Wheat Surprises Those Who Looked for a Down Turn.

BUT A LIMITED CORN TRADE. Oats Traded in Quite Freely-A More

Favorable Outlook for Provisions-Cattle Slow and Hogs Still Active.

#### CHICAGO PRODUCE MARKETS.

CHICAGO, March 13,-| Special Telegram to THE BEE |-The strength which developed in wheat today was a surprise to those who sold for a down turn early on the very pleasant weather. No one was more surprised perhaps than Mr. Hutchinson, who sold several hundred thousand bushels the first half hour and perhaps 1,000,000 bushels before the advance fairly set in. His was the only selling of the day up to I o'clock. The market started steady at 78%c for May. The heavy selling referred to put the price off to 78%c, but very free buying by W. G. McCormick & Co. and Jones & Kennett helped to stop a decline and later news helped to put the trade in a better buying mood. To begin with, private cables were about the only support of the market. Then there was a confirmation of the rumored injury to the wheat fields in Tennessee and Kentucky by letter and by wire. Then tho Price Current estimate giving 800,000 bushels less of exportable surplus than Dodge gave early in the week was received. Then followed reports of sales of cash wheat by Dunn & Co. for export and advices from Sawyer, Wallace & Co., New York, that sixteen loads had been taken there for Lisbon. On the top of this Boyden & Co., it was said, bought 45,000 bushels of No. 2 red wheat 14c under May. The clearances helped still more. Gradually at this information was received the market gained strength. Jones & Kennett bought still more heavily. Cottrell of New York bought here freely. Logan & Co. and Schwartz & Dupee joined the buying forces. Even Hutchinson, after his enormous sales early, bought quite a round lot on the advance around 78% c. The bulge took May up to 78% @78% c at noon with a slight drop to 78% @78%c, and on a second and stronger bulge the price went to 79c just at 1 o'clock. June sold at 77% @78% c and July at 76% @76% c. The last half hour saw a scramole for wheat. Hutchinson called all "calls" around 78% @ 78%c and proceeded to take wheat. Every dy else wanted it and offerings were light May touched 79%c on the strong bulge and closed at 79%c. Other closing prices were: March 78%c, June 79c, July 77%c. Corn was traded in to a moderate extent within narrow limits. The feeling was steady early and firmer later and transac-

tions were within narrow limits. Opera-tions were mainly of a local character, the selling being mainly by parties against purchases in the country, and the demand con-fined to room operators. A large trader sold freely of May and purchased April There was a very pressing demand for May at 29%c. The speculative market opened a shade under the closing prices of yesterday, was easy and sold off some, ruled firmer and closed a triffe better than yesterday. Cash property was in fair supply, the demand moderate and prices without any special change. No. 2 was in moderate demand and change, No. 2 was in moderate demand and sold at 2314@2814@ and closed at 2814@. No. 2 yellow sold at 2814@ and closed at 2814@ 2814@. No. 3 sold in a special location at 2814@7 and closed at 280@27c, depending on location. No. 3 yellow was quotable 140 premium over No. 3, with nothing doing.

Outs were traced in with more freedom. Oats were traded in with more freedom but the feeling was steady and the range of prices was narrow. A large operator sold May freely at 2114 @2114 and buyers had no difficulty in securing all they wanted at those figures. This prevented any advance. A little more trading was noted in June and July and sales were at a 1/2c advance. March remained neglected. Car lots of No. 2 in store were dull but quiet at 2014c. No. 2

white was slow at 22½c for May. In provisions the conditions are very fav-orable for more business and higher prices. During the dull season quite a short interest developed in all products in the pit. The key to the firm feeling now seems to be at the yards. The receipts of hogs are falling below the estimates and below year. The prices of hogs have last year. been making small advances lately on natural conditions. This has started a buying of hog products. Then shorts are nervous and when they attempt to cover the market moves up away from them, The strength started in pork and later was felt in ribs. The feature of the day was the buy ing by the clique of houses of last fall—Norn & Worthington, Chandler & Brown and ton & Worthington, Chandler & Brown and Baxter & Co. May pork sold at \$10.25@ 10.27½ to \$10.50 to \$10.42½@10,47½ at the close. July was a little changed. Short ribs sold up to \$5.00@5.07½ for May and \$5.15@ 5.17½ for July. May lard sold at \$6.10@ 6.15.

### CHICAGO LIVE STOCK.

CHICAGO, March 13.- [Special Telegram to THE BEE. |- CATTLE-The general market opened slow and prices were again a shade lower, some salesmen quoting heavy cattle 10c lower, which wipes out entirely the advance of the fore part of the week. The alleged cause of this unexpected turn was a lack of the usual export demand, that element of trade being forced out on account of the inability to get steamer space on outgo ing steamers. The effect of this down turn was felt all around, and about everything in the beef line sold a shade lower. The stocker and feeder trade was a trifle more active than a day or two past, as stock was more plentiful and salesmen seemed to be more accommodatig toward their customers more accommodatig toward their customers. Choice to extra beeves, \$4.70@\$4.75; medium to good steers, 1,350 to 1,500 lbs, \$4.00@4.50; 1,200 to 1,350 lbs, \$3.50@4.20; 950 to 1,200 lbs, \$3.30@3.90; stockers and feeders, \$2.40@3.60; cows, bulls and mixed, \$1.50@ 3.50; bulk, \$2.40@2.70; Texas corn-fed steers, \$3.00@3.70

Hogs-Business in this market continues active, receipts light with prices again a shade stronger, making an advance of about a nickle in two days. The great bulk of mixed sold within a range of \$4.12\cdot@4.15. There were a few early sales in the north-west division at \$4.10, while assorted heavy butcher weights and shipping classes sold at \$4.17%@4.20. Light sorts sold at \$4.15@4.20.

