ECZEMA

Psoriasis, Scalled Head, Milk Crust, Tetter, Ringworm, etc.

Speedily, Permanently and Economically Cured, when All Else Fails, by

Uticura

The agonizing, itching, and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair, and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the owful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum, - all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world,

Complete External and Internal Treatment

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation, and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent to cool and cleanse the blood. This complete treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning, and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and the best physicians fail. As evidence of the wonderful curative properties of Cuticura Remedies and of their worldwide sale, we quote from

The Hon. Mr. Justice Finnemore's Letter.

"I desire to give my voluntary testimony to the beneficial effects of your Cuticura Remedies. I have suffered for some time from an excess of uric acid in the blood; and since the middle of last year, from a severe attack of Eczema, chiefly on the scalp, face, cars and neck, and on one limb. I was for several months under professional treatment, but the remedies prescribed were of no avail, and I was gradually becoming worse, my face was dreadfully disfigured, and I lost nearly all my bair. At last, my wife prevailed upon me to try the Cuticura Remedies, and I gave them a thorough trial with the most satisfactory results. The disease soon began to dissappear, and my hair commenced to grow again. A fresh growth of hair is covering my head, and my limb (although not yet quite cured) is gradually improving. My wife thinks so highly of your remedies that she has been purchasing them in order to make presents to other persons suffering from similar complaints, and, as President of the Bible Women's Society, has told the Bible women to report if any case should come under her notice when a poor person is so afflicted, so that your remedies may be resorted to." ROBERT ISAAC FINNEMORE,

Planermarkaburg, Naral, Oct. 49, 1901.

BIRDS THAT PLANT TREES.

Nature Has Plan for the Perpetuation of Forcets.

An old-time Arlsona woodchopper says the bluejays have planted thousands of trees now growing all over Arizona. He says these birds have a habit of burying small seeds in the ground with their beaks, and that they frequently pinion trees and bury large numbers of the small pine nuts in the ground, many of which sprout and grow. He was walking through the pines with an eastern gentleman a short time ago, when one of these birds flew from a tree to the ground, stuck his bill into the earth and quickly flew away. When told what had happened the eastern man was skeptical, but the two went to the spot and with a knife blade dug out a sound pine nut from a depth of about an inch and a half. Thus it will be seen that nature has her own plan for forest perpetuation.

Jade Found in Oregon.

"Jade, the sacred and rare stone used by the Chinese in making bracelets, rings, vases, etc., has been found recently in large quantities in the state of Oregon," said S. T. Taliaferro of Portland to a Star man at the Arlington this morning. "The discorery is considered quite an important one from a mineral as well as a commercial standpoint. This find is said by geologists to be the first of the kind in the United States. The Oregen jade is tough and compact and varies in color from a pure white to a dark green. The bulk of the supply heretofore used has come from Turkestan, but some little as been found in New Zealand and in the islands of the Pacific."-Washington Star.

"Sized Up" His Man.

"Brother" Sheldon, author of "In His Steps," has a sense of humor. He tells this story on himself of a young couple who applied to him to be married. He performed the ceremony with due solemnity and congrutulated the bride. Then he observed the bridegroom searching through his pockets and booking a bit, humiliated and askamest. "I am afraid, parson." he said, "that I ain't got any money to pay you with," Then, after a moment of deep thought, looking up cheerfully, he added: "But I can tell you how to fix your gas meter so it won't register.

A Pointer for Women.

Queen Alexandra's laces, linens and silks are perfumed by a method which almost any woman can copy. The drawers in which they are kept are lined with white paper, strewn with rose petals. On this is placed a layer of the fabrics to be scented, over that a layer of rose leaves, and so on in alternation until the drawer is filled At the end of twenty-four hours everything in the drawer will have a dellcate perfume that will cling to it for a long time.

Pleasure in Doing Good.

Rev. A. P. Doyle of New York remarked the other day: "A woman who has an abundance of the good things of this world appreciates them all the more when she tries to uplift the fallen or bring comfort to the heartbroken, and it sweetens her enjoyment of God's gifts. On the other hand, there is no more useless creature on God's earth than the woman of wealth who lives for herself alone.

Miss Gannon, Sec'y Detroit Amateur Art Association, tells young women what to do to avoid pain and suffering caused by female troubles.

"I can conscientiously recommend Lydia E. Pinkham's Vegetable Compound to those of my sisters suffering with female weakness and the troubles which so often befall women. I suffered for months with general weakness and felt so weary that I had hard work to keep up. I had shooting pains and was utterly miserable. In my distress I was ad-vised to use Lydia E. Pinkham's Vegetable Compound, and it was a red letter day to me when I took the first dose, for at that time my restora-tion began. In six weeks I was a changed woman, perfectly well in every respect. I felt so clated and happy that I want all women who suffer to get well as I did."—Miss Guila Gannon, 250 Jones St., Detroit. Corresponding See'y Mich. Amateur Art Association. — 25000 forfeit if original of above letter proving geneineness cannot be produced.

It is clearly shown in this young lady's letter that Lydia E. Pinkham's Vegetable Compound will surely cure the sufferings of women; and when one considers that Miss Gannon's letter is only one of hundreds which we have the one of hundreds which we have, the great virtue of Mrs. Pinkham's medi-cine must be admitted by all.
