mail. The address will be

The newspaper man who wants to have an open-sesame when he goes traveling will do well to take President Me-Kinley along with him.

The engulfing ocean exercises no dislike Barney Barnato and poor wretches who have not a penny to their names.

If the United States cannot supply a to its reputation.

· People do not as a rule give things away if they are marketable at a remunerative price. Newspapers that give away their advertising do it only because nobody thinks it worth buying.

Nothing succeeds like success. Capl talists always prefer to make their investments in communities that give evidence of push and progress. That is where Omaha gains from the enterprise of its citizens.

It is Debs who is next to inflict the public with a book. Books written by presidents may be in great demand, but the public is apt to inquire what was the nature of the presidency which the author occupied.

Republican tariff policy gives specific duties preference over ad valorem duties and removes the unnecessary incentive to undervaluation and false swearing to escape paying the import duties prescribed by the statute.

Write to your friends everywhere to assist Omaha to secure the acceptance of its invitations to the different national conventions to meet in this city in 1898. Everyone can help push Omaha's claims along if they only will.

A recent severe accident on an Omaha street serves to emphasize the fact that fast and reckless driving of horses on the public thoroughfares is quite as dangerous to life and limb as bleycle scorching, to which much attention has been devoted of late.

The prince of Wales is said to present a noble and picturesque figure in his robes of office as grand master of English Masons. He will not have exhausted the possibilities of secret sociey ceremonials, however, until he becomes a Knight of Ak-Sar-Ben.

Passing resolutions upon the unfortunate death of a brave police officer is all of the police department that will give citizens more adequate protection of life and property would be a more appropriate way of rectifying past mistakes.

Senators with hobbies would like nothing better than an opportunity to make the tariff bill a packhorse for all their schemes that can never hope to have strength enough to carry themselves islands as a most grave mistake and through congress. Tariff riders, however, have poor prospects before them.

That legislative investigating commit tee is not keeping up to the pace promised at the time it was appointed. It was then expected by its populist friends that it would have several good sized sensations on the boards before it was a few weeks old. If it has struck any sensational leads it is carefully withholding them from publication until the fall campaign shall have approached

the administration would give heed to the state. the conservative sentiment of the country and be governed by the traditional policy of the government. While it has been known that representatives of the government at Honolulu-a government that is not supported by a majority of the Hawaiian people-were industrionsty and insidiously laboring at Washington in the interest of aunexation, there was no thought that the president and secretary of state were giving any countenance to their efforts, because there was a Justiflable impression that Mr. McKinley and Mr. Sherman were not friendly to the annexation scheme. The former had, indeed, endorsed the declaration of the republican national platform that "the Hawalian islands should be controlled by the United States and no foreign nower should be permitted to interfere with them," but this does not necessarily mean annexation. As to Secretary Sherman he has declared in explicit terms against the acquisition of outlying territory, urging that the domain of the United States is already extensive enough. The announcement of the nego-25,613 tiation of an Hawaiian annexation treaty therefore caused general surprise and was received at first with incredu-3.251 | Hty. The grave fact of such a treaty Is. however, before the American people

and public sentiment regarding it should

believes that it would be a grave mis-

be fully and clearly expressed.

take to annex the Hawailan islands. Our opposition is not merely for the reason that the annexation of this remote territory would be a radical departure from the policy of the republic with them the location of the next nasince its foundation, but because we are unable to see what advantages or beneffts the United States would derive from possessing these islands, while there are obvious possibilities of much trouble and large expense in governing them, to say nothing of the danger of 2.000 miles distant. They contain a mixed population, largely composed of lensely ignorant, wholly incapable of elf-government or of understanding our institutions. Can there be a reasonable doubt that under our system of government, which of course we should have to establish there, this population of ignorant and indolent natives, Chinese, Japanese and Portuguese would be found troublesome to govern? It is true they have not shown themselves to be particularly aggressive in asserting any rights since the present Hawaiian govto be accepted as an assurance that they would remain docile under a change of political conditions. Very few of them crimination between multi-millionaires at least to the natives. The others would not long be content with exclusion from this right. Political adventurers would stir them up to demand equal political privileges, causing confew dozen heirs to the Barnato millions stant agitation and disturbance. Cerwealth, the country will not be living up care of a population with which such a state of affairs is possible. The danger of international friction may be very remote, but it is still possible and should not be left out of consideration.

