

The Madison Daily Leader.

ESTABLISHED 1890.

MADISON, SOUTH DAKOTA, MONDAY, JUNE 10, 1895.

PRICE FIVE CENTS.

FRAUD IS CHARGED

Action by the State of Minnesota Against a Savings Association.

WANTS ITS EXISTENCE ENDED

Liabilities of the Concern \$3,941,000 and the Assets \$60,000.

ST. PAUL, June 10.—The state of Minnesota, through its attorney general, says that the Tontine Savings association of Minneapolis is a swindling concern and a gambling scheme and has applied to the court to have its business wound up, for the appointment of a receiver and for an order restraining the officers of the association from performing any of their functions. The legal proceedings instituted in the Ramsey county district court are in the nature of an order to show cause, issued by Judge Otis, to be heard next Saturday.

In the complaint filed in the court the state alleges also that the association is insolvent; that it is doing a business not authorized by the charter; that it has ceased to exercise its corporate franchises, and that it has property which should be preserved by a receiver in charge. The liabilities are placed at \$3,941,000 and the assets at \$60,000.

HAVE THE BANDITS SURROUNDED.

Marshals Attack the Doolin Gang in the Glass Mountains.

KANSAS CITY, June 10.—A special to The Star from Perry, O. T., says:

Deputy marshals here give further details of the terrible fight between Billy Doolin, Zip Wyatt and one other outlaw and some marshals, in the Glass mountains. The outlaws horses were all killed, and two of the outlaws badly wounded. Two women, Jennie Black and Zip Wyatt's wife, were with the outlaws when the fight took place, and they were captured and jailed at Guthrie. Marshals still have the cave surrounded in which the outlaws took refuge, and there is little doubt of their capture. Every since the Rock Island train robbery, marshals have been in close pursuit of the 10 outlaws who engaged in it. The pursuit resulted in the killing of two of them near Ingalls some weeks ago. The marshals still pursued the remainder of the gang until they changed their stamping ground and went to the western part of the strip in the glass mountains.

An Epidemic Probable.

WASHINGTON, June 10.—The United States sanitary inspector of Santiago de Cuba reports to the surgeon general of the marine hospital that there are hundreds sick from yellow fever and other diseases among the troops in the interior of Cuba. He adds: "The population of Santiago has increased largely, and the town is overcrowded with the residents of the surrounding country, and I would not be astonished if an epidemic of contagious disease became prevalent."

Ask Immediate Aid.

WICHITA, Kan., June 10.—An appeal for aid has been received here from Medford, O. T. It is signed by four of its foremost citizens, who are vouched for by W. J. Martindale of this city, presiding elder of the Wichita district southwest Kansas Methodist Episcopal conference. The citizens of that section of the country are in a wretched condition, so far as food and clothing are concerned, and pray for relief immediately.

Bloody Riot at a Dance.

HUNTINGTON, Ind., June 10.—A bloody riot occurred at a dance at Bapts, ten miles north of here. A feud existed between the three Vaughn brothers and Charles Christman, all at the dance. The quarrel was renewed, and Jacob Vaughn fatally shot Christman, the ball entering the heart. Emmanuel Vaughn was so badly wounded that he cannot be recognized. The men escaped to this city and have been arrested.

Strikers Were Riotous.

CLEVELAND, June 10.—The police were called upon during the morning to quell a riot reported to be in progress at the works of the American Wire company where 200 laborers went on a strike for an increase in wages. The strikers during the night gathered round and on learning that their places were being filled by others, became very threatening. Stones were thrown and windows broken but no one was injured.

Millers to Meet.

GRAND FORKS, N. D., June 10.—The Red River Valley Millers' association, recently organized and composed of many of the largest and heaviest millers of North Dakota, Northern Minnesota and Montana, will meet in this city on or about the 20th inst. This is a strong millers' organization, and is doing very effective work.

Sanerfest Parade.

FARIBAULT, Minn., June 10.—The sanerfest grand parade occurred at 11:45. The mayor, guests and council were in carriages, and different societies on foot. The column was over a mile long. Nearly 10,000 people witnessed the parade, the streets being crowded by a surging mass of people.

NEW TORPEDO BOATS.

Three to Be Built—The Swiftest of Their Kind.

