## GENERAL BREAK SETS IN LATER

Due to Weaker Advices and Heavy Selling for Profits-Options Shattered by This Condition.

OMAHA, June 13, 1907. OMAHA, June 13, 1907.

The opening was strong and at an advance today. Later, owing to weather advices and heavy selling for profits, a general break came in all options. Foreign conditions are taking on healthier prospects and prices are holding nearer American levels.

Wheat opened firm, but did not hold, owing to heavy selling by longs. Brokers are holding heavy buying orders, which relieves the selling pressure to some degree. Winter wheat is improving. Wheat on passage was quiet, with commission houses absorbing some wheat on this decline. July wheat opened at 1994c, asked and closed at 1994c, bid. Reves the seiling pressure to some degree. Corn was strong at the opening, but later, owing to strong liquidation and weakness in wheat, dropped several fractions. Trade was light, with some buying on the soft places. July corn opened at 49%c, asked, and closed at 49%c, bid.

Oats showed some strength over yesterday's close and held some better that wheat and corn owing to reports of green buss in Illinois and backwardness in most all sections. July oats opened at 41%c asked, and closed at 43% bid.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade. CHICAGO, June 12.—An improved call for export strengthened the local wheat market today, the September delivery closing at a net gain of 1%c. Corn was down 14%c. Outs were up 14%c. Provisions were 50150 higher.

The wheat market was extremely nervous and prices covered a wide range. The market was unsettled at the opening, which ranged from 16%c below to 16 above the closing of yesterday. Pit traders sold actively at the opening, because of lower prices on the Minneapolis curb and because of the excellent weather conditions, especially in Kansas. All offerings, however, were eagerly taken and the market held first during the first hour, at a point slightly above last night's close. Later heavy selling by prominent longs brought about a break, in which prices declined more than 1c. An active general demand developed on the decline, which gradually lifted prices of damage by wireworms in North Dakots of damage by wireworms in North Dakots had some influence late n the day, but the chief reason for the advance was said to be

The market closed strong and near the highest point of the day. September opened higher lower to the day of the same day last year. Minneapolis, Duluth and Chicago relorted receipts of all cars, against 278 last week and 170 a year ago.

The corn market opened firm on good demand from cash houses, but declined sharply, in sympathy with wheat. The greater part of the loss was regained on buying by shorts. The Iowa crop report, which gave the condition in that state as as, compared with 29 on June 1 last year, was regarded as a bulish influence. The market closed easy. September opened a shade to the the cars, with 28 of contract grade. The weakness of wheat depressed July oats somewhat, but had little effect on the more distant deliveries. The Iowa report giving the condition of oats in that state as 39, against 26 one year ago, was the principal bullish factor. September opened to the higher, at 254,000 cars.

closed at 354,9360. Local receipts were 148 cars.

Provisions opened easy, because of a 100 decline in the price of live hegs, but soon rallied on covering by shorts and continued firm until the close. The final quotations left September pork 15c higher, at \$15.234. Lard was up 124c, at \$5.85. Ribs were 50 higher, at \$1.874.

Estimated receipts for tomorrow are: Wheat, 18 mars; corn, 775 cars; oats, 196 cars; hogs, 15,000 head.

LONDON, June 13.—Money was in increased demand for the settlement in the market today. Discounts improved. On the Stock exchange the settlement was concluded with two small failures. They did not have much effect on the markets, which continued fairly cheerful. Glit edged securities and home rails further hardened under investment purchases. Americans received fair support in the forenoon at well over parity. Union Pacific, Canadian Pacific and Southern Pacific received most attention on the favorable grop news, which offset the reports regarding possible government action against various railroads. The narket reacted, however, in the afternoon on the easier New Tark advices and after a feeble attempt to fally closed weak. Wool Market.

BOSTON, June 13.—WOOL—The activity in quarter-blood fleece continues to be the feature of the local wool market although there is also a good demand for fine wools. The supply of fine fleeces, washed and unwashed, is wholly inadequate to fulfill the demand, and there appears no immediate prospects of a change. The market is somewhat stronger in the better class of stock, in fact manufacturers are looking to a fine wool season. Local dealers have great confidence in the new clip and are operating with freedom and paying good prices. Competition for the new clip continues to the profit of the growers. Oregon and Idaho are particular sections. Heavy transactions are reported from both states and local firms are buying liberally. Advices from Australia are to the effect that the new clip will not show any increase over that of last year. Highwaymen Kill Meyer.

NEW YORK, June 13.—August Meyer, a well-to-do shoe dealer of Brooklyn, was severely beaten by highwaymen today and died a few hours later in a hospital. One of the alleged assailants, Nicholas Pennimore, a youth of 20 years, is under arrest charged with homicide. Two others escaped. Meyer was on his way to his home caped. Meyer was on his way to his home in Brooklyn early today when he was set upon by the three men. He fought hard, but the assailants were too much for him and he was terribly beaten before his cries for help brought a policeman to his assistance. Then the assailants fied. Fennimore was arrested as he was running away from the scene of the holdup and was charged with being his assailant.

Hold Off Regular Dividend.

Hold Off Regular Dividend.

NEW YORK, June 12.—The directors of the United Railways investment company, it was announced today, have determined that it would be inadvisable at present to take action with respect to the semi-annual dividend on preferred stock, which is, ordinarily, payable in July. This step was taken, it is said, in view of the existing strike situation in San Francisco and to the end that the investment company might be enabled to afford to the United Railways of San Francisco the fullest measure of support. The dividend on preferred stock has been at the rate of 2½ per cent, semi-annually, the last two having been paid in scrip.

Arrest Disaffected Men.

Arrest Disaffected Men.

LONDON, June 18.—A despatch to a news agency from Sebastopel says that Vice Admiral Wiren, recently appointed successor to Admiral Skrydioff in command of the Black sea fleet, has sifted out and arrested the disaffected seamen at that port and placed 600 of them on board a cruiser under a strong guard of the Pragski regiment. Additional arrests are being made and it probably will be necessary to fit out another penal cruiser. The seamen of the fleet are exasperated because no charges have been preferred against the arrested men and it is said a mutinous outbreak is likely to occur.
