Special demonstration of April Victor and Columbia records Friday afternoon at Mitterling's Piano House.

LOCAL NEWS

Mrs. Evans of Winfred is in the city today for medical and dental treatment.

Mrs. Harold Mitchell was a business visitor in Sioux Falls between trains today.

Robert Paulus of the Paulus dry goods store is confined to his home on account of illness.

J. H. Hall and son of Winfred are Madison visitors today, the former for medical treatment.

Mrs. Charles Bonnell has accepted the position of bookkeeper and cashier at the Slack grocery.

Mr. and Mrs. P. A. Travis of Oldham are Madison visitors today, the former for medical treatment.

The Aid society of the Presbyterian church will meet with Mrs. J. C. Schutts on Friday afternoon, April 2.

Thomas Cosgrove arrived in the city yesterday to enjoy a brief rest from school duties at Milwaukee, Wisconsin.

Gunder Johnson was a guest at the Ole Edmonds home last Sunday. On the day following he returned home to Brookings.

The interior of the Guy Hanson jewelry store is being brightened up by the application of fresh paint and murexco finish.

Miss Faye Kingsley today succeeds Roy Hartwich as county auditor. The latter resigned to take up the occupation of farming.

Dyle Ireland came up from Vermillion last evening for a few days' visit with his parents, Mr. and Mrs. A. T. Ireland, of Center street east.

Mrs. Dora Mayfield left on a morning passenger for her home at Sheldon, Iowa. For a week she was the guest of her son, R. H. Mayfield and family.

Bruce Edmonds, son of Mr. and Mrs. O. Edmonds of this city, left on Tuesday for Monango, N. D., where he will spend the summer with his sister, Mrs. John Olson.

Mrs. Freeman Cotton of St. Cloud, Minn., was in Madison several days calling on her daughter, Stella, who recently underwent an operation for appendicitis. She departed for home on a morning train.

The big Deisel engine at the light plant has been assembled after being taken apart for a thorough overhauling and cleaning. It was given a test run and was found in number one condition for future use.

Recent operations at the Madison hospital: Arthur Kaske of Chester, for appendicitis; Miss Stella Cotton of St. Cloud, Minn.; Dorothy McKenzie of Artesian, and H. H. Gehring of Howard. The latter had a small particle of steel removed from one of his eyes.

Ed Gunderson, who has been employed as tailor for J. V. Regan for more than a year, has decided to start in business for himself. He will do not only general tailoring work but also cleaning and pressing. Mr. Gunderson's headquarters are on the first floor of the building just across from the postoffice.

The Rev. C. K. Solberg officiated at noon yesterday at the marriage of Roscoe Bowman and Miss Emelia at Harold, where Mr. Bowman is state. The ceremony was performed at the Trinity Lutheran parsonage. The newly weds will make their home Quaschnick, both of Harold, this employed as a barber.

Dr. H. E. Kellogg purchased a ticket today and started west on a three weeks' journey that will take him to Kansas City, where he has a brother whom he will visit and on to Los Angeles, San Francisco, Tacoma and Seattle. His return will be made over the Northern route.

Miss Della McCready begins work today as assistant in the kindergarten-primary department at the training school. Miss McCready graduated from the Normal in 1914 and since then has held responsible positions in the schools at Artesian, Webster and Spearfish. She has had excellent success as the teacher of little children and the Normal is very fortunate in securing her services.

Comrade Wm. Metcalf is one of the very early residents of Lake county. Recounting his experiences today he remarked that in 1878 he took up his government land claims a few miles northwest of the city, which he still owns and which have grown into a comfortable fortune. Himself and wife passed through all of the pleasures and the hardships of pioneer life, but at that time they were young and enthusiastic and breaking into a new country had peculiar pleasures which are passed and gone.

For the coming city election, which is to be held on Tuesday, April 20, two names have been filed so far. H. C. Ball will ask the voters to support him for a member of the board of education, and C. A. Stensland comes before the people for election to the city commission. Both gentlemen are well-known business men capable in every way of taking care of the school and city interests that would be entrusted to them should they succeed in winning a victory at the polls.

The kindergarten at the training school will open Monday, April 5. Since the former announcement of the opening a number of registrations have been received and the enrollment is practically completed. Children should not be sent to the training school unless previous arrangement has been made for them, excepting those who were enrolled in the kindergarten last fall. It is realized that this will cause some disappointment, but the facilities provided are not sufficient to accommodate all the children whose parents desire them to have this training.

Foreman Wenzel and a crew of repairers came down from Aberdeen recently to assist in restoring the telephone system that was shattered by the wind storm of last Sunday. Their work at present is in the vicinity of Dell Rapids. Communication is about normal though there are still trouble points causing much concern. Six poles are down near Henry Beck's, just out of town, and of 108 poles in a distance of one mile west of Salem, only 14 are intact. The Northwestern telephone wires are flattened for six miles southwest of Salem.

The city commission met yesterday and made the purchase of a Dakota tractor, the product of the Pope Manufacturing company of Watertown. The price paid was \$1,750. The deal was closed with the Hunter-Patton Motor company, who are local agents for the Watertown firm. Traveling Manager S. J. McLain was chiefly instrumental in placing the Dakota on practical tests here on our streets at a time when the rough roads would demand every ounce of power and quality any such machine might possess. This test was made in competition with tractors of other

make. In the judgment of the commissioners the Dakota tractor is built to stand the strain of city improvement work. The Winfred city council is figuring on buying one of these for street and road work.

WE BUY, raise and sell fur-bearing rabbits and other fur-bearing animals. List what you have with us, stating your lowest prices on large lot shipments. The Fur & Specialty Farming Co., 515-517 N. P. Ave., Fargo, N. Dak.

DeSmet Decides On Improvements

DeSmet, April 1.—The question of details of sewer and water systems for the city of DeSmet received the attention of a large number of citizens at a meeting held here.

At the request of the city commission the contracting engineer was present and gave a very instructive talk on sewer and water systems, bringing out the needs of the city and the requirements of satisfactory systems.

Following this he answered questions about locations of mains, cost of installing, etc.

An expression of opinion as to the feasibility of installing sewers and a water system was almost unanimous in favor, and it was the further opinion of a large majority that the work on the sewer should start at once and on the water system later in the season.

Storm Losses Very Great

Sioux Falls, April 1.—M. E. Guinter, of the Northwestern Telephone company, declared that the damage to lines in the Rosebud district from Sunday's storm was from \$250,000 to \$300,000. Ten thousand to 15,000 telephone poles are down in that territory. Men are being rushed from Chicago, Springfield, Ill.; Davenport, Ia.; Waterloo, Ia., and Minneapolis, Minn., to assist in rebuilding the destroyed property.

On the transportation lines, one of which runs from Omaha to the Black Hills, the loss has been heavy. Mr. Guinter declared. On one line alone about 2,800 poles are down. One thousand men are already at work in South Dakota and Nebraska, repairing this damage.

In the Sioux Falls district the damage was not so severe and is estimated at \$125,000 with several thousand poles down.
