease or purchase lands and rock quarries and all necessary materials and supplies. Road is a combination of the natural digestive juices found in an ordinary

Folger's Golden Gate Coffee. The aroma-tight can protects it against impurities and deterioration—never sold in bulk. Your grocer will grind it—better if ground at home—not too fine. Mix some and give it a trial. It certainly comes highly recommended. In connection with an eminent author, whose entire reputation, it is said, was established by it. A druggist here at home, when asked, said that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

DISAPPOINTED We expected to be in our new building by February 1st, but have been disappointed in this and our New Spring Goods are arriving and we are so crowded for room we are compelled to sacrifice prices to keep the Stock down to the lowest point possible and will offer our NEW SPRING GOODS At Exceptionally Attractive Prices

We are overloaded on Embroideries And will continue Sale another week Worth up to 10c per yard, for per yard 6c Worth from 12c to 21c per yard, for per yard 10c This is a snap.
