HARE AND HOUND CHASE HELD FRIDAY NIGHT

**Juniors Gave the Seniors a
Lively Chase Ending
With a Supper**

When the seniors of the Academy came to work Thursday morning they found on the bulletin board an attractive poster issued by the junior class and challenging the seniors to a hare and hound chase Friday night. At chapel Friday morning the invitation was accepted by the president of the senior class, Alton Spencer, in the form of a very clever poem.

The hour of 8:30 arrived and with it the darkness, thus making the chase doubly difficult for the hounds. The hares had a 20 minute start, scattering bits of paper as they went along to indicate their trail. The hares were led by Miss Gertrude Cronan and Alice Kine and the hounds were led by Miss Dorothy H. Brown and Dorothy M. Church.

The chase was promptly taken up by the hounds at about 6 o'clock when they found leading into the pasture of Hatcher. Three false trails were also found leading into the pasture of Frank H. Bonok. The trail was finally picked up at Coreyville and found to cross the footbridge over Sleeper's river. From there it went up the "Devil's slide" where four fences were crossed and ended in the hedges and gave below the Observatory knob. There a roaring fire announced the presence of the hares which was a welcome sight to the weary hounds.

The sound of the bugle by Doring of the senior class announced the first call to supper and no other call was necessary. Frankfurts and marshmallows formed the principal features of the spread after which there were songs and cheers, each member of the faculty being thus honored.

The trail home led through a swamp where the aid of flashlight was greatly appreciated. The chase was participated in by over 100 students and was voted a great success.

Warner's Safe Diabetes Remedy has brought health and happiness to many who thought themselves beyond aid.

Diabetes is a peculiar and baffling disease which the medical profession seems to be unable to cure. Despite the many years of experimenting and research by foremost physicians throughout the world.

Diabetes is invariably the result of impaired nutrition—this results in an excess of sugar in the blood and failure of the food to nourish, hence a gradual wasting away while eating well.

Symptoms of the disease are, increased thirst, excess of urine, emaciation and dry skin, often with sweetish odor.

Following are a few voluntary words of praise from a man who has used Warner's Safe Diabetes Cure with gratifying results. Perhaps you may be benefited in a like manner.