Hawaiian annexation would be a menace to the sugar industry of the United States, the development of which is of the highest importance. We imported from the islands last year over 400,000,-000 pounds of sugar. There has been a steady increase in the production of sugar there under the reciprocity treaty. which allows Hawailan sugar to cominto the United States free, the annual bounty to the sugar growers of the islands amounting to more than \$8,000, 000. With annexation flawaiian sugar production would undoubtedly increase more rapidly than it has done, with necessarily damaging effect upon sugar beet culture in the United States. Thus annexation would be a great boon to the sugar producers of Hawaii, but a serious blow to those who are engaged or who contemplate engaging in the cultivation of the sugar beet in this country. Thousands of American farmers would be injured by it.

The expediency of the United States not permitting any foreign power to interfere with the Hawaiian Islands will not be questioned, but the scheme of annexation cannot be justified by the as sumption that there is danger of such in terference. Much has been said about Japan having designs upon the islands but recent refutation of this has been furnished in the amicable settlement o he controversy regarding immigrants between the Japanese and Hawaiian governments, in which the former receded from its original position. Japan has protested against the annexation treaty, but only with a view to securing recognition of treaty stipulations. The fact is that foreign nations understand fully that the United States would not tolerate any interference with Hawaii, that the Mon roe doctrine applies to these islands as completely as it does to any other por tion of this hemisphere, and no foreign government will provoke a conflict with very well, but a thorough reorganization the United States by attempting to ac quire control of Hawaii. The pretended apprehension of anything of the kind is without substantial reason. The seem ity of the Hawaiian islands against for eign aggression does not, therefore, de pend upon their annexation to the

United States. From every point of view we regard he proposed annexation of the Hawa in: profoundly regret that the administration has committed itself to this scheme of jingoism and jobbery. It is said that the treaty is likely to get the two-thirds vote in the senate necessary to its ratifiention. Possibly it will, but it may be rejected if the opposition to annexation in the country is fully and earnestly expressed. It is a matter that ought to command the most serious consideration

No matter what the verdict may be,

of the people.

The negotiation of a treasurer was a most skillful juggler of have sprung into life. Business that nexation of the Hawalian islands will the state's accounts and that he never was declining has begun to experience be a sore disappointment to that large executed one of his star juggling per- a revival. Houses that were empty confidently believed that in this matter profit on the turn and at the expense of dilapidated wave been put in repair.

NEBRASKA REPUBLICAN LEAGUE. The call is out for the annual convention of the Nebraska Republican league at Omaha, June 29, for the purpose of selecting delegates to represent Nebraska at the Republican National league convention to be held at Detroit next month. It is specially urgent that at this state convention full representation of all the republican clubs be had for the reason that Nebraska will extend an invitation to the national lengtle to fix upon Omaha as the IS98 meeting

Not only would the securing of this national convention be of incalculable advantage in bringing a large body of influential men to the Transmississippi Exposition and familiarizing them with the resources and industrial conditions of the western states, but it would give a stimulus to the work of republicans and republican organizations all along the line. Such a great gathering of representative republicans from all over the United States just as the state campaign of 1898 is about to open would encourage Nebraska republicans wonderfully in a grand effort to regain control of the state government. The enthusiasm of the national league meeting if brought within such close range may be expected to pervade the whole rank and file of the party and give added strength to the cepublican ticket.

In view of these facts republicans throughout the state should see to it that the state convention is well attended by representative men and a strong delegation sent to Detroit whose members will omit nothing to being back tional meeting at Omaha.

