SHAKESPEARE SAYS "Lend every man thine ears" and every one wants your ears to tell you the merits of his goods. But, as you well know, nine times out of ten, the goods do not bear out the story. The loan we ask is YOUR EYES. They are the ultimate judges. To their verdict we confidentially appeal.

THE GREAT MAJESTIC

FREE COOKING EXHIBITION FREE
Now Going On At Our Store.

We want you to come in ANY DAY THIS WEEK and see the MAJESTIC in operation, have a Majestic biscuit and a cup of delicious coffee, and see the proof of the claims made for Majestic Ranges by a man direct from the factory. He will show you that the Majestic excels all others.

They are made of MALLEABLE IRON and best open hearth cold-rolled steel, 10 to 50 per cent. heavier throughout than any other range. Flues lined with pure asbestos; and the entire range riveted with the best Norway iron rivets. Air-tight and dust-tight. This explains why the Great Majestic Range will do its work in half the time, and with half the fuel.

They will work equally well with hard or soft coal, wood or cobs; bake, roast, broil, seethe or fry to perfection; heat all the water you want almost instantly. If given a good flue. They will not clog with ashes, allow smoke or soot to escape into the oven or kitchen. They will not crack or break, or subject you to the expense and annoyance of any other range. If properly used they will last a lifetime.

We do not ask you to believe what we say. **COME AND SEE FOR YOURSELF.** Even if you do not need a range at present, come anyway, so you will know what to buy when you do need one.

A Set of Cooking Utensils Free

with every Majestic Range sold during this week—a set of ware made of heavy copper, nickled, steel and enamel, well worth \$7.50. One complete set absolutely free with each Majestic Range sold this week only.

MAJESTIC RANGES are made in every size and every style, to fit every condition and every purse. We want you to come in and see the range at work—glad to show it to you whether you intend to buy or not.

The Sioux Falls Press, which inclines to be a trifle facetious in speaking of Sioux Falls or Minnehaha county politics, says that Senator Kittredge is not at harmony with the ruling wing of republicanism in Sioux Falls. It alleges that the city council of that place is to have a meeting soon to endorse Dr. T. S. Roberts, councilman from the Third ward, for state senator on the legislative ticket, while Mr. Kittredge has a candidate in the person of E. B. Northrup. These conflicting interests, the Press would convey the idea, can only be reconciled by Mr. Kittredge gracefully backing down, as the Burnside faction in republican politics there which rules the city council is virtually all powerful, though in the county it is claimed the reverse is true. Mr. Kittredge, however, is at a decided advantage in the final outcome, for whether he wins or loses in Sioux Falls politics he is all right for his own reelection, having the rest of the state at his back.

A farmer named Ludwig Subert, five miles south of Sioux Falls, suffered a severe loss by fire Sunday night. A new barn and contents, a threshing outfit including horse power, two settings of grain, and seven head of horses were all burned up, a total loss of about \$4,000. Origin of fire not known.

Fatalities reported to have occurred in South Dakota Sunday were the burning to death in a barn at Aurora of two little girls four years of age, Edna Cheatham and Mary Lilly, the fire probably set by themselves and a little boy who gave the alarm; J. S. Luckinsinger, near Armour, fatally shot in the neck, accidentally, by a neighbor's boy while trying to extricate a cartridge from a 22-calibre rifle; M. C. Rousseau, of the Pierre neighborhood, killed by his wagon overturning Elmer Flow, aged 17, near Central City, shot in the face and chest by a companion while out hunting chickens, but may live; Frank Thompson of Beresford, hand ground off in the gearing of a threshing machine; Louis Thrane of Vermillion, stabbed in a negro dive at Vermillion, died.

The Great Northern railway company is defendant in an action entitled, The state railway commission vs. The Great Northern railway company, which case will have a hearing before Judge McCoy of the Fifth judicial circuit at Aberdeen on Tuesday, September 23. This case is the result of the failure of the Great Northern railroad company to comply with the order of the state railway commission to establish a station and build a depot at the town of Stockholm which is located on that railroad north of Watertown. The Great Northern was notified some time ago that the complaint of the people of Stockholm against the road would be heard by the railroad commission, but no representative of the road appeared on that date before the commission and the commission has decided to take the case into court.

Yankton county commissioners have resolved to submit to a vote of the people this fall the proposition to issue \$10,000 bonds for a new court house.

