STATE NEWS

Deadwood.—Mrs. F. A. Cavinee, of this city, was badly hurt and had a narrow escape from death when the auto in which herself and others were riding plunged from a high embankment on the Spearfish road.

Mellotte.—Gaynard Possen was badly scalded when he removed the radiator cap from his tractor when the water was boiling. The water shot up into the young man's face as he was about to look down into the radiator. He was brought to this city for treatment.

Elk Point.—Ad Williams, who appeared before Judge Flegler at Parker was fined \$60 and costs. Williams was arrested on a charge of importing a gallon of whisky into South Dakota from near Hawarden, Iowa, by auto.

Spearfish.—A large number of girls of campfire clubs of the Black Hills have gone into camp on Iron creek, in Spearfish canyon, and will remain for some days, during which they will take hikes and have other recreation.

Milbank.—A deal has been consummated whereby Frank Boerger of the First National bank of this city, and Wesley Swenson, cashier of the LaBolt State bank, purchased the interests of F. B. Roberts and L. S. Bannister in the First National bank and the First National Security company. Both the Roberts and Bannister families expect to make their future homes in Los Angeles, Cal.

Elk Point.—State Engineer Soleg and Federal Engineer Swartz were here this week and with County Highway Superintendent Larson made the final inspection of seven miles of gravelled highway out of this city and 11 miles out of Beresford. The state highway commission is advertising for bids for grading both these stretches of roads. They are also advertising for bids for graveling.

White Owl.—Harry Yeaman, a former prospector and miner of the Black Hills, who now owns a ranch near here, is one of the most fortunate men. On his ranch is a large lignite coal mine, from which he sells hundreds of tons annually, in addition to having plenty for his own use during winter months. He states that if he could get enough assistance his mine is of sufficient capacity to supply the needs of Newell, Faith and other towns of the region.

Gregory.—The Rosebud boosters, composed of Tripp and Gregory county business men, will make an extensive booster trip covering the eastern half of South Dakota on August 30, 31, and September 1 and 2. Twenty auto loads of boosters will make the trip, and it is expected there will be about 100 in the party. The itinerary will include Mitchell, Alexandria, Salem, Sioux Falls, Canton, Yankton and intermediate points.

NATIONWIDE FIGHT AGAINST DISEASE

American Red Cross Will Have Health Centers in All Parts of United States.

The American Red Cross has launched upon a nation wide campaign of fighting disease and physical defect among the American people. A new and unique health institution has come into being as the result of several months' study by the Red Cross Health Service Department at National Headquarters.

Officials in charge of the department predict that before long this new health activity will be in actual operation all over the country, and that the sign—"American Red Cross Health Center"—will become as familiar to the people everywhere as are now the signs of the telephone companies.

Busy Long Before War.

The interest of the American Red Cross in the fight against disease is not, however, of recent origin. Long before the war the organization began this health service through its medical units in disaster relief work and its department of Town and County Nursing. During the war and following the armistice thousands of American Red Cross officials have been fighting disease in the war-stricken countries. At the same time tens of thousands of local Red Cross officials have been engaged at home fighting disease, notably during the influenza epidemics.

The American Red Cross has determined that all this valuable experience in health service abroad and at home shall not go to waste. So long as there are a half a million people dying yearly in this country from preventable causes, and so long as more than one-third of the American children and young people are victims of physical defects, the Red Cross recognizes the urgent need for continued Red Cross health service at home.

How Organization Works.

The Red Cross Health Center is governed by business principles, applies business methods, and, in its more simple form, can be established and conducted by lay people.

It proceeds upon the demonstrated fact that health is a commodity that can be bought and sold like brooms and soap. Therefore, it establishes itself in a store room in the principal business section of the community. It displays its goods in the form of attractive health exhibits in its show windows. It advertises constantly and extensively. And it uses every business and social device to attract customers.

The Red Cross Health Center is of service to the sick in that it gives out reliable and complete information about existing clinics, hospitals, sanatoria and other institutions for the sick and the defective; about available nurses, both trained and practical; about when to consult a physician and why to shun the quack and his nostrums.

Teaching Disease Prevention.

The Red Cross Health Center is, however, of even greater service to the well. It teaches people how to prevent sickness and disease. This is done in many interesting and attractive ways—first of all, by the distribution

of popular health literature and through health lectures illustrated with lantern slides or with health motion picture films. Then special exhibits are given, one after the other, on various health subjects. Practical demonstrations are made; also health playlets by children to interest and instruct themselves and their elders. Classes are organized in personal hygiene, home care of the sick, first aid and in food selection and preparation. Health clubs, both for younger and older people, are formed; also Little Mothers' Leagues. Nutrition and growth clinics are conducted for children.

Already more than a hundred of these Red Cross Health Centers are in actual operation throughout the country. Many of them also conduct medical clinics, but the one chief, outstanding feature of the American Red Cross Health Center is its health education service which teaches well people how to keep well.

FRENCH PRAISE FOR OUR RED CROSS WORK

Lauding the work accomplished by American philanthropy for war-stricken France, Andre Tardieu, former high commissioner from that nation to the United States, in a recent article widely commented on throughout the French press, says:

"The American Red Cross has accomplished a work which calls for the heartfelt gratitude of every true Frenchman. In 1918 this great relief organization spent in behalf of France nearly \$7,000,000 francs, and in 1919 its expenditures on charitable projects in our country attained the tremendous total of 171,000,000. It has recently turned over to the French relief organizations huge stocks of supplies whose value must be counted in the hundreds of thousands of francs.

