Do you know that the Normal school of this city owns 40,000 acres of the state lands around Pierre? Every citizen of Madison who is proud of our own state institution and who wishes well its future development will vote "No," against the removal of the state capital from the vicinity of these lands.

Seats are now on sale at the corner drug store for the Midland Opera Quintette which appears at the opera house next Monday evening. Tickets, 25, 35 and 50 cents. They are selling rapidly. Miss Lurline Logan formerly of this city, is leading lady of the company which adds much to its attractiveness locally.

E. L. Ecker contractor for the brick work on the J. W. Davison residence, was a morning passenger for Sioux Falls where he will commence building a bank building of the same material. The brick work on Mr. Davison's building will be completed this week. Mr. Ecker informs The Daily Leader that he expects to build four brick residences in Madison next summer.

As a last resort and final dying kick the Mitchell campaign committee have recently in letters to voters of this vicinity enclosed a circular wherein it is claimed that if the state house remains at Pierre that the state building will be taxed to pay its share of the bonded indebtedness of the capital city. This attempt to blind the eyes of the voters is made in a feeble, struggling attempt to refute the potent argument that capital removal means increased taxation. But thanks to the high level of intelligence of the voters of this state, such misleading and false circulars prove a boomerang, and such insult to the intelligence of our voters will receive just retribution on next Tuesday. Because we all know that all state lands, all state buildings, all schools and even churches, are not taxed at all and are not even on the assessment rolls. If Pierre retains the capital, and it will, the Milwaukee must build to Pierre from Westington Springs. Won't that help Lake county?

Notice to Water Consumers. Water rents are due Nov. 1st. It will be necessary for parties wishing to use the city water after that date to pay for same at City Auditor's office taking his receipt, as superintendent will commence Nov. 7th to cut off all taps not paid for. By order of city council.
—Wm. Rae, City Auditor.

Election in a Week—Our Home Candidates—Vote the Republican Ticket Straight.

One week from today will occur the general election—national, state, county. The capital removal question in South Dakota has been the all absorbing question, having been made attractive by the unlimited distribution of transportation to the people to visit the respective candidate cities by the two great railroads of the state. There is no politics in this and the voters will cast their ballots as individuals for the candidate they think most entitled to the distinction, from the standpoint of central location and to the best interests of all the people.

The success of the national and state tickets is conceded to the republicans by a majority ranging in estimate from 25,000 to 35,000. This one sided condition has been the means of making the state campaign unusually quiet, to the extent of apathy, and the people have had unlimited time to discuss capital location, the republicans satisfied of the outcome of their party ticket, both national and state.

The same condition of affairs exists in the county so far as local politics is concerned. There is the utmost confidence in the success of the entire republican ticket. By reference to the republican county ticket as published in The Daily Leader, it will be seen that it is composed of men who command the respect of the community, and will competently fill the positions for which they have been named.

John Larkin for state senator is recognized as an enterprising business man, peculiarly fitted for the position to which he has been named, cordial in manner, and will command the respect of his associates in the state senate.

Messrs. B. B. Howell and J. H. Groce, candidates for the house, are thoroughly well known in the county as successful farmers. Mr. Howell has served in the house and is posted, and Mr. Groce will inspire the confidence of his associates immediately upon taking his seat.

The nominees of the republican party for local offices already possess the respect and confidence of the people of the community. Chas. J. Porter for county judge has served one term and according to the usual custom is entitled to re-election. This is one of the most important offices in the county, and the people can feel safe in the management of estates at the hands of Mr. Porter.

Frank C. Fuller for register of deeds, H. H. Holdridge for states attorney, E. F. Krueger for superintendent of schools, Frank R. VanSlyke for clerk of the courts, have each served one term and their good work will be endorsed by re-election.

E. B. Kelley, nominee for treasurer has been a faithful worker in the republican party, competent for the position and entitled to the support of his party to a man. So also is F. F. Bruker for auditor and T. J. Bliss for sheriff.

The remainder of the republican ticket comprises John Gregor for surveyor, W. E. Daniels for corner, Duncan Ferguson for commissioner from the Third district.

To make sure that the republican ticket is voted entire, place a cross in the circle at the head of the ticket, fold it and hand it to the judge without another mark and the voter will have done his whole duty.

Election Returns.

National state and county, will be received at the Madison opera house, Tuesday evening, Nov. 8.

FOUR DEATHS RESULT.

Two Cases of Murder and Suicide at Chicago.

Chicago, Nov. 2.—Two cases of murder and suicide of similar nature occurred within two hours of each other. Joseph M. Skala, a butcher, fatally shot his wife and then himself. The shooting is said to have been due to business troubles growing out of the fact that the wife in her own right was the proprietor of a meat shop.

Shortly afterward William Kuhlmann, a publisher and president of a mining company, was shot and fatally injured by his former partner, Henry Holtze, who immediately killed himself. Holtze is said to have believed that he had been swindled by Kuhlmann.

AMES JURY FAILS TO AGREE.

Reported That It Stood Eleven to One for Conviction.

Minneapolis, Nov. 2.—After being locked up for nearly seventy-two hours the jury which tried Dr. A. A. Ames, former mayor of Minneapolis, for a fourth time, reported to Judge Simpson that it could not agree and was discharged.

It is asserted that the jury stood eleven to one for conviction from almost the time it took the first ballot after it retired about 7 o'clock Friday night until the last.

The indictments against Dr. Ames have not been nolleed and he will be placed on trial for the fifth time at the opening of the November term of court.

STANDARD OIL.

The Great Corporation Will Attempt the Repeal of the Inspection Law.

Pierre dispatch, 31: The impression appears to be growing throughout the state that the Standard Oil company will make an effort during the session of the legislature which meets next January to have the state oil inspector law repealed. This law was enacted by the legislature a year ago last winter and had scarcely gone into effect when it was attacked in the courts by the Standard Oil company. In order to test the constitutionality of the law the Standard Oil company shipped into the state a quantity of oil which was alleged to have been of an inferior grade.

The shipment was inspected and rejected by Emil Brauch, the state oil inspector, and the Standard Oil company promptly instituted an action in the United States court in this city for the purpose of testing the constitutionality of the new law.

The case is still pending in the federal court. Special examiners were appointed by Judge Carlund, of the United States court, to take testimony in the case in South Dakota, Illinois, Ohio and New York, but as yet little of the testimony has been taken.

November 1 of the present year was originally fixed as the time for the submitting of the testimony to Judge Carlund, and November 15 was determined upon as the date when the case should be argued before him.

But owing to the delay in commencing the work of taking the testimony in the four states mentioned, extensions of time in which to submit the testimony and make the arguments in the case will have to be applied for and granted. Their is now little likelihood of the work of taking the testimony will commence in earnest until after the beginning of the new year.

As the state legislature meets early in January, the delay in taking the testimony in the case would appear to strengthen the suspicion that the Standard Oil company will endeavor to have the "obnoxious law repealed. If such an effort is made, and results successfully, it will, of course, be unnecessary to press the case now pending in the federal court.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucus surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY, & CO., Toledo, Ohio. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.—Stoddard & Halstead.

Mrs. Lois Cragg of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by Stoddard & Halstead, Druggists. Price 50c. and \$1.00. Trial bottles free.
