STATE NEWS

Washington, D.C.—Postmasters were nominated by the president today as follows: Ross Grier, Deep River, S.D.; George C. Lehr, Estelline; John B. Long, Kimball.

Tripp—John W. Chik was found dead hanging from the rafters of his blacksmith shop this morning. He was 30 years old, popular and had no bad habits. No reason is known for the act. He had been dead about two hours when found.

Edgemont—It became known today that William O'Grady, the lead youth who was to be tried here next month for an alleged attempt to destroy one of the Homestake mills last April with "Pettibone dope," has disappeared. O'Grady, who was recently extradited from a Chicago jail, was out on \$1,500 bail. The charges against him are highly sensational and Pinkerton detectives are looking for him.

Woonsocket—The Commercial club of Woonsocket has filed a petition with the railroad commission to try and compel the Milwaukee railroad company to extend a telegraph wire out to that place from Woonsocket. The road has been built into the Springs town for several years, but it has never had telegraph service. The business men express the opinion that a town which is the home of the governor of the state, certainly ought to be connected with the outside world by wire.

Leola—The recently organized McPherson County Corn association, as the result of a meeting held here by the members, has elected officers as follows: President, G. B. Howell; secretary-treasurer, W. K. Bishop. An executive committee of nine members, including the president and secretary, was appointed. The purpose of the association is to encourage a larger cultivation of corn by the farmers of McPherson county as a method of preservation of the soil; to start a contest among boys under eighteen years of age in the growing of corn and the offering of cash prizes to those who grow the best corn during the coming season, three or more prizes to be given in each commissioner district in the county.

Lead—Captured by the Mexican insurgents and imprisoned on a bread and water diet, was the fate of Harold Lund, a 20 year old Lead boy, who has been for some time past working in Mexico. In a letter to his family here, young Lund says that with some companions, all Americans, they were making their way from the smelter where they had been employed, back to the United States. They were obliged to leave the train near Juarez when they were at once seized by the insurgents and kept in the rebel prison for five days on meager rations. At the end of that time they were offered \$5 a day to go into the employ of the insurgents as engineers, after first being released, but declined the offer and made their way into Texas.

Fort Pierre—At a meeting of the committee appointed to organize a new political party, growing out of the equal suffrage movement, a publicity committee consisting of Mrs. Eppie, Mrs. J. M. Cole, and Mrs. Florence Jeffries was appointed. It was decided to launch a new state paper to be started at Pierre to advocate the principles of the new party for which no name has yet been selected. "Some of the papers call it 'The Woman's Party,'" said Mrs. Jeffries, "but we

object to this name because we want to eliminate the word 'sex' from politics." The fact that women can hold so many of the state offices according to our state constitution has given the new movement an impetus that is very gratifying to its promoters.

AT PIERRE

The Legislature Grinding on the Big Crises Before It.

Pierre, Feb. 22.—By the narrow margin of seven votes the senate killed the special investigating committee's recommendation as to plans to improve the conditions of the state soldiers' home at Hot Springs. The defeat came after a hard fight, and had it not been that Wyman, one of the fathers of the bill, insisted on the emergency clause, it would have passed. The bill was championed by that senator who spoke at length on the measure, senate bill number 186.

The defeat, in a large measure, is attributed to the efforts of the members of the Grand Army of the Republic in the state, who were very much aroused over the proposition to take the management out of their hands, and give it to a civilian board. The special committee recommended that it should best to entrust the management to a younger commandant, and put the administration on a more business like basis.

The bill was introduced by Senators Wyman, Johnson and Morrissey, and sought to entrust the management to a state board of men, consisting of three members, appointed by the governor and confirmed by the senate.

The special committee, after a prolonged investigation, returned to Pierre, filed a report and senate bill number 186 was the outcome.

Senate bill number 87, called the Homestake bill, came to a sad death today, when by a vote of 23 to 19, the senate decided to postpone to an indefinite date, further action, which is equivalent to cutting the throat of the proposal. The bill sought to prohibit the employer from demanding as a condition employment, that his employees sever connections with any other labor society. This would have a direct effect on workmen in the Black Hills, and it was in their interests that the bill was introduced.

The Bigelow primary law was killed in the house, it only receiving 28 affirmative votes. There was some little discussion of the measure, but the larger number of speakers expressed the opinion that the bill was not what was wanted, and this served to make many senators vote in the negative.

Richards' primary law, which has been laying in the committee for some time past was dragged into prominence again, when it was reported without recommendations.

The headlight bill, house bill number 14, providing that all engines operating on railroads of the state must be equipped with electric headlights was reported favorably by the committee in the senate, and action is expected within a short time.

The irrigation bill, was also reported favorably. Governor Vessey today signed two bills which recently came to him from the legislators, the good roads bill and the plan for rotating names on the primary ballot.