"Fifteen million American boys and girls, banded together in the Junior Red Cross of America, are back of a movement to establish the closest ties between themselves and France's younger generation through the charitable works they have financed, and are now carrying out among our little war sufferers.

"The bonds of friendship between France and America is cemented with mutual admiration, respect and gratitude."

Indian Lumbermen of Northwest

The mills of one Indian reservation alone employ forty Indians and cut 20,000,000 feet of lumber annually, the product going to the market of many states and some of it to England. In the last decade this single plant has sold \$1,500,000 worth of lumber. There are seventy-three sawmills on the various reservations, and the timber, estimated at 38,000,000,000 feet, is worth \$84,000,000. During the last six years approximately \$28,000,000 in royalties have been paid to the Indians on oil, gas, coal and other minerals, as against less than half that sum for double the same period preceding.

Biggest Freezer in World.

The biggest freezer in the world, with a capacity of 50,000,000 pounds, has just been completed and is now in operation at the Chicago plant of a large meat-packing concern. It has been erected for the dual purpose of freezing meat products, particularly for export, and of storing products during the period of heavy production, to insure a supply at all times. The building is ten stories high and was erected at a cost of \$2,000,000.

BRIDES MUST GO TO SCHOOL

If They Are Young Enough Marriage Does Not Exempt Them.

Sacramento, Cal.—While there is no provision in the school law to prevent girls under the age of sixteen accepting proposals or contracting marriage, the marriage itself does not offer sufficient excuse in such cases to keep the young brides away from full time classes at school.

This is according to a ruling by Will C. Woods, state superintendent of public instruction, in answer to a query raised several times during the last few months.

"We have gone into this question thoroughly," Wood stated in explanation of the matter, "and while there is nothing in the school law to prevent girls under sixteen from getting married, young brides of this character must go to school full time the same as their unmarried sisters, unless a certificate signed by a physician is presented to the school authorities showing that the physical condition of the pupil is such as to render attendance inadvisable, or that there is no school within reach."

AVIATOR SEASICK IN THE AIR

Italian Flyer Encounters Rough Air Conditions on Trip to Tokyo.

Tokyo.—Lieutenant Ferrarin, one of the two Italian airmen who flew from Rome to Tokyo, encountered such rough air conditions while crossing Korea that he became seasick.

"In my entire flying experience," he said, "I had never before encountered such conditions. The machine pitched like a small boat in a heavy swell, and for the first time in my life I knew what it was to be seasick."

The most exciting part of my trip occurred in Asia Minor," he added, "about 100 miles from Aleppo, where I was subjected to heavy machine gun fire by the Arab rebels."

THE AMERICAN RED CROSS IN PEACE TIME

There remain in army hospitals throughout the country more than 26,000 soldiers still being treated for wounds received overseas. Red Cross workers give them the same sort of friendly aid—only more of it—that was given during the war. Furthermore, the Red Cross is teaching these lads occupations at which they can later make a living and is keeping in touch with their home folks in order that no dependents may suffer for lack of funds.

MADISON TESTIMONY

Home Proof, Here, There and Everywhere.

When you see Doan's Kidney Pills recommended in this paper you most always find the recommender a Madison resident. It's the same everywhere—in 3,800 towns in the U. S. Fifty thousand people publicly thank Doan's. What other kidney remedy can give this proof of merit, honesty and truth? Home testimony must be true or it could not be published here. Read this Madison recommendation. Then insist on having Doan's. You will know what you are getting:

August Wotha, retired farmer, Grant Ave., says: "Doan's Kidney Pills are the best remedy I have ever used. My kidneys were out of order and I suffered a lot from backache especially when I bent over or lifted anything. I had such sharp pains in my back I could hardly straighten up. My kidneys annoyed me at night, acting too frequently. Doan's Kidney Pills which I got at Smith's Drug Store, regulated my kidneys and strengthened my back. They helped me in every way."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Wotha had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

A SAFE MEDICINE FOR CHILDREN

Children who throw covers off at night, play in water, and neglect ordinary precautions are likely to catch cold in summer. Summer colds are wearing and weakening. Foley's Honey and Tar is a genuinely good cold, cough and croup medicine for children because it contains no opiates. Sold everywhere.

SEE CAN TRUTHFULLY SAY—

Hay fever, asthma and bronchial coughs yield to the soothing, healing properties of Foley's Honey and Tar Compound as quickly and surely as do ordinary coughs, colds and croup. Mrs. Geneva Robinson, 88 N. Swan St., Alhambra, N. Y., writes: "I can truthfully say Foley's Honey and Tar is the best cough medicine I ever used." Sold everywhere.

HOUSEWORK THIS MONTH

Housework is trying at any season of the year but particularly so in August. Women suffering from backache, lame muscles, stiff joints, rheumatic pains, biliousness or other symptoms of kidney trouble will find relief in Foley's Kidney Pills. They give relief from irritating bladder ailments. Sold everywhere.
