Certainly you don't want to suffer with dyspepsia, constipation, sick headache, yellow skin and loss of appetite. You have never tried DeWitt's Little Early Risers for these complaints or you would have been cured. They are small pills but great regulators.

FRANK SMITH.

Attorneys and typewriter owners can find a stock of typewriter paper, 8½ by 13, at THE DAILY LEADER office.

Small precautions often prevent great mischiefs. DeWitt's Little Early Risers are very small pills in size, but are most effective in preventing the most serious forms of liver and stomach troubles. They cure constipation and headache and regulate the bowels.

THE RUSSIAN GRAIN CROP.

Official Information Furnished by the American Consul at Odessa.

WASHINGTON, Sept. 23.—More detailed information than has heretofore been obtainable concerning the condition of the Russian grain crop is contained in a report on the subject to the state department from United States Consul Heenan at Odessa. He says the crops over an extensive area have failed. The beginning of the trouble was the dry weather causing the failure of half the wheat sown. Then came the wettest season known in years and hail destroyed both ripe and unripe grain. In large areas no effort was made to harvest. The yield is from four to six bushels per acre for winter and spring. Barley is discolored and underweight. Rye is much damaged and will be under the average crop. Oats alone are in favorable condition.

Mr. Heenan says that but little wheat will be shipped from Russia during the season of 1897-98 for the simple reason that there is little available for export. The failure of the wheat crops in Austria-Hungary, Roumania and Bulgaria has brought buyers into Russia from these countries and the wheat will go to them by rail. How much of this wheat Russia can afford to let go is a question. While hints are thrown out that the export of cereals may be altogether prohibited, the consul believes these have no foundation, and that the Russian government will never again make the mistake it did in the famine year of prohibiting exports.

Export Duty on Gold.

WASHINGTON, Sept. 23.—The owners of gold mines in Nicaragua are worried over a decree published Aug. 15, and taking effect immediately, establishing an export duty of \$1 gold per ounce on gold ingots and \$2 per ounce on gold dust. The information comes to the state department from Consular Agent Clancy at Bluefields. The mining interests have united in petitioning the government to revoke the decree, which they assert, would be ruinous to a new industry.

He Thinks He Is Insane.

ST. CLOUD, Minn., Sept. 23.—Joseph Seburger, a volunteer fireman, has admitted setting fire to the building owned by Petr Karels and occupied by him as a residence. In as many weeks three fires have been set in one block, and the police have been working hard to locate the guilty parties. Seburger denies knowledge of the other fires. He gives no reason save that he thinks he is insane. He was arrested and is in jail, and has been bound over to the grand jury.

ALBANY, Sept. 23.—Tom Cooper carried off the honors in the mile match race for \$1,000 with Eddie Bald and Arthur Gardner, held under the auspices of the Albany County Wheelmen in this city. It took three heats to decide the race.

Wisconsin Supreme Court Holds Judicial Acts May Be Criticized by the Press.

MADISON, Wis., Sept. 23.—Justice Winslow of the Wisconsin supreme court handed down an important decision during the day. The opinion is in the case of the proceedings for contempt of court by Judge W. F. Bailey of Eau Claire against H. C. Ashbaugh and L. A. Doolittle. The court says: "We are well persuaded that newspaper comments on cases finally decided, prior to the publication, cannot be considered criminal contempt."

After reviewing the rights of courts and emphasizing the importance that they should perform their grave public duties unimpeded and unprejudiced by illegitimate influences, Judge Winslow says:

An Arbitrary Proceeding.

"Truly, it must be a grievous and weighty necessity which will justify so arbitrary a proceeding whereby a candidate for office becomes the accuser, judge and jury, and may within a few hours summarily punish his critic by imprisonment. The result of such a doctrine is that all unfavorable criticism of a sitting judge's past official action can be at once stopped by the judge himself, or, if not stopped, can be punished by immediate imprisonment. If there can be any more effectual way to gag the press and subvert freedom of speech, we do not know where to find it. Under such a rule the merits of a sitting judge may be rehearsed, but, as to his demerits there must be profound silence. In our opinion no such divinity 'doth hedge about' a judge, certainly not when he is a candidate for public office."

Brief History of the Case.

Judge Bailey presided in the circuit court of Eau Claire county and was a candidate for re-election. During the heat of the campaign, a lawyer, Dr. Doolittle, published in Ashbaugh's newspaper an article several columns in length, charging the judge with being extravagant in the management of the court and with being partial and unfair in respect to his official conduct in the trial of cases and with being influenced by corrupt motives. These charges all referred to proceedings and cases already heard and decided, and not in matters then pending or on trial. March 31 an editorial article appeared in the newspaper strongly opposing Judge Bailey's candidacy and summarizing the charges against him which had been made at length in the Doolittle article. April 1 Judge Bailey made an order on his own motion requiring H. H. Hayden and T. F. Frawley to institute contempt proceedings against Ashbaugh and Doolittle on account of the publications. Upon the assembling of the court at that time the alternative writ of prohibition was served upon Judge Bailey. Thereupon Judge Bailey announced that he would not proceed farther with the pending proceedings, but at once made an order adjudging Ashbaugh and Doolittle guilty of a new contempt in the immediate presence of the court. The order was never executed by the sheriff.

RATIFIED BY HAWAII.

Unanimous Vote of Congress in Favor of Annexation.

CHICAGO, Sept. 23.—The Times-Herald special from San Francisco says: The steamer City of Peking, which arrived from the Orient by way of Honolulu, brings word that the Hawaiian congress ratified the treaty of annexation on Sept. 10. There was no opposition and the unanimous vote was cast in favor of the treaty.

Almost immediately after ratification the congress adjourned. The steamship Australia, having on board United States Senator John T. Morgan of Alabama, Congressman A. S. Berry, J. G. Cannon, H. C. Loudenslager and J. A. Tawney, arrived in Honolulu on the 14th. They were accorded a warm welcome. Senator Morgan stood the voyage exceedingly well, and was in excellent health. The Hawaiian Star of the following day published this interview with him:

"I have nothing of a definite nature to say to the newspapers now, as I must have an opportunity to study the situation from a new point of view. You may say that I am predisposed in favor of annexation. I have been an annexationist practically for 30 years, ever since the question has been agitated."
