J. C. Dodge, 160 Main St

The Weather.

BOSTON, May 25.—Rain, clearing to-night. Fair Thursday.

Who Will Speak IN BARRE

Memorial Day? COL. CHILDS ILL.

It is, with much regret that we have to announce today that Col. George T. Childs whom the R. B. Crandall Post No. 56, G. A. R. were so fortunate as to secure for a Memorial Day speaker will be unable to be in attendance on account of a sudden and serious illness. Col. Childs is a popular speaker and one of the best known men in the state. The people of Barre were congratulating themselves that he was to deliver the address, and now there is a double cause for regret, in the solicitude for his health and the disappointment caused by the news that he cannot be present.

In response to a letter written to Col. Childs on Monday the EVENING TELEGRAM received the following reply:—

Dear Sir.—Your letter of May 23rd to my father, Col. George T. Childs, received yesterday. In reply I have to say that he has been confined to his room and bed since Friday and is now prohibited from the transaction of any business. Although improving his attendant physician absolutely forbids any mental and physical exertion for some days to come. He has therefore been obliged to advise the committee of arrangements of Crandall Post, No. 56, of the impossibility of fulfilling his engagement with them. He begs me to express his sincere regret that the situation should be such and to assure you that nothing but a question involving his health would have prevented him from being in attendance in Barre on the 30th. Thanking you on his behalf for your courtesy, I remain, Yours respectfully, HAROLD D. CHILDS.

Just before going to press Rev. J. Edward Wright has accepted an invitation to deliver the address.

A SUGGESTION.

WHAT THE POST-MASTER SAYS ABOUT GETTING MORE CARRIERS.

When the people of Barre read the new letter carrier schedule which has been handed to the post-master to carry out, there will probably be a good deal of fault-finding.

Some of those who have been receiving their mail twice a day will in the future only receive it once a day and some will be compelled to call at the office to get it. It will be a great inconvenience to some, while with others who live near the center it will make no material difference. Post-master MeWhorter has done all in his power to get better service for the people of Barre for some time, and he has failed, but the fault does not lay with him. If it was under his jurisdiction there would be no question but that this city would have as good a carrier service as any city in the State.

An EVENING TELEGRAM reporter had a little conversation with the post-master yesterday afternoon and he had a suggestion to make to the people of Barre which ought to be appreciated. He said that there was no question that Barre is in need of better carrier service. If the residents of Barre would circulate a petition for the same and get a large number of signatures and forward it to Congressman Grout, he would use his influence and Barre would have a first class mail service by the 1st of July. The term of the Congressman runs out in a short time and he would be none too glad to get on the right side of the people of Barre and will do all in his power to help them. Who is the first to start this movement?

CLAN GORDON NOTES.

At the regular meeting of Clan Gordon last evening there were four candidates initiated and names of 6 balloted for and accepted. There are twelve names to be balloted on at their next meeting. Those initiated were: Alex Ross, John Watt, James Webster and George Wilson.

The candidates accepted were John Henry, James Will, John F. Thom, James Black, Harold Clark, Findlay McKee, Alex Robertson, Arthur LeBaron, W. J. Gilbertson, Steven Kemp, Wm. A. Reid, Robert Edwards, John Willie, Robert J. Smith, Joseph Campbell, W. Reid.

The new candidates to be balloted for at the next meeting are: Wm. Taylor, David Mercer, Wm. Davidson, Charles Counts, Charles George, Robert Corbin, Gordon Hay, Robert Duff, J. Murphy, Alex England, James Allen, Angus A. Smith.

Alex Smith has been transferred from Clan McGregor No. 5, Quincy, Mass., to Clan Gordon. James Simmers has also been transferred to Clan Gordon. Mr. Simmers comes from Clan Douglas No. 3, St. Louis, Mo.

Royal Deputy Bird has been to Hardwick for the purpose of organizing a Clan at that place. He has already received 11 names and it only requires 15 charter members to organize.

The required time for the competition for the banner is fast expiring, and it is every name that the Clan has now received are passed and the candidates initiated there will be at the least 62 and we think the chances for the banner are excellent.