One of the peculiar pieces of legislation which crept through the senate was S. B. 168, which provides that any man who owns taxable property in a city, may send his children to the public schools of that city without paying tuition. The senate killed Ryan's bill calling for the licensing of transient merchants and traders. A rather long session last evening was given over completely to explanation by Representative Bigelow of his proposed combination primary and election. The house considered it in committee of the whole. The women grew emotional when

presenting their side of the woman suffrage question to the senate committee and pleaded with tears in their eyes for the ballot. Even Senator Heanalt wept.

The charge has been made that the interest at freight rates discriminate against certain sections of the state and are unjust. The matter has been brought before the railway commission and they are preparing statistics preparatory to filing complaint with the interstate commerce commission. The coal rates within the state were lowered considerably by the recent revision of the tariffs by the railway commission. The question which has now arisen is one concerning interstate rates and therefore must be taken before the interstate commission. The present rate on coal from Duluth or Superior is about four dollars a ton.

AFTER THE PLUMS

Lawyers Waiting for New Judicial District to Mature

Pierre, Feb. 22.—Ambitious attorneys in both the northern and southern parts of the state are keeping a close watch on the progress of the bill to create the new eleventh and twelfth judicial circuits, and are ready to spring their endorsements on Governor Vessey as soon as they are certain that the bill will go through the senate, as the house has already passed it. While the bill is yet in the air some of them are modest about getting endorsements sent in, but others are banking on endorsements to help them get a running start ahead of those who are waiting. As the bill carries an "emergency" clause, there will not be any great delay in the selection of appointees to fill the places. The emergency is declared to be necessary to keep up the business of the two new circuits, which is dragging on account of the fact that the new counties which are tired to conditions which existed under old-time conditions, have developed so much new business that the judges cannot anywhere near keep up the business coming along with the increased territory and population.

OPPOSED TO TREATY

Senator Crawford Thinks Canadian Pact Should be Amended

Washington, Feb. 22.—Senator Crawford of South Dakota announced Saturday that unless opportunity was afforded to amend the McCall bill embodying the terms of the Canadian reciprocity agreement he would oppose the measure. As the amendments that Senator Crawford would incorporate in the bill would destroy its autonomy, the South Dakota man may be aligned with the opposition. In discussing the agreement Mr. Crawford said:

"This bill provides for free wheat and free barley. It is my belief that it should also place flour and barley malt on the free list. It also should admit dressed lumber free of duty. These concessions should be made for the benefit of the farmer who has been asked to give everything without receiving anything in return. The farmer should not be deprived of protection without being accorded compensating advantages."

The South Dakota delegation is united in its opposition to Canadian reciprocity as outlined in the McCall bill. Senator Gamble and Representatives Martin and Burke are outspoken in their hostility to it.

A King Who Left Home. Set the world talking, but Paul Mathulka, of Buffalo, N. Y., says he always keeps at home the King of all Laxatives—Dr. King's New Life Pills—and they are blessing to all his family. Cure constipation, headache, indigestion, dyspepsia. Only 25c at all druggists.

WOMEN IN FIGHT FOR THE BALLOT

Big Delegation Descended on New York Legislature.

OPPONENTS ALSO ON HAND

Anti-Suffragettes Turn Out in Force and Prove to Be as Aggressive in Debate as Their Sisters Who Demand the Ballot—Organized Agitation to Continue for the Balance of the Week.

Albany, N. Y., Feb. 22.—Republican legislatures for years having turned a deaf ear to the pleas of woman suffrage advocates, the turn in the political tide which sent a Democratic majority to Albany this year was the signal for renewed effort on the part of the organizations which annually have battled over the issue on Capitol hill.

Heretofore the suffragists have contented themselves with an annual field day before the legislative committees, leaving a few of the faithful to watch developments, but this year the Equal Franchise society, of which Mrs. Clarence Mackay is president, arranged a "suffrage week" programme, with a hearing before the senate and assembly judiciary committee as its chief feature.

The anti-suffragists, too, turned out in force and proved to be quite as aggressive in debate as their sisters who demanded the ballot.

An open air demonstration, at which Mrs. Harriet Stanton Blatch, Miss Lenora O'Reilly and other enthusiastic suffragists spoke, served to attract attention to the main event in the capitol, scheduled for later in the day.

Mrs. Arthur M. Dodge, who succeeded Mrs. Francis M. Dodge as president of the New York State association opposed to woman's suffrage, was in charge of the forces of the opposition.

GAYNOR FOR FREE SPEECH

Sends Special Message to New York Board of Aldermen.

New York, Feb. 22.—The right of free speech is to be guaranteed to all inhabitants of New York, according to Mayor William J. Gaynor.

In a special message to the board of aldermen the mayor, after explaining that police methods have been radically changed by his direction, says: "I have particularly made the police authorities understand that those who entertain views of government, or of social order, different from ours, are not to be interfered with or denied the right of freedom of speech and assembly on that ground.