WASHINGTON, June 10.—Circulars will be issued by the navy department in the course of a few days inviting bids for the construction of three torpedo boats authorized by the last congress. The plans for the boats have been completed. They provide for the construction of the fleetest craft that will be borne on the naval list. The minimum speed must not be less than 26 knots per hour, although it is expected from the amount of steam power to be supplied that this limit will be surpassed by perhaps two knots. The new boats will be of 180 tons burden, 170 feet long and 17 feet broad. They will have triple expansion engines and three boilers, giving 3,200 horse power. For their construction congress has appropriated \$175,000 each, but as \$25,000 must be retained in the case of each boat for its equipment with

Torpedo Tubes and Ordnance, the limit of the available appropriation is only \$150,000 each. No premiums will be allowed for speed in excess of 26 knots, but there will be penalties imposed for deficiency in this respect, and this may have the effect to increase the amount of the bids. Eastern shipbuilders are barred in this competition, for by the terms of the act of congress one of the boats must be built on the Gulf of Mexico, one on the Mississippi and one on the Pacific coast, provided bids can be secured from these sections at reasonable rates. Otherwise the navy department may allow the boats to be built in other sections or even build them at the navy yard.

CHICAGO'S INDEBTEDNESS.

Mayor Swift Proposes to Clear Up Its \$6,000,000 Incubus.

CHICAGO, June 10.—For the first time in the history of Chicago the mayor has undertaken to clear up its floating indebtedness and place the city upon the basis of paying as it goes. The mayor has determined that there shall be no further anticipation of one year's taxes to pay the indebtedness of another year, and in order to do this he called into consultation the comptroller, commissioner of public works and the expert financial bookkeepers of the city. The discussion on the subject was long and highly interesting, the bookkeepers sticking to the old theoretical proposition under which the city has so long been financially mismanaged, while the mayor adhered tenaciously to the idea that there is a possibility of taking the city out of debt, and after that running its business within its financial resources from year to year.

WAS A GREAT RACE.

Bicycle Record From Chicago to New York Broken.

NEW YORK, June 10.—The greatest of long distance riding in the history of cycling, between Chicago and this city, terminated at 1:56 a. m. at the junction of Sixtieth street and the boulevard. The great race, which required a great deal of careful preparation, started from Chicago Wednesday morning at 9 o'clock, and was scheduled to cover 1,000 miles intervening between that city and New York. The record has been broken and the distance covered by 6 hours and 47 minutes better time. In organizing this relay a departure was made by a distinction in the colors worn by the riders. The military was represented by blue and the postal service by red.

Manitoba Crop Report.

WINNIPEG, June 10.—The first official crop bulletin of the Manitoba government was issued Saturday. The estimated increase in acreage for the year is 200,280, of which 13,090 acres are in wheat. The total wheat area is placed at 1,140,270 acres; oats, 483,658; barley, 153,870. Correspondents of the department are unanimous in their reports that the crop prospects were never brighter at this season of the year than they were on June 1, on which date the reports were forwarded.

Swindling Western Women.

CHICAGO, June 10.—Formal notice has been received from Postmaster Dayton of New York that a swindler calling himself P. Turner is defrauding dressmakers and milliners in Wisconsin, Minnesota and elsewhere in the West, by obtaining payment in advance, after showing samples, for goods to be shipped by H. Adams & Co., Union Square, New York city, whose agent he professes to be. There is no such firm in New York.

Schoolhouse Cyclone Caves.

LE MAR, Ia., June 10.—The attorney general, having decided that schoolhouse cyclone caves may be paid for out of the contingent funds, it is probable that the directors of each school district where the school house may stand in an exposed situation will order the same built.

Mistake of a Word.

FARGO, N. D., June 10.—Congressman Johnson telegraphs: "I am not for the free coinage of silver and so telegraphed the New York World. I have been misquoted by the omission of 'not.'"

Killed in His Field.

HARVEY, N. D., June 10.—While C. C. Tygart, a farmer residing four miles from Harvey, was breaking new land, he was struck by lightning and his three horses and two colts were instantly killed. When those who saw the bolt descend reached him the body was nude.

IVES VS. VILLARD

The Former Wants Receivers to Sue the Latter for Alleged Shortages.