St. Paul Dispatch, 8: Passenger traffic between South Dakota and the twin cities has increased rapidly of late, and there has been a corresponding diminution in the traffic between the same state and Chicago. This is partly due to the fact that the railways concerned

have improved their passenger service. The Northwestern and the Great Northern companies have each added two trains and the Milwaukee has increased its facilities. Better connections with Duluth have also stimulated southwest-ern travel.

A cowboy race planned from Dead-wood to Omaha at the time of the president's visit to the latter city may be called off at the instance of President Roosevelt himself, who through his private secretary has telegraphed Seth Bullock, a personal friend, and who is to start the horses, the request that the horses used in the race be properly cared for and not overdriven. As cow-boys in a contest of this kind are in-clined to overdo matters, the race may be called off altogether.

The state fair at Yankton this week is progressing thus far under favorable auspices—good weather, large crowd and satisfactory arrangements and attrac-tions.

A Cure for Cholera Infantum. "Last May" says Mrs. Curtis Baker of Bookwalter, Ohio, "an infant of our neighbor's was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, telling them I felt sure it would do good if used according to directions. In two days the time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this Remedy frequently and have never known it to fail in any single instance. For sale by All Druggists."

If you want to be well all the year, take Rocky Mountain Tea now. Great-est renovating Medicine known. 35c.—Frank Smith.

CONFLICT WITH TROOPS.
Five Persons Killed and Ten Wounded at Candela, Italy.

Rome, Sept. 10.—Five persons were killed and ten wounded in a conflict between the troops and strikers at Candela, a small town of Apulia, in the extreme southeastern part of Italy.

Owing to a dispute with the laborers on a question of wages 400 peasants stopped work. The strikers occupied all the roads in the district and pre-vented others from proceeding to their work.

The gardemes, in attempting to in-tervene, were assailed with stones and sticks and a corporal was severely wounded. Troops were then called out and were received with volleys of stones, which felled several of the sol-diers. A couple of the latter were dis-armed by the rioters, who walked off with their rifles and revolvers. The troops then fired, killing five strikers and wounding ten. An official of the ministry of the interior has come to Candela to open an inquiry into the disturbance. Order has been restored.

DOING IMMENSE DAMAGE.
Forest Fires Raging in Wyoming and Oregon.

Laramie, Wyo., Sept. 10.—Reports from timber fire districts state that sheepmen will be heavy losers. Many of the bands have scattered and thou-sands of sheep are now right in the burning timber country.

Work in the Rambler mine has been suspended and all hands sent to com-bat the fire.

Oregon City, Ore., Sept. 10.—Exten-sive forest fires are destroying a large amount of property ten miles from this city between Shubel postoffice and Clarke. The fire covers three miles of country. It has been a strong north wind that has spread it rapidly in a southerly direction, sweeping every-thing before it.

TWO OF THE CREW LOST.
Steam Barge H. Houghton Goes to the Bottom.

Detroit, Sept. 10.—The steam barge H. Houghton, owned in this city, sank at her dock at the foot of Dubois street. Two of the crew were drowned in their berths.

The Houghton arrived Monday night from Kellys Island, in Lake Erie, with a load of crushed stone. It is thought that the cargo of crushed stone ab-sorbed so much water during the heavy rain that the weight of the wa-ter caused the vessel to sink. The Houghton is owned by Captain Deeg and Henry Houghton of this city. Cap-tain Deeg was aboard the barge, but managed to scramble ashore before she sank.

Crocker Selling His Horses.
New York, Sept. 10.—Richard Cro-cker, who has just arrived in town, an-ounces, cables the London corre-spondent of the Herald, that he has disposed of the greater part of the large stable he had in England be-cause he found American horses have no chance in England, as the handicap is put upon them so heavy that there is absolutely no possibility of their winning a race.

WENT DOWN WITH VESSEL.

Said Haytian Admiral and Two Officers Are Lost.

Washington, Sept. 10.—Mr. Powell, United States minister to Hayti, has called the state department that he has a report that Admiral Killeck and two of his officers went down with the Crete-Pierrot, recently sunk near Cape Haytien by the German gun boat Panther.

A PHYSICIAN HEALED.

Dr. Gen. Ewing, a practicing physi-cian of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure: "For years I have been greatly bothered with kid-ney and bladder trouble and enlarged prostate gland. I used everything known to the profession without relief, until I commenced to use Foley's Kid-ney Cure. After taking three bottles I was entirely relieved and cured. I pre-scribe it now daily in my practice and heartily recommend its use to physi-cians for such troubles. I have prescribed it in hundreds of cases with perfect success."—Chris Schultz.