"A propaganda, by intellectual persuasion and peaceable means, for the economic or social order is lawful and not to be meddled with, much less oppressed by the police. And that their flag is red instead of blue or yellow or green does not alarm or annoy intelligent people."

ACTRESS WILL SEEK DIVORCE

Mabel Tallaferro Said to Have Tired of Married Life.

Chicago, Feb. 22.—Mabel Tallaferro, the actress, it is rumored, is about to start divorce proceedings against Frederick W. Thompson, one of the proprietors of Luna Park and the Hippodrome in New York.

Miss Tallaferro now resides in Chicago, while her husband lives in New York. They have been separated for some time. Miss Tallaferro virtually has retired from the stage.

The wedding of the actress and theatrical magnate took place in New York city four years ago and until recently it was considered one of the happiest of theatrical marital alliances.

Many Shaken Up in Wreck.

Saginaw, Mich., Feb. 22.—One man is believed to have been fatally injured and a woman slightly injured, while 100 passengers were badly shaken up when the Pere Marquette train No. 1 ran into an open switch at Rose Center, seventy miles from here.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.—Walding, Kinnear & Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation. Accused of Stealing. E. E. Chamberlain, of Clinton, Mo., boldly accuses Buckler's Arnicin Salve of stealing—the sting from burns of scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises, sprains and injuries of their terror," he says, "as a healing remedy its equal don't exist." Only 25c at all druggists.

NEW INDUSTRY

Plaster is Now Being Made from Black Hills Gypsum.

Rapid City, Feb. 22.—One of the new industries in this section that is rapidly forging to the front is the manufacture of plaster from gypsum of which there is an almost unlimited quantity in this portion of the Black Hills. A few months ago the Dakota Plaster company, composed entirely of local people was organized. It was capitalized at \$150,000, all the stock being taken here, and a \$100,000 mill erected. This mill is now turning out about 240 tons of plaster a day, the product being shipped to the Pacific coast. The company owns a large tract of land here from which it obtains its plaster, the main vein being 1,800 feet in length 60 feet wide and 18 feet deep.

This vein of gypsum is taken from the surface of the ground and contains 98 per cent pure gypsum, several different kinds of plaster being obtained from it. The company has met with such success and has so many orders ahead that it is now figuring on building another mill. The officers are: President, Joseph Jay; vice president, B. L. Allender; treasurer, H. W. Hinrichs; secretary and general manager, Karl E. Winter, all of Rapid City.

Thirty Years Together. Thirty years of association—think of it. How the merit of a good thing stands out in time—or the worthlessness of a bad one. So there's no guess work in this evidence of Thos. Ariss, Concord, Mich., who writes: "I have used Dr. King's New Discovery for 30 years and its best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used for forty years. It's the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, influenza, fever, croup, quincy or sore lungs. Price 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.

Lagrippe Coughs. Strain and weaken the system and if not checked may develop into pneumonia. No danger of this when Foley's Honey and Tar is taken promptly. It is a reliable family medicine for all coughs and colds, and acts quickly and effectively in cases of croup. Refuse substitutes, sold by all druggists.

HAVE YOU TRIED PAXTINE

The Great Toilet Germicide? You don't have to pay 50c or \$1.00 a pint for listerian antiseptics or peroxide. You can make 16 pints of a more cleansing, germicidal, healing and deodorizing antiseptic solution with one 25c box of Paxtine—a soluble antiseptic powder, obtainable at any drug store. Paxtine destroys germs that cause scum, decay and odor,—that is why it's the best mouth wash and gargle, and by it purifies the breath, cleanses and preserves the teeth better than ordinary dentifrices, and, in sponge bathing it completely eradicates perspiration and other disagreeable body odors. Every dainty woman appreciates this and its many other toilet and hygienic uses. Paxtine is splendid for sore throat, inflamed eyes and to purify mouth and breath after smoking. You can get Paxtine Toilet Antiseptic at any drug store, price 25c and 50c, or by mail postpaid from The Paxton Toilet Co., Boston, Mass., who will send you a free sample if you would like to try it before buying.

That Cold Room

on the side of the house where winter blasts strike hardest always has a lower temperature than the rest of the house. There are times when it is necessary to raise the temperature quickly or to keep the temperature up for a long period. That can't be done by the regular method of heating without great trouble and overheating the rest of the house. The only reliable method of heating such a room alone by other means is to use a

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless which can be kept at full or low heat for a short or long time. Four quarts of oil will give a glowing heat for nine hours, without smoke or smell. An indicator always shows the amount of oil in the font. Filler-cap does not screw on; but is put in like a cork in a bottle, and is attached by a chain and cannot get lost. An automatic-locking flame spreader prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that it can be cleaned in an instant. The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental. Has a cool handle.
