## Sick Headache

When your head aches, there is a storm in the nervous sys-

tem, centering in the brain. This irritation produces pain in the head, and the turbulent nerve current sent to the stomach causes nausea, vomiting.

This is sick headache, and is dangerous, as frequent and prolonged attacks weaken the brain, resulting in loss of memory, inflammation, epilepsy, fits, dizziness, etc.

Allay this stormy, irritated, aching condition by taking Dr. Miles' Anti-Pain Pills.

They stop the pain by soothing, strengthening and relieving the tension upon the nerves -not by paralyzing them, as

do most headache remedies. Dr. Miles' Anti-Pain Pills do not contain opium, morphine, chloral, cocaine or similar drugs. chloral, cocaine of Similar Grugs.
