### BELLOWS FALLS NEWS from a large number of friends of a long

The deer season has been an unprecedentedly successful one in this section and many interesting stories are being told, both of success and defeat by our citizens. The snow which fell from five to six and one-half inches during the Tuesday night preceding the first day of the open season last week was a great assistance to the hunters, and one morning since then there has been about an inch of fresh snow, aiding the tracking of game. The first few days hunters were the most successful. The locality most popular as having yielded the best result is about a mile radius out from Lawrence Mills, about in the centre of the town, which has seen seven bucks killed and one doe has been struck by a Rutland railroad train and injured so as

killed and one doe has been struck by a Rutland railroad train and injured so as to necessitate killing in the same belt. Following is a list of 27 deer secured in this town, and five secured by Bellows Falls citizens in neighboring towns: William J. Keefe, John P. McCann, Michael Morrison, S. C. Hewey, W. A. Bushs, Harley Wiggin, George Morris, Charles Parker, Frank Parker (200), Morris Glynn, Harry Glynn, Charles Piper, F. E. Butterfield, E. B. Butterfield, John E. Walsh, George P. Alexander, George Parker (200), Guy Ellison, Frank Snow, Dr. C. T. Clark, Fred Morrison of Bennington, Frank Gammell (reported to be 400), Everett M. Herrick, Fletcher Snow, James H. Wooley, Ambrose Mor-Snow, James H. Wooley, Ambrose Mor-ris and George P. Kenyon (225). Following citizens have brought them in from outside the town: D. F. Pollard from Perkinsville, George Hale from Simons-ville, John J. Royce from Winball, J. Q. Pierce from Winhall, and Arthur H. Fuller from Athens,

#### Use of Arm Probably Gone.

John E. Bowe of 18 Poplar street, who on May 25 was stabbed under the arm by a Polander with whom he was having trouble near the north end of Camal street, has returned from his second trip to the New York neuropathic hospital. He is becoming convinced that he will never regain the use of his left hand and arm. The knife of the assailant was driven into the body under the arm on the left side and severed one nerve of motion of that hand and severely cut two more. Some months ago Mr. ly cut two more. Some months ago Mr. Bowe went to New York and remained several weeks and during that time Dr. Taylor, one of the most eminent nerve specialists in this country, performed the operation of splicing the severed nerve and by keeping the arm bound tightly to the side it was hoped the nerve would knit and its use be restored. Such an operation often has been successful, but in this case it was not and the injured man can barely move the extreme ends of his fingers. His recent trip to the hospital was one for external treat-ment and no second operation was per-formed although one may be performed later. The Polander, who is under bonds to appear in county court, was not called for at the recent term as expected, but is at work regularly for the International

Swinging Indian clubs, raising dumb-bells or going through the various movebells or going through the various movements of the "home gymnastics," so popular a few years ago, soon becomes monotonous. The man who can keep it up every day, year in and year out, possesses an enviable will-power that is in itself akin to genius. Fortunately, no itself akin to genius. Mind and body alike are renewel, and all this without effort, if the walk is taken

with a purpose. The purpose can be found, for there is always an errand which one can do for himself or another. The business man especially, the one who needs more than any one else this life-giving exercise, can get it by walking to or from, or to and from, his office.

This may seem irksome or time-wasting at first, but with a little perserver-ance it soon becomes a habit. Then very soon its benefits are recognized; one by one disagreeable minor symptoms disappear, meals are properly di-gested, sleep becomes a matter of course, and those first few extra pounds of flesh at which the family physician has looked askance insensibly disappear. The wise man will not readily abandon a habit which brings such certain reward.—[Youths' Companion.
