Compare a Studebaker Farm Wagon with any other, point by point—wood stock and ironing; wheels, spokes, hubs, tire and felloe; axles and skeins; boxes, gears, bolsters, paint—everything—and you will understand why the Studebaker is sold in excess of any other make in the world. The simple truth is,

The Studebaker is the Best

farm wagon ever built. We have been hammering away at farm wagons for fifty years, and we know what counts for long life and good service. We have the pick of the best lumber sawn in America; we keep 55,000,000 feet of it drying in our yards; we have a larger and better equipped factory and we have more patented, special features than any other manufacturer. That's why more Studebakers are sold than of any other make; that's why every Studebaker customer is a satisfied customer. The same thing is true of Studebaker Carriages and Harness. They are made to last a life time.
