The plan proposes to run the distance between Omaha and Ogden in three relays instead of two as at the present time. This would necessitate organization represented. The Commercial club is in munication with Senator Hitchcock and Congressman Lobeck in regard to the matter. The club holds in these communicators that Omaha does not wish to oppose the change merely to hold Omaha people in Omaha, if it can be shown that the change is to hetter the service. What information the club has at hand, however, does not convince the executive committee that the change will work any improvement is general efficiency. What the club wants is all the information available about the proposed plan and how it will work out.