Call For Volunteers. 75,000 More.

Cervera at Santiago---Officially Confirmed---Caught at Last.

Oregon Arrives and Starts on The Warpath.

Fleet at Santiago Sure.

PORT AT PRINCE, May 25.—The Associated Press has obtained definite information which confirms the news of the arrival of the Spanish fleet at Santiago.

WASHINGTON, May 25.—In reply to queries to the President this morning he said the report that Cervera is bottled up in Santiago harbor is undoubtedly true. Secretary Long said it is supposed that he went in there for coal. Schley can have whatever aid he wants and it is only a question of hours when the Spanish navy will lay down its arms before the mighty power of the western hemisphere. How the boasted strategy of the Spanish may allowed Cervera to be caught in this manner cannot be answered by the American naval officers who maintained a wholesome respect for this opponent.

Will Serve Spain.

MADRID, May 25.—An official despatch from Manila announces that most of the chiefs who led the recent insurrection have presented themselves to the Spanish Governor General and announced their intention to serve Spain. It is said here that the Spanish prisoners of war of the United States still complain that they are treated as convicts.

75,000 Volunteers.

WASHINGTON, May 25.—The President has issued a call for 75,000 more volunteers making a total army strength, regular and volunteer, of 280,000. This call is similar to the previous one only making the amount 75,000. Alger said this afternoon that the additional volunteers are not to be recruited from the National Guard as was the others but the enlistment will be open. The call indicates a determination to push the campaign vigorously.

The Race Exciting.

JUPITER, Fla. May 25.—The Oregon, Marietta, and Buffalo arrived here last evening and sent their boats ashore. The officers say that the race around the continent was full of excitement but they had full warning and expected a fight for which they were prepared night and day. They are rejoicing now that they can take part in the action at Cuba.

Canadian Settlement.

WASHINGTON, May 25.—The negotiations designed to bring about a settlement of all controversies between the United States and Canada will begin today at the state department when Gen. Foster and Reciprocity Commissioner Kason will hold a conference with Sir Julian Pannocofte and the Canadian minister of marine.

Murdered For Gold.

KEY WEST, May 25.—James J. Dorcsey, a prominent machinist here, was found dead early this morning near his hotel. His face and head were bruised beyond recognition. He was paid off last night and was murdered for his money. This crime, together with the assault by the negroes upon the sailors last night, has roused the people to demand that the city be placed under martial law. There are only two policemen in the city.

To Buy Mules.

ST. LOUIS, May 25.—The assistant quartermaster general here of the army has received orders to buy mules without limit. One hundred thousand dollars has been spent on buying mules this week.

American Bark Released.

LONDON, May 25.—A despatch just received here from Hong Kong says that the American bark Saranac, which was captured by the Spaniards at HoLo has been released.

News of the Oregon.

WASHINGTON, May 25.—Secretary Long has received an official despatch announcing the arrival of the Oregon in Jupiter Inlet, Florida. The fact was reported to the president immediately. At 10 o'clock this morning Secretary Long said that he had received no official news of the bottling up of Cervera in Santiago harbor by Schley. All he had heard was the press reports, still he said that he had reason to credit these reports. The latest press accounts say that Cervera with his whole squadron is inside the narrow passage which leads to Santiago and that Schley is outside the gate, not making any preparations to rap and entice, but waiting for Cervera to come out and greet him, while the Spaniard on the inside is waiting to see what his visitor will do, following out the old fable of the spider and the fly, except that the fly is not one of the ordinary kind. If the report of the situation is true in every particular Cervera is sure to surrender or the whole fleet of which he is in command will be annihilated.

German Story Denied.

BERLIN, May 25.—It is semi officially denied that there is any truth in the story from Manila regarding the German Consul's threatening Dewy for not permitting the landing of provisions from German ships.

Oregon Leaves.

JUPITER, Fla. May 25.—The battleship Oregon which arrived here last night left this noon. Destination unknown.

Do Not Lack Patriotism.

