

The Big Store....

A Large Exhibit of the Newest Easter Styles are here.
The most Favored Styles, and Prices Conspicuously Low.

Never have Women's Tailored Suits been so popular as this season, and never were styles prettier or more varied. The materials are especially beautiful. Plain and novelties are the most prominent, and the new satin finished Prunellas are the most conspicuous in the better Suits. Prices range from

\$12 to \$35 a Suit

We are also showing an immense assortment of Skirts, Waists, Muslim Underwear, Dress Goods, Wash Goods, Embroideries, Laces and New Style Corsets.

Our stock of Art Squares, Rugs, Carpets, Matting, Linoleums, Floor Oil Cloth, Lace Curtains, Window Shades and Upholstering Goods is very complete, and we invite your inspection.

STATE NEWS

Bridgewater—The board of education of this city has been fortunate in securing the services of Hon. Thomas Sterling, dean of the university of South Dakota, to deliver the address before the commencement exercises of the Bridgewater high school on June 4.

Deadwood—This city is to have a new and up to date A. D. T. system which will be installed early this month by the Western Union. The same system in operation in the large eastern cities is to be installed by men who will come here from Omaha for the purpose. For some years past there has been no regular A. D. T. system here, and the business interests will greatly appreciate the change.

Lead—An indication of the thrift of the Homestake miners, many of whom are depositors in this bank, is shown by the statement of the First National bank of this city, which now has on deposit a sum slightly in excess of \$1,000,000 in its savings and time departments. The statement shows the bank to be in better shape financially than at any time in its career, both the total assets and total deposits showing material increases.

Hurley—Nela J. Peterson, who lives about six miles east of here, shot his hired man last night. The hired man and left the place after being paid off, but returned when he discovered that Peterson had charged him \$1 for washing. He became impudent and Peterson went after him with the broom, but the man took it away from him, knocked him down and then ran. Peterson went into the house and got his shotgun and fired at the man, hitting him in the nap of the neck. As he had gotten out of range he was not hurt much. He pulled a revolver and fired a few shots in return, but none of the bullets struck Peterson.

Aberdeen—Plans have been accepted for the new Baptist church which will be built to replace the structure destroyed by fire November 30, 1908. The new building will be a commodious structure, of pink pressed brick, smooth finished, and trimmed in Kasota sand stone. It will be in the mission style of architecture.

Pierre—Reports to the state land department show that at the sale of state lands in Miner county Friday the receipts amounted to over sixty thousand dollars, the average selling price of the lands in that county being \$44 an acre.

Pierre—The receipts from the special call for state taxes which was sent out to a number of counties a short time ago, have been \$59,000, and the call for outstanding general fund warrants which will be made early this month will likely be over sixty thousand dollars and will pretty well clear up the outstanding warrants, leaving the debt

of the state a half million dollars of funding warrants bearing less than four per cent.

CORN LEADS

Farmers West of the River Propose for Big Corn Acreage.

Kadoka, May 3.—It is but three years since the large majority of our homesteaders arrived here, but in that short time wonders have been accomplished. The five-acre plot was put into crop, and the crops which were raised looked good to the claim holders. The faithful few the next year broke more land, however, and the second crop was fully as good as the first. A third season of good crops followed, and now the farmers are entering upon the fourth season. Crop conditions thus far have been ideal, and the settlers are putting in more than double the acreage of last year.

The Kadoka Press has been making an effort to get an estimate of the acreage of crops to be put in the territory tributary to Kadoka and has secured returns from eighty-three farmers. These farmers will put in an acreage of nearly seventy-seven acres each, or 6,365 acres in all.

The crops are divided as follows: Wheat, 988 acres; oats, 1,496 acres; corn, 3,104; barley, 199; rye, 8; flax 175; speils, 63; potatoes, 98; alfalfa 86; timothy, 13; clover, 8; trees, 37; other crops, 89.

Trees to be planted outside of the acre plots, 10,700.

This average of seventy-seven acres is but a fair average of all the farmers living near Kadoka, and on this basis there will be at least 5,000 acres of crops planted in this vicinity this season.

KILLED BY FALL

Young Girl Fatally Injured by Her Horse Stumbling.

Aberdeen, May 3.—As the result of a dog getting in front of a horse ridden at a gallop Hazel Cole of Columbia is dead. The girl lived with her mother, Mrs. B. Cole, and her brother, C. H. Cole, on a farm north of Columbia about ten miles, in Brainerd township, and had been out on the horse about 7 o'clock Wednesday evening. As she was turning into the yard on her return the dog ran out to welcome her, and got under the feet of the horse, which was on a gallop. The horse fell to the ground and the girl was thrown from its back landing a short distance away.

She was taken into the house and aid summoned, but she lingered until 11:30 last night, when death relieved her. She did not regain consciousness before death, which was caused by concussion of the brain and probably internal injuries.

The girl was 14 years of age and was popular in that section. She was a niece of Mrs. Frank Clark of this city and had visited her here. C. H. Cole, the brother, formerly lived in this city,

and was a member of the firm of Cole & Murray, which were in the grocery business. The funeral will be held from the home of the mother, north of Columbia, on Sunday and will go to the church at Columbia from the residence.

REVIEW OF TRADE

Shows Business Prospects Better Than Last Year—Bradstreet's Report.