### FINANCIAL

NEW YORK, March 13 .- | Special Telegram to THE BEE. | - STOCKS - The transfer of Burlington & Northern stock to the Chicago, Burlington & Quincy shortly before the close yesterday was a most desirable event for the bulls. The trade now looks for a speedy settlement of the existing rate troubles west of Chicago. It will not be a patchedup settlement either, as the Burlington proper is pledged to the protection of its net earnings and its officers have the public's confidence. It is an uncertain question how much of the short interest in western stocks was covered on the bulge late yesterday. The popular belief is that much of the short sales are still outstanding and may be obliged to cover at a greater cost. The first action this morning was in keeping with the strong and active closing yesterday. There was a rush to buy and the continuing anxiety of operators on the short side to cover their contracts made first prices generally from to be per cent better than the closing figures of last evening, while Burlington and Quincy was up 114, at 10814 and Rock Island I per cent at 95. There wa some disappointments over the failure of London to respond to our rise of last evening more fully, and while bidding for stock was very large in the first half hour there seemed to be plenty of stock for sale at going prices and in but few cases were the opening figures maintained, almost everything sagging off slowly under the pressure to sell. New England showed the most calves, \$2.00@3.15.

strength among active stocks and Southern Pacific in low priced shares, rising 5000 2 per cent respectively. While in the decline they lost only a small fraction each. Rock Island reacted to 94 and Burimgton & Quincy to 10734 and Oregon Transcontinental from 37% to 33%. The market became quieter toward the end of the hour and prices showed a firmer front, The weakest stock on the list was Louisville, New Albany & Chicago, which dropped from 40% while Consolidated bonds to 47, retired from 102% to 100, rallying fractionally. Grangers naturally led the market in point of activity, but Missouri Pacific, Louisville & Nashville, Reading and New England were not far behind, while the activity reached all portions of the list. During the hour to noon there was less force to the market and prices did not rally from the decline at the end of the first hour. Chicago Gas was off to 41, Sugar to 65% and Reading to 3014. The closing hours of the stock market brought no rally. A great deal of liquidation was in progress. Burlington went off to 107 and closed steady at 10714. North western and Rock Island each lost all the early advance also and closed at yesterday's last prices. St. Paul showed a 1/4 net loss at 69 and Missouri Pacific and Union Pacific each lost % for the day. Atchison held strong and gained 14 at 36%. Sugar closed 1 per cent off at 67%. Louisville to 83%, and New England 16 up at 47. Tennessee Coal went off sharply to 5314 and other coal stocks closed with small losses, with Reading at 39. total sales were 291,787 shares.

Chicago Gas, after its slump to 41) about midday, recovered to 42% at the close. The The following were the closing quotations: Abulney 107% do preferred 5. OMAHA LIVE STOCK.

. Cattle. Thursday, March 13, Receipts of cattle estimated at 2,400, compared with 2,870 yesterday and 3,074 last Thursday. The market on steers opened active at good, steady prices, several reporting their sales particularly on the less desirable grades of steers at a shade's advance. More than the usual amount of trading was done early in the forencon, giving the market an animated appearance, and not a few on that account were of the opinion that the market was stronger. The number of sales at and above \$1.00 is more than a dozen, while the bulk of steers sold at or above \$3.70. About forty cars of cows were on market, the better grades selling readily at firm and in some cases strong prices, while the less desirable and commonish kinds were disposed to be slow and weak. The receipts of bulls continue liberal and the prices re-main firm on a steady, strong demand, Stockers and feeders are being received quite liberally, the better grades of native stockers and almost any kind of feeders being in demand at strong prices. The de-mand for feeders has been so great in probeing as portion to the receipts that many half-fat steers are being bought for feeders as high as \$3.45 being paid while almost everything sells at or above \$3.00. The limited receipts of veals keeps the prices steady, the best veal selling

tiogs. Receipts of hogs estimated at 3,300 com pared with 2,914 yesterday and 3,740 last Thursday. The quality of the receipts was very fair. The market opened at an advance and active. The market was the highest this year, the average being about \$3.87% and the top being \$3.95. The bulk sold at \$3.85@3.90. The receipts have been unsufficient to meet the demand and there has been a steady advance, the average rising from \$3.71% on the 6th to \$3.87 today. Sheep.

Receipts of sheep estimated at 697 compared with 475 yesterday and 458 last Thurs-The market in sheep continues active at steady prices. Prevailing Prices.
