

# SEASONABLE SALE.

## Every Class of Goods in Our Store Represented

We shall begin tomorrow morning the greatest special sale of new, desirable, high grade shoes ever offered to the Brattleboro trade.

We call it a "Seasonable Sale" because, thus early in the season, while the summer trade is at its height, we make a general and unreserved selection of goods from every department of our store, and give our customers the benefit of a sweeping price reduction throughout. This sale means a complete clearing up of our whole stock, not only in our retail store, but it includes many lines of drummers' samples, of changing styles, and changing manufacturers from our wholesale stock.

The new, stylish, strictly high grade and thoroughly reliable goods which will go into this sale, will represent in extent and variety more than the whole stock of an ordinary well equipped retail shoe store. And on every pair of these shoes there will be money saving which will represent feet well clothed for months to come and good money left for other uses.

To facilitate this sale and to show quickly and plainly to every customer just what it means, a large portion of the store has been set off and divided into sections, each section containing a separate line of goods with the reduced prices plainly marked. As a further convenience men's and women's shoes are shown separately. In these several sections you will find \$3.50 and \$4 shoes marked to be sold at \$2.47, \$2.50 and \$3.00 shoes at \$1.98, \$2 and \$2.50 shoes at \$1.59, \$1.50 and \$1.75 shoes at \$1.23, and \$1.25 and \$1.50 shoes at 99c. You will also find several very special values, an example of which in the women's department is some nice \$3 Oxfords for \$1.98, and a lot of \$1.50 Colonial Ties for 79c. Look for other equally special values, notably in high shoes and Oxfords to meet the taste of the young men. ## BELLOWS FALLS NEWS

The Belhows Falls Locals will play in Ludlow Saturday.

Dr. and Mrs. G. H. Gorham will leave tomorrow for Boston. They expect to spend the coming week visiting in Plymouth and on Cape Cod.

Gerald King left Saturday for New York to join the Blanche Bates theatrical company which is rehearsing there in preparation for the coming season. Mr. King is assistant stage manager.

F. C. Sheldon, proprietor of the Central hotel, will leave this week for Rockaway, N. Y., where he has a summer hotel. During his absence, until next October, the hotel will be run under the management of Shubel Peck.

Great interest centered in the first of three games of base ball between the Saxtons River and Belhows Falls teams which was played at Barber park Saturday afternoon. The Saxtons River boys won 5-4 in a sharply fought contest, which was replete with fast plays.

The last open saloon in Belhows Falls closed Saturday night, when the license of Hotel Central expired. Since the closing of the Hotel Windham bar the first of the month this place has done a large business, and up to the last minute on Saturday the bar was crowded.

The local interests in North Walpole have been greatly stirred by the prosecutions instituted by the state board of license commissioners who, after hearings held in Concord Thursday, revoked the licenses of J. H. Flavin, P. A. Killen and M. H. Murphy. The Walpole House and the Riverside hotel here will be closed.

The theatrical company headed by Miss Fannie Wood and Lester Davis is drawing large audiences to Barber park this week, and the entertainments are pronounced among the best which have ever been produced there. Miss Rie Lorraine and her company, who have been here on previous occasions, will come to the park next week.

The Boston & Maine Railroad company closed the bridge between North Walpole

and Belhows Falls to all pedestrians on Friday night, and placed three officers on duty to keep people away. This will mean a long trip for the people of North Walpole who wish to go to Belhows Falls, but there seems to be no way to get around the difficulty until the new bridge is built. To retaliate on the company the village of North Walpole has refused the railroad the use of the village water supply. The village will also demand a railroad station and freight depot, as access to the Belhows Falls station has been removed.

An event in which many of our citizens were interested took place Thursday night of last week when about 250 people attended the banquet at the opening of the new hotel in Saxtons River. Several after dinner speeches were made. The board of directors in the hotel company is as follows: F. L. Osgood, president; J. H. Blodgett, vice president; G. P. Alexander, secretary; C. P. Simonds, treasurer; J. P. Alexander, Louis Tenney, John E. Pladoock, F. S. Fuller, S. A. Whipple, George M. Coray, W. E. Coray. Chinese Woolley, an experienced hotel man of Boston, has leased the house for five years, and will make an effort to give it a reputation as a summer resort.

The hotel is three stories high with a tower two stories higher, is complete in all its arrangements and contains 26 sleeping rooms and four bathrooms.

Edgar T. Washburn, a member of the firm of Heathfield & Washburn, grain dealers on the board of trade in Buffalo, N. Y., shot and killed his wife, daughter, aged 15, and himself in their home Friday. He is supposed to have been temporarily insane. He left a letter to a relative saying he was having trouble in his business.

If you are tired taking the large old-fashioned griping pills, and are satisfied that purging yourself till you are weak and sick is not good commonsense, then try Carter's Little Liver Pills and learn how easy it is to be free from biliousness, headache, constipation, and all liver troubles. These little pills are smaller, easier to take and give quicker relief than any pill in use. One a dose. Price 25 cents.

The date for the Old Folks' concert, to be given by our young people, has been fixed for July 29 at the town hall. Cake and ice cream will be served. The entertainment bids fair to be a leader, and it is hoped an appreciative audience will be present.

Last Saturday gave to our quiet village the most reckless automobile driving that has been seen on Main street, a spectacle which officers should take into spec-

ial consideration, for as long as officers are so remiss in their duties law-breakers will run riot, snapping their fingers in the face of justice and common decency.

## The Daily Task.

Thy daily task is done,  
And though a lowly one,  
Thou gavest it of thy best,  
And art content to rest  
In patience till its slow reward is won.  
Not far thou lookest, but thy sight is clear;  
Not much thou knowest, but thy faith is dear;  
For life is love, and love is always near.

—(Henry Van Dyke.)

An improved machine for sealing envelopes has been invented by a man in Topeka, Kan. The machine, it is claimed, will seal from 8000 to 15,000 envelopes an hour.

## Humbag About "Jeffersonian Simplicity."

[New York Sun.]

This plank appears in the Democratic platform:

"We believe that one of the best methods of procuring economy and honesty in the public service is to have public officials, from the occupant of the White House down to the lowest of them, returned as nearly as may be to Jeffersonian simplicity of living."

Now, how did Jefferson live? He was the life of an educated, studious, intelligent and well-to-do gentleman of his day. The estate he inherited from his father gave him a handsome income for those days and he increased it by a large law practice and by marrying, in 1770, a rich widow. He enjoyed the luxuries of life and indulged himself in them. His home at Monticello, the most distinguished seat of private hospitality in America, was equipped with all the conveniences obtainable at the time he flourished.

That is, he conducted himself as became a gentleman of his means and his consequence and there was nothing in his exterior manner of life to indicate that if he had lived in our day he would have ordered his household less expensively or less elaborately than does the man who is now in the White House, or the men who will live there in the years to come.

The American people expect their President to live in a way becoming the dignity of his office and their own dignity, and accordingly they provide him with a home and with a salary sufficient to enable him to do it.

That famous mountain in Mexico, Popocatepetl, has been sold to an American syndicate, which expects to amass generous profits by the use of the latest inventions for the securing of high quantities of sulphur from the crater of the volcano.

Worry is said to be a disease.

Camphor is now made by a chemical process.

Ramon Corral, vice-president-elect of Mexico, who is known as the "baby" of President Diaz's cabinet, is 46 years old.