QUESTION NEVER PASSED UPON

As in the Oakes Case Villard Will Have a Chance to Make a Defense.

MILWAUKEE, June 10.—Brayton Ives will shortly come into court and ask for a hearing on a motion to instruct the receivers of the Northern Pacific road to sue Henry Villard for shortages alleged to have been discovered in the Northern Pacific and Manitoba transactions, both by Master Carey and the comptroller of the company. The motion, if granted, will bring up the former position of Ives in which he asked that the receivers be instructed to bring suit against the officers, except Messrs. Colby and Hoyt, for alleged irregularities and illegal manipulation in the purchase of the Manitoba branch and Chicago terminals. The question raised has

Never Been Passed Upon

by the court. It is the intention, it is stated, to secure an investigation somewhat similar to that of Receiver Oakes and then Villard will be given an opportunity to defend himself. This investigation, it is understood, is desired by the company, and it is liable to lead to disclosure of things not now understood by others than Mr. Villard. Failing in the attempt to secure an investigation, Brayton Ives will urge that the receivers bring suit against Villard at once. If the suit is brought there is a probability that it may include all of the counts with which Master Carey charges Villard in his report. The petitions are now under consideration by Colonel Silas Pettit, Ives' attorney, who will present the arguments to the court and appear for the company in subsequent processes.

MURDERED FOR \$90.

Burglars Kill a Saloonkeeper at Pensaukee, Wis.

MILWAUKEE, June 10.—A special to The Evening Wisconsin from Oconto, Wis., says: Michael Baumgardner, a saloonkeeper near Pensaukee, was murdered by burglars at midnight. Mrs. Baumgardner was aroused by her husband's cries and saw him grappling with two strangers, who afterwards escaped in a carriage, which was standing at the door. Baumgardner was formerly a large mill owner and had resided in the county for 35 years. The burglars secured about \$90.

Two Arrests Made.

GREEN BAY, Wis., June 10.—Two men claiming to be from Kansas City, who refuse to give their names, were arrested here on suspicion of murdering Baumgardner, the saloonkeeper at Pensaukee. The prisoners answer the description of the murderers.

SPOUTING GAS AND WATER.

The Latter Being Clay Colored and Oily of Nature.

PINE CITY, June 10.—Frank Court, a farmer living four miles from this city, struck a curiosity which may prove of great value. In digging a well on his farm he had reached a depth of 80 feet, when suddenly there started a rush of gas and water, nearly smothering the laborer at the bottom of the well, who barely escaped with his life. This boiling has continued for 24 hours without abatement, but rather increasing. The water is of a clay color, oily in appearance and odorless. Some of the material thrown out of the well will be sent to the state university for analysis.

Bryan Will Be There.

NEW ORLEANS, June 10.—Arrangements have been completed by the bimetallic convention to be held in this city Monday. The county delegates are already beginning to arrive, and the convention will be one of the most successful ever held in this state. Hon. W. J. Bryan of Nebraska and Hon. H. D. Money of Mississippi will deliver addresses.

Will Finish the Bridge.

SIOUX CITY, Ia., June 10.—The stockholders of the Credit Commutation company, at a meeting here, formally resolved to complete the unfinished Pacific Short Line bridge across the Missouri river at this point. The residents of South Sioux City and Covington, consented to waive all damage claims. Over \$1,000,000 will be required to finish the bridge.

Liable to Sink.

SIOUX CITY, June 10.—A sensation has been created here by the announcement that the \$25,000 police station recently completed by the city stands on a natural spring, that no piling was used, and that the building will soon be ruined by settling. So serious is the case that the cage doors after being easily closed at night have to be pried open with crowbars in the morning.

Harrison at Home.

INDIANAPOLIS, June 10.—Benjamin Harrison arrived home during the day. He was one of the first men to step off the Pennsylvania Limited which arrived at 12:30. He was met by Secretary Tibbitt with the family carriage and driven to his home. Mr. Harrison looked well and said he had enjoyed his trip.

McDONALD BROS.

GOOD CHANCE FOR LAWYERS.

Feeling Will of a Victim Promotes Much Litigation.

SAN FRANCISCO, June 10.—The fate of an estate valued at \$100,000 is likely to rest on whether Professor Harold Whiting of the University of California, who was lost on the Colima, died before or after his wife was drowned on the same voyage.

