## THE DOINGS IN THE BLUFFS.

Omaha and Local Horsemen Will Greatly Improve Union Park.

ARRANGING FOR CLEARER WATER.

Bieyelis s Will Race at Manawa on the Fourth-Ford Fired for His Footishness - A Bad Man in the Tolls.

In a very quiet way the Driving Park association has been making great improvements at Union driving park during the past week. The principal work has been on the track which has been greatly improved. The inside has been thrown out, so that the track is now in as good condition as ever, or will be when the work is completed tonight. This is one of the best tracks in the country, and stands very highly both among trotting and running horseinen all over the United States. Durhorsemen all over the United States. During the past five years it has had but little care and was sadly in need of repairs. It was badly worn near the pole, and of late the best track has been fully twelve feet from the fence making a long mile. The rains have also washed it until the surface was rather sandy for fast time, but all this has now been changed, and the track is better than ever before. It has always been regarded as the best training track in the country, and has never been what might be termed a slow track, as year after year horses have lowered their records here and made time that they were unable to equal on any time that they were unable to equal on any other track in either eastern or western cir-

cuits.

The changes now being made are owing to the fact that the leading horsemen of Omaha have become interested in the park, and the majority of them now have horses in training there, and it may be stated right here that never, with the possible exceptions of two or three big racing meetings, has there been a larger or more valuable lot of flyers at the park than at the present time. Messrs. Brown, McShane and Paxton of Omaha have each a valuable string stabled there, to say each a valuable string stabled there, to say nothing of the dozens owned in this city and stables from all parts of Kansas, Iowa and Missouri. In fact the park is getting to be quite a little world all by itself, and every morning the track is one of the busiest places

Cleaning the Reservoir. The water is now all out of the Glen avenue reservoir and the work of cleaning it and repairing the walls is in progress. As the last of the water drained away yesterday morning dozens of men and boys engaged in a reckless rough-and-tumble to capture the fish that had been forced up to the reservoir from the mains from the river. One fish over two feet long was taken out and bushels of smaller ones and crawfish. The bottom of the reservoir shows where the crawfish have been at work undermining the bricks, which have been washed out over quite a strip. The greater part of the floor and the walls generally are in good condition and all repairs will be completed by tonight. There are several wagon loads of mud to be removed, but not as much as was expected in view of the fact that the reservoir had not been cleaned for nearly two years. Here after it will be cleaned twice every year All work will be completed tomocrow and the

Bieyele Races at Manawa.

Arrangements are being made for a great day at Manawa on the "glorious Fourt". A number of the leading cyclists are planning for a series of races on the track at the base ball park, and will endeavor to give the following programme:
One free for all, three mile race; prize a

gold medal, free for all for those who have never won in any race, two miles: prize, a suit of

clothes.

A one-mile handicap; prize, a silver cup and saucer. A one-half mile race for boys between the ages of twelve and sixteen; prize, a guitar.

Ford Will Work Out His Fine. John Ford is endeavoring to dig up \$100 wherewith to satisfy a demand made upon him by Judge McGee. Ford was charged with indecent exposure of person and the case was so aggravated that the judge imposed the maximum fine. Ford pretends to be a roustabout at the Hotel Casey in Omaha and he visited Fairmount park Wednesday afternoon. While there he decided that he wanted to dance the can-can and proceeded to disrobe in order that his movements might be unrestricted. A party of young ladies were enjoying a picnic in the park when Ford put in an appearance, clad only in his coliar and complexion. The picnickers complained to the park policeman, but Ford managed to get away before he was apprehended. On Thursday afternoon, however, Park Police-man Lamb, who was watching for the fellow, discovered him in the park and promptly ar-rested him. He was identified in court by the young ladies and was promptly fined the sum above stated, the alternative being thirty days at hard labor. The trial was held with closed doors, out of deference to the feelings of the witnesses. Ford is very short of eash and his watch will not make up the required sum, so that he will undoubtedly labor in the chain gang until July is drawing to a close

Band concert at Fairmount park this evening from 5 to 8:30 o'clock.

A Bad Man Arrested.

The police are rejoicing over the neat capture of E. F. Owens by Officer Bowling. Owens is well known to the authorities as a tin horn gambler, flim flam man, confidence worker and all around crook and he showed up in the Bluffs after taking in the Nebraska state tournament at Plattsmouth. He was recognized by the officer, who promptly arrested him. It is said that he is wanted at various places in Kansas and also in Omaha for different pieces of crooked work. He has not yet had a hearing and will be held until his case can be investigated or until a de-mand is made for him by the authorities of other places where he is wanted.

At last the result of the census enumeration can be made public, but although anxlously anticipated for some time, it will bring disappointment. The population of Council

Bluffs will fall short of 23,000. Tough, but Bluffs will fall short of 20,000. Tough, but it's true. Supervisor Hight received a telegram from Washiogton yesterday afternoon, stating that the order of June 3, enjoining the atmost secreey, had been modified, and that in all cities of any size in the district, where great interest was felt in the result the supervisor and super might approximate, but was cautioned against giving exact figures as certain minor against giving exact figures as certain minor changes might yet have to be made. Said Captain Hight: "It will fall below 25,000, and in my estimation it will be a trifle short of 23,000, although I have not yet made an exact count. If they will let us count in the deaf and dumb institution, which is just outside the city limits, we will have nearly five hundred more than at present, and there are several other similar cases. I know that everyboly will be disappointed, but it can't be helped. I am positive that other cities that have no more than we have are making a showing of more than we have are making a showing of 40,000 or 50,000, but they are illegally inflating the returns. I don't see any other way, only that we must take our medicine."

