J. F. STAHL, Proprietor.

E. P. Conser, editor of the Golden Sheaf, populist, of Clark, died last Tuesday of pleurisy. He was 62 years of age and four years ago was elected states attorney on the independent ticket.

In one of the only two cases tried at the recent session of United States court in Aberdeen Judge Carland was the attorney for Luthy & Co., of Peoria, Ill., who sued the sheriff of Brown county for the possession of a warehouse Luthy & Co. purchased from the Dakota Farmers Alliance association. After the warehouse had been purchased by them it was attached by the National Cordage company. The jury in this case was out exactly twenty four hours and could not arrive at an agreement. Judge Elgeron then directed a verdict for the plaintiff.

Dr. W. M. Nesmith of Wessington Springs, has resigned his position of surgeon in the Soldiers' Home at Hot Springs, S. D. and in an article two days ago in the Sioux City Journal says some very hard things of Commandant McGrew and of the president of the Home board, Rev. E. E. Clough. He accuses the former of irritableness, inebriety, tyranny and vindictiveness, and says that the old veterans have a burdensome life. Nor is there any appeal from this usage to the higher powers as he says President Clough turns a deaf ear to all complaints. The charges should, and no doubt will, give rise to an investigation, but whether Dr. Nesmith is an old crank or sorehead himself remains to be seen.

Pierre Journal, 3: Senator Sherman does not often take the role of an adviser of the democratic senators, but he did at the regular meeting of the senate finance committee this week. Seeing that those in charge of the tariff bill are determined to retain the income tax Mr. Sherman deemed it his duty to point out the injustice and the danger of levying tribute upon the thousands of building associations of the country and to advise the democrats to amend the bill so as to protect all shareholders and maintain bona fide building associations, where the working people deposit their wages for future homes, free from ravages of an income tax. As the result of Mr. Sherman's talk it was announced in the senate that the finance committee will frame an amendment exempting building associations.

Inter Ocean, 2: The monthly reports of the United States Treasury continue to show a deficit. The disbursement for April were \$9,500,000 in excess of the receipts for the same period. The exact figures as reported officially were: Receipts, \$22,692,364, expenditures, \$32,072,836.

The showing for the entire fiscal year up to date, ten months, is unfavorable, but the worst of it is that the bad is getting worse. The total deficit for the ten months foots up \$65,447,447, or about \$6,500,000 a month on the average. Evidently another bond loan is casting its ominous shadow before. All this must be set down as the government's part in the burden of Democracy, as thus far allotted by the current of events. If it had not been for the pension policy of the administration the showing would have been a deficit for the ten months of over \$80,000,000.

The cutting down of pension disbursements is due in part to refusal to pay all which was really due in adjudicated cases, but in still larger part to slowness in the final adjudicating of pending cases. The Republican policy was to facilitate settlement, while the Democratic policy is procrastination. The pension rolls were reduced last year by death 25,000 names. From this time on the death list will be so large as to almost please the enemies of the old veterans.

What makes the outlook specially gloomy is that under the Wilson bill, in whatever form finally enacted, the prospect is that the deficit will be increased, rather than diminished. At least no foreshadowing of the revision thus far shown affords ground for expected improvement in revenue. In fact, the only ray of hope is the remote prospect of defeating tariff legislation altogether.

WORTHINGTON, Minn., May 5.—The Nobles County bank, which closed its doors July 5 last, has completed arrangements with its creditors. Committee Will Meet at the Windsor, St. Paul, Next Thursday to Select a Day.

ST. PAUL, May 4.—Chairman Bixby, of the Republican state central committee, has called a meeting of the committee at the Windsor hotel for 2 o'clock next Thursday, May 10. A large amount of important business is to come up before the meeting, including the fixing of the date for the state convention and the basis of representation. It is likely that it will be held some time in June, probably about the middle, as the leading members of the party from the outside seem to favor that time.

The ruling will bar out a number of Chinese now in port awaiting admission.

A HUNGRY ARMY.

Kelly's Industrials at Des Moines Suffer Severely From Lack of Food.

Governor Jackson Makes a Proposition Looking to Getting the Army Away.

Twenty-six Coxeyites Brought Before a Minneapolis Judge and Fined.

DES MOINES, May 4.—General Kelly's army was in desperate circumstances all day. Hope of securing a train except through the governor was abandoned. Starvation stared the men in the face, and the demonstration of laboring people as a last resort was not a success as to numbers. The call issued to all laboring men asking them to meet and march to the capitol with the demand that Governor Jackson secure a train brought unsatisfactory results. When the hour set for the march to the state house arrived only 40 men were in line, but on the way more were added, and a total of 100 men climbed the long flight of stairs and filed into the governor's reception room.

The governor appeared and after reviewing the matter at some length stated that there was only one way to get the industrials out of the state and that was to raise money enough to take them to the river where he thought a boat could be secured for their transportation to the mouth of the Ohio. A committee appointed to confer with Kelly found the general in a mood to accept almost any proposition.

"If I am furnished railroad transportation to the Mississippi," he said, "I will accept it gladly. I had expected to go by way of Chicago, but if I cannot, I will do the next best thing. We can go down the river to the Ohio, and then follow that stream up toward Washington. By this means I am certain I can reach the national capital."

Governor Jackson was informed of Kelly's decision and immediately efforts will be made to get the men out of Des Moines. Many of the industrials had nothing but bread for breakfast, and only 200 pounds of meat were secured for dinner.

SENTENCED COXEYITES.

A Minneapolis Judge Assesses 26 of Them \$25 Each—Sentences Suspended.

MINNEAPOLIS, May 4.—Their military connections and their relations with Coxey did not save the advance guard of Hogan's army which was captured in the barn of Eustis Bros, near the St. Anthony elevator, in Prospect Park, from treatment as common everyday men when they were brought before Judge Mahoney of the municipal court here. The whole detachment of the commonwealth, 26 in number, was sentenced, as ordinary vagrants, to \$25 fine or 90 days in the workhouse. Sentences were suspended in case the men would leave town.

St. Paul Election Returns.

ST. PAUL, May 4.—Official returns elect Horst (Rep.) for treasurer over Wagener by a majority of 32. Earlier reports indicated the election of Wagener. Smith's majority for mayor is 802. Lewis (Rep.) defeats Melady for councilman, making another unexpected Republican gain. The official count is necessary to decide between Reardon and Robb.