Just before Professor Whiting started on his fatal voyage he made two wills which he mailed to an old college friend who is now an attorney at Cambridge, Mass. One was to the effect that if he should be drowned, his estate should go to the surviving members of his family. The other was that in case he and his wife and children were all drowned, his estate should revert to the members of his family living in the East.

If Professor Whiting died first his wife and children immediately became his heirs, but if Mrs. Whiting died later her heirs would inherit the small fortune to the exclusion of the heirs of Professor Whiting in the East.

NOT A CANDIDATE FOR PRESIDENT.

Debs Will Do What He Can in His Own Way to Help the American People.

CLEVELAND, June 10.—An officer of the local A. B. U. organization has received a letter from Eugene V. Debs, who among other things says:

"I cannot be considered a candidate for the presidency. I would not permit myself to harbor such an aspiration as an instant. I have little enough liberty as it is, and what little there is I do not wish to sacrifice on the political altar. Not that I would fear to face the whirlwind of denunciation which such an ambition would arouse, but I wish to remain untrammelled and do what little I can in my own way to free the American people."

"E. V. DEBS."

Refunding the Income Tax.

WASHINGTON, June 10.—Blanks are prepared at the treasury department for use of persons who have claims against the government for the refund of the income tax. The refund will be made under section 2220 of the revised statutes, which authorizes the commissioner of internal revenue, on appeal, to refund all taxes erroneously or illegally collected. Few claims have as yet been filed, probably because the claimants have been waiting for official information on the subject. Every dollar of the income tax already collected will be repaid to the persons from whom the collections were made.

Held a Council With Indians.

PENDER, Neb., June 10.—United States Senator Allen has held a council with the Omaha Indians at the Omaha agency to personally inform himself in regard to the controversy which is menacing the peace of this country. The contention is in regard to the disposition of their tribal lands, of which they have about 50,000 acres. A number of prominent Omaha Indians told the senator that they people were unanimous in a desire for an immediate allotment, in order that they might handle their tribal lands themselves.

Increased Exports.

NEW YORK, June 10.—A special cable dispatch from London to The Evening Post says: The trade returns for May are fairly satisfactory. The increase of exports was mainly due to increased American demands. Three hundred thousand pounds worth more of worsted manufactures and £90,000 worth of woolen materials were taken by the United States.

Sheepman Take Warning.

DENVER, June 10.—A special to The Times from McCoy, Colo., says that the trouble between the cattlemen and the sheepmen is over for the present at least. The armed cattlemen who went on the warpath found that the sheep in Colorado were all headed towards the Wyoming state line, and received assurances that they would be driven north. The cattlemen then retired peacefully.

Three Cars Passed Over Him.

CHICAGO, June 10.—Fred E. Sommers of Danville, Ill., assistant chief engineer of the Chicago and Eastern Illinois railroad, was instantly killed at Chicago Heights. He fell from the rear end of the caboose as a train was backing, and three cars passed over him.

Many Horses on Hand.

Dubuque, Ia., June 10.—At the races which take place here next week there will be the largest field of horses ever seen in the state. Several came in today, making now over 150.

NEW STANDARDS FOR THE CAPPER

Price's Cream Baking Powder

Most Perfect Made.

Wholesale Robbery.

WACOMA, Ia., June 10.—This town is greatly stirred up in consequence of an extensive robbery. Kieron & McKay's store was broken into and goods to the value of \$500 were taken. J. W. Kieron's hardware store was robbed of \$200 worth of goods, consisting of revolvers, knives and cutlery. Considerable bologna and other meats were taken from the meat market.

NEWS BRIEFLY REPORTED.

The village of Salins, in the canton of Salins, Switzerland, has been destroyed by fire.

Severe storms and floods have done considerable damage in the eastern and central parts of Switzerland.

Martin Costello, the pugilist, has met with an accident that will compel the postponement of his fight with Billy Woods of Denver.

C. L. Woodbridge & Co. of New York, importers of dress trimming, buttons, etc., made an assignment, with liabilities of \$200,000 to \$250,000.

Ninety-nine dismissals of employees in the pension office were made Friday to take effect June 30. The reductions were in keeping with the provisions of the legislative appropriation for the fiscal year 1895-6.