SUNDAY SCHOOL CONVENTION.

Provision Made for Feaching the Lessons of Temperance.

Pirrishuno, Pa., June 27. - This was the last day of the international Sunday school convention. Jacobs of Chicago read the report of the executive committee, recommending that the second world's and seventh triennial international Sunday school conventions be held together. The report was adopted and it was decided to hold both conventions in St. Louis in 1893, the time to be set later.

At the afternoon session Miss Willard, president of the Women's Christian Temperance union, spoke in support of the proposition to set apart four Sundays of each year to be devoted to teaching temperance in Sabbath schools, the international committee to furnish appropriate lessons. After a lengthy discussion it was amended by B. F. Jones, chairman of the international executive com-mittee, and adopted. It says, in part: In setting a course of lessons for the year the lesson committee found in the course of the first quarter a suitable temperance lesson and therefore they made the lesson for the thirteenth Sunday a missionary lesson for the universal Sunday a missionary lesson. In another quarter for the same year they found in the regular course a suitable missionary lesson. Therefore for the thir-teenth Sunday of that quarter they have given temperance lessons. For the two remaining quarters of that year they have se-lected a temperance lesson and a missionary lesson, leaving it optional with the schools to use either. The committee cannot say in ad-vance just what lessons will occur in any year, but think it possible the selection for other years may be like the selection for 1892. The lesson committee for Great Britain urged that the committe continue to have optional temperance lessons, stating that if only temperance lessons many schools would not use them, but select others, and the plan would be impaired. The executive committee therefore recommends that the convention approve the action of the lesson committee, as indicated in the lessons for 1892, and further recommend to publishers of lesson helps throughout the United States and Canada to make notes upon temperance lessons as full as upon other lessons, and also to specially emphasize the subject of temperspecially emphasize the subject of temperance in all lessons in the regular course where it can be suitably done.

VALE-HARVARD BOAT RACE.

The Former Crew Scores an Easy

Victory. New London, June 27 .- As usual, great throngs of people congregated today to see the annual four-mile straighaway eight-oared race between the Yale and Harvard crews. Yale won in 21:29; Harvard 21:40. This is Yale's fifth successive victory and the record now stands in the four-mile races: Yale 9, Harvard 6. For three miles the race was one of the finest struggles ever seen on the Thames course. At no time in that distance was either crew able to get a decisive lead, and during that time Harvard had a slight lead twice. Yale, however, by grand spurting and staying qualities quickly recovered first position by a small margin. After passing the third mile flag Harvard's stroke seemed to lose its effectiveness, which, with a perceptible roll to their shell and three or four slight swerves by the

shen and three or four singht swerves by the cockswain caused the Harvard boat to drop slowly but surely astern. Yale finished strong, keeping up their long, steady swing with almost faultless precision, crossing the line and resting on their oars without the slightest sign of distress, while in the Harvard heart these these these was the same. vard boat at least three men clearly showed the effects of their determined efforts. The Columbia-Harvard freshman race was

rowed in the dark and proved a rather un-satisfactory affair. The race was two miles, and the referee gave it to Columbia by half a length. Time, 10:54. In the last half mile, it is stated, the steamer ran across the bow of the Harvard boat so near as to interfere

A PRONOUNCED SUCCESS. Grand Army Day at the Kansas Chau-

tauqua. OTTAWA, Kan., June 27.-Grand Army day of the Chautauqua association has been a pronounced success. Over twenty thousand people assembled in the tabernacle today to listen to addresses by General Alger andex-President Hayes. Mr. Hayes in his speech said there could be no politics in the Grand Army of the Republic or Loyal Legion, but there must be a full measure of patriots. A fing should not only wave on every school house, but on every church. The ex-presi-dent made a stirring address on the subject: "Obligations of the Government to Old Soldiers." The pledge made to soldiers diers." The pledge made to soldiers he said, for his services were just as distinct and unmistakable as were ever made to the bondholder. All parties were agreed that they should be recom-pensed, and that great statesmen whom Providence selected had repeated and reiterated the same great truth in one of those wonderful messages he read to the American people. In conclusion Mr. Hayes said: "We want no charity, but justice and our rights."

Corbin Resigns.

PHILADELPHIA, June 27.—Austin Corbin formally resigned from the presidency of the Reading road today and A. A. McLeod, vice president and general manager, succeeded him. In his letter of resignation, dated London, Mr. Corbin says that several times since the discharge of the receiver and the surrender of the property into the hands of the company he had prepared to retire, but hitherto had been prevented by circumstances. He further says there has been ac complished substantially what he set out to do, and it only remains to conduct the growing business of the company with intelli-gence, prudence and care what is guaranteed by the skill and energy of Mr. McLeod, whom he recommends as his successor. Corbin still retains his position as a member of the voting

An Agreement Reached.

Washington, June 27.—The conferees on the postoffice appropriation bill have reached an agreement.
