When Will The War End?

VERYBODY hopes it will end soon. Our Government is wisely continuing to prepare for the worst while doing its utmost.

The Government has said to us - to ALL Stove and Range Manufacturers of the U. S.: The Nation's present business - YOUR present business is WAR.

-For the winning of the war, Iron and steel are most precious. It is estimated that the Government will need 90% of all that can be produced.

Every possible use of iron and steel or their products, which can be deferred, must be deferred until after the war. The stock of Charter Oak Stoves and Ranges which

dealers have, together with what we will be able to fur-

nation, with a view of limiting purchases to strictly actual necessities. This is not a time to be too exacting in requirements. If your dealer has not the exact stove you decided on, it will be wise to buy such a Charter Oak as he has in stock.

If you conclude to make your old Charter Oak answer until we have won the war - we consider it our duty to warn you to buy only such repairs as are made by the owners of the original patterns, insuring a perfect fit, good iron and long service. Only those made from the original patterns are worth having. Only the Charter Oak Stove & Range Co., St. Louis, make repairs from original patterns for Stoves, Ranges and Furnaces, made by Giles F.