New York, May 3.—Bradstreet's Review of Trade for the week, says:

Summed up, the situation may be said to be a current trade, wholesale and retail better than last year, but disappointing as a whole, while the one for the future is still quite markedly optimistic. Reports from leading industries are rather better than for some time past. The business doing and the reports coming from the iron and steel trades are distinctly better. Low prices have evidently brought out slumbering orders, and there is talk of the bottom having been touched and a new ascent begun. In the textile trades, quiet as to the present but optimistic as to the future is the rule. Cotton goods still lead the rest of the market, but the strength of raw wool seems to point to confidence in finished lines. High prices are being paid in the west for the new wool clip, shearing of which is active. The leather trades are strong, sole leather being active and hides higher. Shoe orders are below normal, but improving.

Coal is in better demand, and the new agreement for three years in anthracite being signed, peace is certain for a long period. Coke is still weak and low in price. Lumber is irregular, despite activity in building, and southern production is slackening. Naval stores are close to or below cost of production.

Business failures in the United States for the week ending with April 29 were 288, against 247 last week; 282 in this week last year. 163 in 1907, 139 in 1908 and 193 in 1905.

Failures in Canada for the week number 25, against 36 last week and 23 in the like week of 1908.

Wheat, including flour, exports from the United States and Canada for the week ending April 29 aggregate 896,312 bushels, against 1,585,778 bushels last week and 1,629,589 bushels this week last year.

Corn exports for the week are 644,478 bushels, against 1,080,408 bushels last week and 407,002 bushels in 1908.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube is restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75. Take Hall's Family Pills for constipation.

CHICAGO MINISTER

Makes It Difficult for Young Women to Find Mates

Chicago, May 3.—Here are some of the precepts and principles laid down at the Halsted street institutional church by the Rev. D. D. Vaughan for the young women in his congregation to follow in selecting husbands:

Choose a bright mind rather than a bright necktie, because you can buy the necktie afterward.

If you are a kitten, do not marry a bulldog.

Do not marry a foolish optimist.

Do not marry a dyspeptic, bilious man.

Do not marry a man who spends his time chatting around with the girls instead of preparing himself better to wage life's battles.

Choose bigness of heart rather than bigness of pocketbook.

Choose an attractive disposition rather than attractive clothes.

Beware of the boy with the puppy love.

Do not choose a man who has sown his wild oats.

Do not choose a man who lacks proper consideration for women—a man who will walk along the street with a woman and let her carry a bundle.

Be sure to get a teachable man.

Be sure to choose a man who can love a woman more than he can love a dog or a horse.

Remember that many an ideal lover does not make an ideal husband.

Let the man be the head of the house. God, when he made Adam, intended that he should scare away the lions, the tigers and mice.

These remarks were called forth by the propounding of a set of questions to 125 young women of his church as to what qualities they most desired in a husband. Most of the young women wanted a husband who would "boss" and love them. Beyond that they were not very particular.

SEATTLE'S BIG SHOW

Novel Features of the Alaska-Yukon-Pacific Exposition.

ITS SITE A FOREST OF FIRS.

Complete Silk Factory in Daily Operation. A Part of Japan's Exhibition. Eleven Airships of Various Types. Great Display of Alaska's Wealth Producing Possibilities.

The finishing touches are being put on the Alaska-Yukon-Pacific exposition, which is to be held at Seattle, Wash., and hundreds of men working under the direction of experienced landscape artists are setting out trees, shrubs and sod, transplanting rose-bushes, rhododendron plants and other flowers that will make the exposition grounds a place of beauty. Blooming flowers of every description will not toward the towering firs of the forest in which the exposition has been built.

Seattle declares that the exposition, which opens on June 1, will be ready on time, and this means a great deal when the experience of its predecessors is considered. The majority of the buildings planned for the fair at the outset are either finished or are well along in the course of construction.

An automobile race from New York city to the grounds of the exposition will start on the day the exposition opens. A \$2,000 trophy and \$5,300 in cash prizes have been offered by M. Robert Guggenheim of Seattle.

Eleven airships of various types have been entered for the airship show.

The exposition is the first world's fair which has not asked financial assistance of the government. Uncle Sam is spending \$600,000, but is doing it himself on his own exhibits and buildings.

One hundred thousand cactus dahlia plants are used in one single feature of the landscape gardening.

In the magnificent display being assembled by Japan for its exhibition will be a complete silk factory in daily operation. The process will show in detail the history of silk from the worm in the tree to the finished product.

A novel feature to be seen at the exposition will be the display of totem poles from the far north. These interesting family or tribal trees will be extensively used in decorative schemes, and their peculiar carvings, recelling the histories of the different tribes, will be of special interest to visitors.

When William H. Seward in behalf of the United States government paid Russia \$7,200,000 for Alaska he was spoken of as a dreamer and the purchase was known as "Seward's folly." At the exposition a pile of virgin gold from Alaska will be exhibited, and the one heap of yellow metal will represent in actual value more than five-sevenths of the purchase price of Alaska.

Miss Bogen's Fine

MILLINERY SHOWING

is now in its full array and the ladies of Madison and vicinity are cordially invited to inspect her most beautiful and great assortment of : : :

Tailored and Dress Hats

A specialty is made in middle-aged ladies hats as the extremity but beautiful of this year's style does not appeal to all modes of hair dressing, and therefore an extra effort was made to obtain the correct styles for the different hair-dressing. Convince yourself by calling at

Ginder's Continued Story CASH IS KING

After one month's trial of the cash system (and the hardest month of the year to inaugurate new methods along these lines) we are entirely satisfied with results and are confident that the Cash System is appreciated by our customers, none of whom will be annoyed with statements (duns) or collectors; no occasion for it, they pay as they go and enjoy that contented feeling at the end of the month that is due to all who are at peace with the butcher. Try the Ginder Market for a month and be convinced that CASH IS KING. No paying bills twice, no paying the other fellow's bill if it's getting into your account by mistake?