DEMOCRATIC DEFENSE OF PROTECTION One of the ablest speeches delivered thus far in the tariff debate is that of Senator McEnery of Louisiana, a demo crat who, as he himself declared, has international friction. These islands are derived his tariff views from Jefferson and Jackson, and he vindicated those views by quoting from those eminent Asiatics and three-fourths of which is democratic authorities. Mr. McEnery's speech was chiefly devoted to an advocacy of adequate protection for sugar but he urged that it is the duty of the government to protect all American industries, to the end that our great resources shall be developed and the labor of the country given full employment I believe in making this country greater," said the Louisiana senator "So far as the government can increase its prosperity it is its duty so to do. He declared that the nation was comernment was organized, but this is not mitted more than a century ago to the protective system and said that the true doctrine of democracy was not directed to the destruction of our industrial sysnow participate in political affairs. We tem, "the putting out of furnace fires. should have to give the right of suffrage the silencing of the busy hum of our looms or the whirring of our wheels, or, worse than all, to the paying of a premium to foreign pauper labor and the impoverishment of our tollers in every industrial occupation." Mr. Mc Enery sconted the idea that protection who are willing to annex a little British tainly we do not want to assume the is unconstitutional and said that the lemocratic party will never risk a cam paign before the people and say that incidental protection means opposition to the encouragement of American industries.

This reminds one of the protection ar guments of that sterling democrat, Samuel J. Randall, but that statesman represented a district of the great manufacturing state of Pennsylvania, while McEnery is a southern democrat, hence the significance of his defense of correct in his conclusion that protection is an established American doctrine which no party will bereafter attempt to everthrow, and the south may in time become as much a stronghold of protect tion as New England.

The Interstate Sheriffs' association, that has just concluded the sessions of its annual meeting in Omaha, is the outgrowth of the movement for or ganization that has manifested itself so strongly in all departments of civic political and industrial life in recent years. The sheriffs, as the peace officers of our various communities, can certainly accomplish much for law and order by co-operation with one anothe and the employment of uniform metiods. Sheriffs, in the very nature of their offices, are frequently called on to work ogether. Although the jurisdiction for which they are held responsible is only a hot favorite. a single county, their duties often exend not alone over their own state, but over the surrounding states as well. Any rganization, therefore, that brings the heriffs together periodically for the purpose of cementing acquaintance and discussing questions which affect them all in common, performs a useful function and deserves popular approval and en-

The system now in vogue of appraising real property for sale under foreclosure is urgently in need of radical reform. The law contemplates a sale at army lassie a fair and honest valuation, which caunot be obtained when appraisals are made by the incompetents who make a business of hanging about the court house as snappers-up of unconsidered triffes. The steps taken by the Real Estate exchange to modify this evil deerve successful results.

The editor and headline writer of our amiable calamity howling contemporary will have to make another effort to get Dark continent. During 1894 6,509,600 gallon together. THE TURK HAMPANT.

Globe-Democrat: The sultan has mobilized an army of about 400,000 men, and is waiting for the powers to present a stronger argu-ment why he should not keep Thessaly. St. Louis Republic: Have the Turk's dirty fingers been used to pull Russian chestnuts from the fire? The Cretan indemnity nearly \$10,000,000 is to go to Russia, in pay

ment of the Turkish debt. Springfield Republican: The sultan seems have an extraordinary power of pulling the wool over the eyes of the westerners who are brought within the sphere of his personal influence. Some of the officers in Gener Miles' excert appear to have been meited it the officers in General his suave and flattering mauner, and have joined the list of the apologists for "Abdul the Damned," all of whom apparently have been to Yildiz Riosk, and have come away cajoled by the sultan's urbane condescen-

tablished themselves in Thessaly. Turkey is cuticled to its possession; and if any of the nations of Christian Europe care to try conclusions with the armies that have driven Greeks in disorder from forcess to forcess and mountain to mountain in that land, the opportunity lies before them."

