AFFAIRS OF THE RAILROADS

Old Quincy Route Takes Charge of Port Arthur Offices in Omaha.

SIDNEY SITTING ON THE ANXIOUS SEAT

War Being Made on Southern Pacific for Unreasonableness in Treatment of National Educational Association Rules.

There will no longer be a direct representation of the Port Arthur route in Omaha. The trade mark which has for two years done service for the Kansas City, Pittsburg & Gulf road and its associate lines will not be an element in the local railroad circles hereafter, except incidentally. Since the main line passed into the hands of receivers the northern lines have been put under a distinct management and now represent a separate company. The trade mark "Quincy Route," which was used a few years ago before the consolidation, will again be called into service. The officials who in the past have represented the Port Arthur will be come the representatives of the "Quincy Route," but the local business of the former road will be cared for by the same officers Traffic arrangements between the two systems will be continued as they have in the past. All the advertising matter, including the windows of the city office, will be changed to read "Quincy Route."

One by one the points of interest in the west and northwest have secured a nic arrangements announced that the Dougspecial rate for the same period affecting las county bar association had accepted the the educational meeting that as much travel as possible may be diverted from Southern California. The last place to secure these rates is Salt Lake City, and the announcement has just been made, all the Omaha lines putting in the new rate.

Owing to the Southern Pacific's action the roade using the Ogden gateway only receive \$7.25 for hauling a passenger from the Mis souri river to Ogden, the Southern Pacific demanding the bulk of the rate. With the low rates to the other points which have been put up as side attractions, these roads will receive the benefit. The period affected will be from June 25 to July 11.

JUDGE MUNGER CONFIRMS SALE.

Pacific Short Line Held by Receiver Until New Company is Organized. The sale of the Pacific Short Line rallroad, extending from South Sioux City to O'Neill, this state, made by Special Master E. S. Dundy has been confirmed by Judge Munger of the United States court,

The sale of the Pacific Short Line was brought about by the foreclosure of a mortgage held by the Manhattan Trust company of New York. The property was bought in by William S. and Robert E. Tod, representatives of a new company that is in process of organization. At this sale the property was bid off at \$1,750,000. In confirming the sale the court rendered a deficiency judgment in the sum of \$1,664,104 against the stockholders of the old company. According to the terms of the decree the railroad is to remain in the custody of the receiver until the further order of the court, or until the organization of the new company is completed and it takes possession of the property.

SIDNEY STILL HELD IN SUSPENSE.

No Positive Assurance Given That Burlington Will Cross There. There is probably no town in the state road company so far as they affect a new line than Sidney. When it was announced that the Burlington was to build from Alliance south to Brush, Colo., the residents of Sidney saw at once that their town would be in almost direct line of the survey and began to epeculate upon the probability of its securing the new road. General Manager Holdrege said he could not say positively that the line would touch Sidney, but he thought the chances were favorable. He said the surveys had not been completed and for that reason he would make no positive statement, but he was inclined to believe Sidney would be taken in. It will be necessary to cross the Union Pacific main line somewhere near that point, and if the

Two Pullman cars, occupied by the Denver contingent, went east over the Burlington, and the Utah, Wyoming and Montana delegates came over the Union Pacific.

A special meeting of the American Association of Traveling Passenger Agents has been called at St. Paul on July 3, 4 and 5. As the regular meeting of the association will be held in Denver in September a spe cial meeting at this time is said to forecast a strike of some sort. Gus Schaffer Finds Two Boys Prying Open His Window and Easily Runs Them Down.

While the family of Gus Schaffer, 1992 Emmet street, was away from home Saturday afternoon Mr. Schaffer saw two boys attempting to pry open a window in his house. He chased them away and followed them to Twentieth and Locust streets, where they took refuge in a coal shed. He locked the door and called the police. The boys gave their names as Harry Gillam and Leonard Kearns, and their ages as 13 and 11 years respectively.

Shortly after the incarceration of the lads H. M. Stokes, 1922 Emmet street, came to the station and reported that some boys had broken into his barn and had taken some bicycle tools. The officers went to the shed where they found Gillam and Kearns. After a thorough search they recovered a bicycle wrench which had evidently been concealed.

Health of the City is Good. Health Commissioner Spalding says that there is very little sickness in Omaha a present, even considering the fact that the sick rate is generally low in May and June The lateness of the season and the long delay in the coming of the warm weather has been a blessing to infants, who are the first to feel the effects of any rise in the temperature. A warm June is a sure forerunner of an increase in the mortality of infants. The city is comparatively safe from an invasion of disease by way of the ice supply, as the monthly chemical analyses of samples of ice taken from the wagons in the street show that the consumers are being furnished with a fairly pure article.

There will probably be no danger from this source until the supply of reservoir ice has been exhausted later in the summer. and after that the ice will need close inspection.