WASHINGTON, May 25.—One hundred and twelve thousand men have now been mustered into the United States service. A majority are ready to move to the front. Two-thirds of the States have already completed their muster. The failure of some southern states to furnish the men called for is surprising to army officers. It is not regarded as a lack of patriotism but on account of home ties many members expect men unhampered by such ties to enlist first.

Shot His Son-in-Law.

MANCHESTER, N. H., May 25.—A special to the Union says that Benjamin C. Young, one of the most respectable citizens of Stewerstown, shot his son-in-law, Ira A. Reed, late Monday night. Reed died from the effects of the wound yesterday. Reed had an ungovernable temper and was considered very dangerous. He frequently beat his wife and four-year-old son. He took them to a chopping-block and threatened to cut their heads off. His wife left him Sunday and Reed declared he would come to the house and kill the whole family. Young was afraid and watched all night. When Reed came he raised his rifle and shot at Young, but the latter was too quick for him and shot him in the hip. Reed died.

FOMENTATIONS.

How to Prepare Them When No Hot Water is at Hand.

Fomentations of hot or cold water are often very useful, and every one should know how to give them. A flannel cloth may be folded, wrung out of hot or cold water as is desired and applied directly to the skin. It is much better after wringing out the flannel as dry as desired to fold it in a dry flannel cloth of one or two thicknesses before applying it to the patient. A little time is required for the heat of the fomentation to penetrate the dry flannel, and thus the skin is allowed an opportunity to acquire tolerance for the heat, and a higher degree of temperature can be borne if the moist cloth is brought directly into contact with the surface. The outer fold of dry flannel will also serve to keep the cloth warm by preventing evaporation.

A hot fomentation is sometimes needed when no hot water is at hand. It is not necessary to wait for water to be heated in the usual way. Soak the flannel in cold water, wring as dry as desired, fold in a newspaper and lay upon the stove or wrap it about the stove-pipe. In a few minutes it will be as warm as the patient can bear. The paper keeps the pipe from becoming moistened by the wet flannel and at the same time prevents the flannel from being soiled by contact with the pipe.

Fomentations thoroughly applied will relieve most of the local pains for which liniments, lotions and poultices are generally applied and are greatly to be preferred to these remedies since they are cleaner and aid nature more effectively in restoring the injured parts to a sound condition.

The fomentation may be changed frequently, and after it has been removed massage may be given either by the person himself or another, so as to strengthen the part and promote a better circulation of blood in it.—Exchange.

He Had Traveled.

"Now," said the intrepid explorer after he had shown the zealous native the inside workings of the brass watch and had noted his naive wonder at the mysteries of the mechanism, "I will let you have one of these for two tusks. Then you can be the envy of the tribe." The native gentleman yawned. Then he said: "I exchanged a second-hand war club for a bundle of these things when I was in London last summer, and there was not one of them that went for more than a week."—Pearson's Weekly.

The GRAPHOPHONE Most fascinating invention of the age. Always ready to entertain. It requires no skill to operate it and reproduces the music of bands, orchestras, vocalists or instrumental soloists. There is nothing like it for an evening's entertainment. Other so-called talking machines reproduce only records of cut-and-dried subjects, specially prepared in a laboratory, but the Graphophone is not limited to such performances. On the graphophone you can easily make and instantly reproduce records of the voice, or any sound. Thus it constantly awakens new interest and its charm is ever fresh. The reproductions are clear and brilliant. Graphophones are sold for \$10 and up. Manufactured under the patents of Bell, T. A. Edison and Gramophone. One establishment in Brattle Street, New York, is the world for Talking Machines and Talking Machine Supplies. Write for catalogue.

HOUSE-CLEANING.

What to use to clean windows and give them a nice polish. We have a lot of glass to keep clean; here is the method we find the best and easiest. Use ammonia in the cleaning water—this takes off the grease and dirt. Strong Ammonia, 15c a bottle. Use a Sponge and wash thoroughly, and finally polish with a Chamois Skin. Sponges all sizes and prices.