Kansas City Star: Turkey's cumping and ove of strategy is love of strategy is again illustrated by the skillful manner in which she is delaying the nity civims presented by the United State for the destruction by the Turks of miss property at Marash and other points Armenia. Secretary Olney's last instruction ing the Chinese occupation, was one of the to Minister Terrell were sharp and to the highest military officials in the Chinese effect that the United States would held army. Since the Japanese occupation he has that it had cause to feel seriously aggreed unless those claims met with prompt con elderation and settlement. Turkey's cleve diplomacy which prevents, for the time a least, his successor's assumption of ministerial dulies, gives the Ottoman government the desired delay, which may be extended for some time without officially interrupting the friendly relations between the two nations.

CONCERNING HAWAIL

Minneapolis Times: Even if we could hop tegion an American community-a hope lustry make visionary—the advantages to b gained from it would be a bagatelle com pared with the responsibilities and the difficulties it would entail. We shall not be lieve, unless we are forced to, that Mr. Kinley is directly or indirectly encouraging so mad a scheme.

New York World: Do any of the repub Hean statesmen imagine that they can distract attention from their internal and infer nal domestic policy by bringing forward the mildewed old scheme of Hawatian annexation? Do we really need to go 5,600 mile away for another rotten borough? Have we not difficulties enough in assimilating our immense immigration from every quarter of the globe without taking in the mongre population of this remote island in the Pa fic? Hawali is too insignificant to serve as a diversion. As a national policy annexation

Springfield Republican: The fight is between the Hawaiian annexationists and the beet sugar protectionists, and the issue at this moment is doubtful. Saturday's republican senatorial caucus was warmly divided and no result was reached beyond handing over the whole subject to the finance committee to fix up a compromise. This is one of several spots where the party's trade and territorial expansion ideas come into collision with the antagonistic high tariff idea. the Hawaiian treaty is not abrogated and free sugar from the islands shut out, the budding beet sugar interests will see to it that somebody suffers. But are those islands to be cut loose now of all times when Japan is ready to grab them? And so the jingoes and the big tariff men, often found in the same individual, fight for the mastery.

THE OLD-TIMERS

Mrs. Julia Ward Howe celebrated her 78th birthday in Boston by attending in the even ing the Unitarian festival in that city. is just three days younger than Queen Vic-

Moses Pierce of Derby Line, Vt., recently elebrated his 104th birthday. He lacks only four years of being as old as this govern-ment, and has lived during every president: administration except Washington's first. Joseph and Sarah Manuel, the oldest resi dents of Kennebunkport, Me., observed the seventy-seventh anniversary of their wedding on the 4th inst. They are 101 and 9: years old respectively, and both enjoy com paratively good health.

Dr. James Martineau, who the other day celebrated his 92d birthday, is one of the very few living authors whose literary activity dates from the beginning of the Vic torian reign. Dr. Martineau protection from the Religious In first book, "The Rationale of Religious In Dr. Martineau published his Mrs. Frank Proctor, who recently died in

moved there from New York, sixty-five year ago, her father bought the land from the Indians who had settled there, and that was no unusual thing to shoot deer from the back door of their little log cabin. James B. Ireland of Hancock county, Ken-tucky, was 100 years old on June 4, and his birthday is to be celebrated by the community. Every one 60 years old and olde in the community has been invited to tak part in the jollification. Religious services are to be conducted by the oldest clergyman in the state, Rev. L. B. Davidson, whom Mr. Ireland heard preach sixty years ago Mr. Ireland's mind is described as fairly active, his memory of his youth as perfectly clear, and it is said that he is "not at al

Green county, Pennsylvania, boasts of on person over 100 years old. This person i Mrs. Margaret Strawn of Jackson township Mrs. Strawn was, before her marriage, Mis Margaret Grimes (the name being originally Graham), and was born about two and one half miles northeast of Waynesburg, on the farm now owned by Henry M. Grimes, Janu-ary 25, 1794. She was a daughter of George and Charity (Kimball) Grimes, who were pioneer settlers. Mrs. Strawn is a sweet voiced old lady, with kindly face and pos sessing bright mental faculties. For twelv years she has been totally blind and he hearing is greatly impaired. Otherwise she enjoys perfect health.

