DR. POWELL REEVES' RECORD.

The "Well-Known Specialist" Proves to Be a Literary Pirate and s Man With More Than One Name.

Points For Patients.

Some years ago when Omaha was infested by a lot of quacks and medical imposters, the BEE ventured a cleaning out of the fraternity. That it succeeded in an emfnent de gree is well remembered. "Dr." Mumey, who had ingratiated himself among numerous male and female dupes, played a big role for a tune. When exposed by the BEE he sued the paper for \$10,000 damages, but instead of pushing the suit he quietly folded his tent and stole away to a more congenial clime. Next came Dr. Aldrich, who placed a monumental marble slab in the Farnam street sidewalk. He appeared to be a good and pious man, and from his victims' money he contributed most generously to nearly every charitable and church organization. He succeeded most admirably in working himself into the affections of more women than any other man ever known in Omaha. The BEE exposed him, and he took his de parture, after which his sidewaik slab was turned upside down. The last heard of Aldrich was that he was killed in New Mexico by some indignant relative of a woman whom the alleged doctor had mistreated. Another humbug was an old German "doctor" who held forth on Capitol avenue, and pretended to cure every disease by means of his herb baths. He, too, has disappeared. "Dr. Fishblatt," who for a time raked in bushels of shekels from confiding victims long since de parted. To his credit, be it said, he has re formed, and instead of administering quach nostrums to the physical body, he is now en-gaged in prescribing spiritual doses for sin sick souls. In other words, he is a leader in the Salvation army. He has dropped his medical title for a military one, and is now

known as General Fishblatt. Since the passage of stringent medical laws in Illinois and Iowa there has been quite an influx of quacks and questionable medicini influx of quacks and questionable medicini into Omaha, and as a result a great many people are being "doctored" to death by men who ought to be chopping wood or shoveling durt instead of "practicing" medicine. We can stand jack-leg havyers and Peter Funks generally, as they only swindle people out of their money, but when men and women are subjected to malpractice, and in many cases driven to premature graves, it is time to call

There is in the city of Omaha an alleged doctor whose ways are peculiar and mysteri-ous, but by no means past finding out. He runs a so-called private dispensary and adver tises far and wide to cure nearly every disease with which the human system is afflicted. As a consequence he has a large number of vic-tims of misplaced confidence. This man is "Dr." Powell Reeves. Information has been received in this city from time to time from various parties in different localities showing him to be a fraud in several particulars. 11 has "practiced" in various parts of the country, and has made a record that is not alto getner spotless. It was only a few years ago that he was located in Portland, Ore,, where he sailed under the name of "Dr." Vanmoneisenr, "the well-known specialist." His Periland circulars hear the same picture of himself as his Omaha circulars, advertise ments and books. There is no mistaking the identity of the man. Comparison of the ple-tures and the circulars prove that "Dr." Yanmonelscar, of Portland is "Dr." Powell Reeves, of Oizaha. If he were an honest doctor it seems strange that he should change his name upon locating in Omaha. If he W re a "well known specialist" on the Pacific voist, would it not naturally follow that he

"Dr." Powell Reeves has also "practiced" in San Francisco, but in that eity he employed a young doctor but med Roberts, in whose name he carried business. So writes a reputable physician New Orleans. recently Dr. Powell Reeves, alias Quite recently Dr. Powell Reeves, alias "Dr." Vanmoneiscar, has had printed inOmaha a pamphlet of sixty-four pages, treating of the various diseases which he claims he can cure. This pamphlet, entitled "Facts for the Sick," is stolen bodily from a similar book, with th is stolen bodily from a similar book, with the same title, issued by Dr. W. H. Betts, a phy-sician and well-known specialist of New Orleans. The title-page, table of contents, the heads of the subdivisions, and the reading matter throughout are identically the same in both pamphlets, with a very few ex-ceptions. One of these exceptions is that Reeves inserts his own name in place of Betts. When he took Betts' book to Fest-ner's prihting establishment he gave orders to have it reproduced as nearly as pos-suble, and to insert the name of Reeves in-stead of Betts, in this style, "By Dr. P. L. Reeves, consulting physician of the Private Dispensary." To prove that "Dr." Reeves is a fraud-at least a literary pirate-it is only necessary to compare the Omaha and New Orleans pamphlets. For instance on page 12, in Dr. Betts' book, occurs the following passage: "Four diplomas certify to my qualification in medicine and surgery, and twenty-five years experience and ex-tensive practice in England, France and America, affording unusual opportunities for the investigation of disease and the search for remedies, has enabled me to succeed

