Keeping up with the procession is not enough for the General—he must lead. And lead he does—in volume, quality and price. The General's leadership is due to the enormous resources at his command—the five m's of modern manufacturing—men, money, mills, machinery and materials.

Men who have learned the roofing business through years of practical experience are in charge of every department of the business. Men who have made a life study of the blending of asphalts comprise the General's Board of Expert Chemists.

Money—the means to promote efficiency, increase output, reduce cost, prevent waste—is at the General's call in abundance.

Mills—the largest roofing mills in the world are the General's. They are advantageously located at points where cost of fuel, access to raw materials and quick distribution of finished products are most favorable.

Machinery—the most modern known to the roofing business, equips each of the

General's enormous mills. Not a dollar is left unspent which would speed up production, increase quality or lower costs.

Materials—the food of the mills—is bought by the General in enormous quantities, and stored. This means the pick of the market and favorable buying, and no loss from idle machinery, due to shortage of materials.

Thus the success of CERTAIN-TEED Roofing is no secret, but is due to a combination of resources and experience without parallel in the roofing business.

CERTAIN-TEED is made of the best quality roofing felt, thoroughly saturated with a scientific blend of soft asphalts, the formula of the General's board of expert

chemists. It is then coated with a blend of harder asphalts, which keeps the inner saturation soft and prevents the drying-out so destructive to the ordinary roof.

CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it lasts longer.

CERTAIN-TEED is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roof, from skyscraper to small residence or out-building.

CERTAIN-TEED is sold by responsible dealers all over the world, at reasonable prices. Investigate it before you decide on any type of roof.
