TO ADVERTISERS.  
The Daily Leader makes a special feature of furnishing information concerning the advantages and resources of the city of Madison and of the state at large, entitling it to the patronage of advertisers of every class.

J. F. STAHL, Proprietor.

The probability that the republican majority in the present legislature will pass the bill abolishing the office of state insurance commissioner is not what we would have expected of them. We had formed the impression that the majority of the present legislature were a fair, sensible, conservative lot of men and that after the politics and horse play incident to the organization and startout of the body were passed that they would settle down to a sensible and unpartisan course of legislation in general. But the passage of this bill would indicate that small politics and partisan love of spoils is still the controlling passion of the republican majority. Just because this office was taken out of the auditor's charge when the latter was a republican by a populist legislature is no excuse for putting it back there when the legislature becomes republican. It ought to be a separate office anyway as in other states of the union. It is of sufficient importance to be thus treated, it has sufficient business to occupy the attention of an independent officer and has too much business to be added to the auditor's office which could not and did not attend to it properly when it did have it. The necessity of taking it out of the auditor's office arose from this very fact that it was not properly conducted and that swindling operations were being carried on in it right under the auditor's nose of which he was ignorant or wilfully blind too, either of which, and not partisanship was a valid reason for removing it from under the auditor's care. It cost time and trouble to get the old wrongs and methods of the office righted, and the office is being conducted honestly, efficiently, and without blackmail—it is reversing the wheels of progress and rules of business wisdom to put the office back into the old lair. We did not expect this of a party making the pretensions and professions the present republican state party makes. Should they carry out their threat of again turning the office into a brokerage for the spoils there is in it, it will go far to weaken public confidence in the good intentions they may have in passing any other legislation. For the credit of the state we hope they will not do it. An amendment to provide for the election of the commissioner of insurance by the people would be a step in the right direction probably, and approved by the people, but so long as Gov. Lee is governor and insurance companies are complaining on all sides of extortion and blackmail by insurance commissioners or their examiners, our legislature will make a great mistake in taking the office out from under its present management.

Aberdeen News, 16: The indications are that there will be a large class at the Scottish Brite reunion which begins tomorrow evening at 9 o'clock and continues through Wednesday, Thursday and Friday. There will probably be a large number of visitors at the reunion, some coming from quite a long distance.

Sioux Falls dispatch, 15: To judge by the manner in which butter is arriving here for exhibit at the annual convention of the National Creamery Butter-makers association, to commence January 23, expectations of an immense at-

tendance and unusual interest on the part of those interested in this important industry will be fully realized. In one day between forty and fifty tubs of butter were received by L. N. Hunter, the local committeeman of the national association, and he is of the opinion that fully 1,000 packages of butter will be on exhibition to compete for the liberal prizes offered for the best butter.

The rivalry between the various states as well as between creameries located in the dairy portions of America will be very keen, and the state which wins the championship for good butter will naturally be the envy of all other states which enter into the competition. Several foreign countries will also be represented in the competition for prizes.

## CUBAN COURT

It Will Consist of a Chief Justice and Six Other Justices.

And Will Be a Court of Last Resort for Cases Formerly Sent to Madrid.

The Full Cabinet Selected by Governor General Brooke Is Announced.

Department of government, Domingo Mendez Capote.

Department of finance, Pablo Desvervigne.

Department of justice and public instruction, Jose Antonio Gonzales Lanuza.

Colonel Lanuza is now in Washington, where he has been for some time with the members of the special commission representing the Cuban military assembly. The other members of the cabinet took the oath of allegiance before the judge advocate of the division, General Brooke and General Chaffee being present. The salaries of the secretaries, as they will be known, have not yet been fixed, but the duties begin immediately.

#### COLOSSAL TASK BEGUN.

Thousand Men Engaged in Sanitary Work at Havana.

HAVANA, Jan. 18.—The colossal task of putting into a proper sanitary condition every dwelling in Havana began during the day, Surgeon Major Davis hiring native physicians for a house to house inspection to compel obedience to the new law. All cesspools under houses are to be closed and sealed. Garbage is to be removed daily. It is expected the city will be in a fairly sanitary condition within three months without underground sewerage. The old residents regard the new health regulations as unnecessary and meddling, and even some well-to-do and well informed persons, when making their objections, described themselves as "healthy enough." A thousand people are engaged in the work of cleaning the streets and public buildings. The quartermaster has disbursed \$10,000 since Jan. 1 in the work of sanitation and on Saturday last General Chaffee drew \$13,000 from the customhouse for extra expenses in that line.

#### NAMED BY LIND.

Another Batch of Appointments Sent to the Minnesota Senate.

Daniels of St. Peter, member of the board of trustees of state insane hospitals.