ROYAL BAKING POWDER CO., NEW YORK

Royal makes the food pure,

SOOTHING BREEZES.

Yonkers Statesman: The Wife Doctor, can you do anything for my husband? The Doctor What seems to be the trouble? "Working about money." "Oh, I can relieve him of that all right."

Detroit Free Press: "Madam, is your son spectfus to carry off any honors at college his year?" "No, poor fellow; he injured his kneedap in the first game of the season."

Indianapolis Journal: "It will only take a few good real summer days," mused the lee cream soda, "to make me a hot favorite,"

Judge: Summer Boarder Oh, Mrs. Furrow, will you let me have four of your biggest doughnuts?

Mrs. Furrow (highly flattered) Certainly, you kin have a dozen of 'em.

Summer Boarder Four will be enough. I want to use them for quoits.

Detroit Free Press Clara Did you have any trouble in gerting him to propose? Mande No. I suggested that you were after him.

Indianapo'le Journal: She-No gentleman should call on a lady after drinking ratesi-

He That is so, but how is he to know until he sees her? Indianapolis Journal: "Are you aware, colones," asked the young person, "that the human body is more than four-lifths water". water?"
"Humanity," said the colonel, more to himself than to the insignificant youth, "humanity is fah from puffect,"

New York Truth: Tommy (who has been cading history)-Are kings always good, tion?

His Father-No, not always my son; they are not very good when they are up against

Washington Star: "This is a wonderful age of invention," remarked the young man of serious inclinations.
"Yes," replied the skeptic, hand the new machines we are getting do not show that fact nearly as much as the stories invented by inventors about the things they are going to invent.

Globe-Democrat: Trump-I m awful hungry in ain't et nothin fet a week; can't yo gib me sumiln' ter est, professor.

Prof. X Ray improvement-You're the very man I'm looking for. Come in and I'll photograph a fall mea; on your epiglottis.

Chicago Post: The manager of the roof garden dashed the paper down.
"Now, what do you think of that?" he

asked.
"What is it?" Inquired the treasurer.
"A petition from some blevelists who want
me to construct a blevele track around the
hall so that they can enjoy themselves while
they are witnessing the performance." A DEADLY MESS

Indianarolis Jeurnal: There was a young maid in Dubuque, Who ate an assortment of cuque— Umbers and cream, And now, it would seem, She is gone beyond praise or rebuque.

Detroit Free Press. Don't despise the man who kicks-Every factor comes in play. He may yet get in some licks That will help things come your way.

WHEN MY DREAMS COME TRUE.

James Whitcomb Biter. my dreams come true-when my dreams come true—
Shall I lean from out my casement in the starlight and the dew.
To listen—smile and listen, to the tinkle of the strings ne sweet guitar my lover's fingers fondle Of the as he sings?
And as the nucle moon slowly, slowly shoulders into view,
Shall I vanish from his vision—when my dreams come true?

When my dreams come true-shall the simple gown I wear Be changed to softest satin, and my maiden-braided hair Be raveled into flossy mists of rarest, fairest minted into kisses, more than any To b heart can hold? Or "the summer of my tresses" shall my lover liken to e fervor of his passion" when my dreams come true? The

When my dreams come true—I shall hide among the sheaves Of happy harvest meadows, and the grasa—s and the leaves Shall I lift and lean between me and the splendor of the sur Till the moon swoons into twilight; the the moon swoons into twilight; the gleaners' work is done-Save that yet an arm shall bind me, even as the reapers do
The meanest sheaf of harvest-when my

When my dreams come true! When my dreams come true!

True love in all simplicity is fresh and pure as dew—
The blossom in the blackest mold is kindlier to the eye
Than any lily born of pride that blooms against the sky,
And so it is I know my heart will gladly welcome you,
My loveliest of lovers, when my dreams come true.

IN THE **MORNING**