many instances where eminent practitioners have fuiled ! Now is it not a singular and striking coin cidence that this same passage, word for word, appears on page 12 of "Dr." Reeves' pamphlet! Such is the fact, however. The Brg ventures to assert that "Dr." Reeves can't show four diplomas from reputable col-leges, and that he will not swear that he has had twenty-five years' experience in England. France and America. If he can show a dioloma from one regular medical college in good standing he is in big luck. In his cir-culars he claims that he is a graduate of a regular medical college. It is understood that he refers to the American Eclectic college of Cincinnati. If that is the case, he iasn't much medical culture to brag of. "You can get a diploma from that college in six weeks," said one of Omaha's leading

Another doctor said : "The American Ec

lectic college of Cincinnati was, prior to 1880, considered as a bogus institution, and its di-ploma was not recognized by any state board of health. The diplomas granted before 1880 were simply bought, but I understand that since then the college has been reorganized. I have been told that the dean of the faculty nade affidavit that Reeves is not a graduat

of that college. The affidavit was sent to a certain lawyer of this city." The lawyer referred to above was asked if the statement of the doctor was true, and he

replied as follows: "The dean of the faculty of the American Eclectic college of Concinnati, learning that Paul Reeves was a practicing physician in Omaha, and pretending to be such by virtue of a diploma from that institution, sent on an affidavit stating, among other things, that at the date of his pretended diploma the college was not recognized among the state boards of health of the country. The dean also referred in his affidavit to the state board of health of Illinois for the years 1883-83, in which years the dialowns of the college were thrown out he diplomas of the college were thrown out This affidavit was filed with the county cleri for the purpose of contesting the right of Reeves to practice, but was afterwards with-drawn, the law being found defective in that it provides no board of authority to review the action of the county clock in record to the action of the county clerk in regard to the licenses. The clerk is absolutely com pelled to record all diplomas which appear to

e such, and there is no authority to question a diploma It may be barely possible, however, that Powell Reeves graduated from regular collego under some name—probably Vanmoneiscar. We "Dr." Vanmoneiscar's Portland eieme other nam cular that "Dr. Vanmoneiscar is a graduate of a regular medical college, is well known ove the United States and Canada by thousands o old and young men he has cured," etc. Powell Reviews, late of New York, and Dr of Omaha, makes identically the same state mont in his circular: "Dr. Roeves is a graduate of a regular modical college, is well **kn** own over the United States an i Caoada by thousands of old and young men he has

under the name of the former. To use all fudian expression it looks very much as if he is "bad medicine." Dr. Betts, of New Orleans, who is very indignant at Reeves for pirating his book, writes of him as follows: "He writes of him as follows: "He knows nothing of medicine. He has a di-ploma purchased from Buchanan. What sort of a medical law have you in Nebraska. to allow such a fraud to practice medicine! * * You can get his character pretty well by writing to Portland." THE MATRIMONIAL MARKET. Judge Shields Says the Rules Against **Osculation Must Prevail.** Judge Shields says that old time rules in his office do not permit of osculation on his liant one in society circles, in spite of the terrible storm and intense cold. The prospects part when he ties up a couple for life, and that he will stick closely to all precedents. for the present week are that so far as the He will wish new matrimonial candidates number of events are concerned it will surpass the past week. The BEE proposes t

long life and happiness, and that is as far as he will go. Yesterday the judge launched Henry Bombeck, twenty-eight years old, and Sophie Nulle, aged twenty-three, on the turbulent seas of matrimony. They live at Fort Omaha. The following licenses to wed were issued
