

To Our Friends in the Country

THIS CHAUTAUQUA is not an exclusive town affair. It was planned and put on for our friends in the country as well. We all want to make Chautauqua Week a real Holiday and Get-Together Time.

There will be great lectures and entertainments to enjoy at this Chautauqua. The kind you like.

We hope to meet you and all your family here during Chautauqua Week, and get to know each other better.

We, who are on the Chautauqua Committee, want you to come and have a good time, and then come back again. Let us try to live a little something besides work out of life as we go along.

Hitch Up, or Crank Up, and Come On In

Be sure to get in the very first day. BOB SEEDS, the farmer-lecturer of Pennsylvania, will speak that night on "How God Made the Soil Fertile." Bob once took an old wornout farm, and in a little while was selling soil off it for \$1.50 a bushel. He's some farmer. He is also one of the best and most popular lecturers in the country.

But we can't wait to tell you about the big musical festival on the 6th Day by CASTELLUCCI'S BAND. The Band is more than twice as big and better than ever now, and that's saying a good deal. Come and watch them "raise the roof."

THE CAMBRIDGE PLAYERS will give Shakespeare's "As You Like It" on the fourth night. That will be a treat for the folk to see.

There's a world of other good things in lectures and music and entertainment. DR. THOS. McCLARY will be here, and so will JUDGE BAGGOTT, and BILL BONE, the humorist. The MELODY MAIDS, and HANN'S JUBILEE SINGERS, whom we predict will set everybody to talking—all these are coming, and many more.

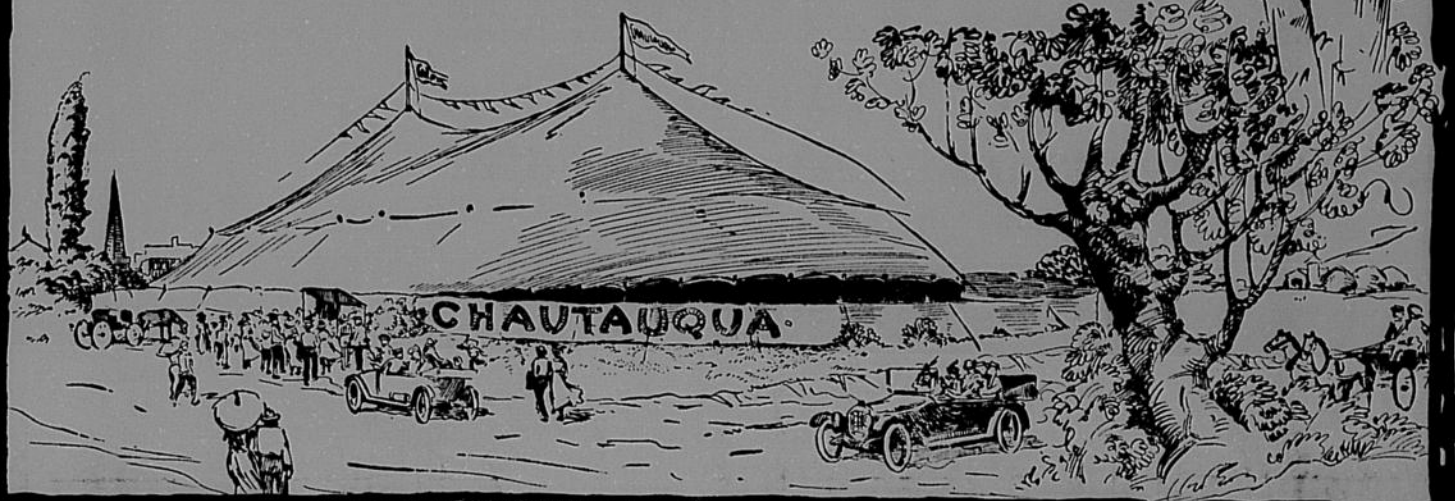

It's mighty hard to say anything interesting about these people here, but take our word for it, this Chautauqua represents the biggest money's worth we know anything about.

We hope you will plan to attend every session. The program is built for the entire six days, and not for six separate days.

Come yourself, and bring all the homefolks and neighbors with you.

Why Not Face the Facts About Armor Competition?

To the People:

The policy of the United States Government for many years has made real competition in armor-making ineffective.

The Government might have asked the three armor plants for bids and let the entire tonnage to the lowest bidder. That would have made competition effective.

The result of such a course would have been to drive two of the three manufacturers out of business, and leave the country with facilities of only one plant in time of need.

The Government in fact has always asked for bids from the three manufacturers, but no matter what the price quoted, each year's business was divided among them.

Armor makers serve but one customer—the Government, just as a public utility serves but one customer—a community.

The solution of the public utility problem is regulation of rates.

The solution of the armor problem is for the Government to fix the price.

We voluntarily agree to accept any price fixed by the Federal Trade Commission. Isn't acceptance of that offer better than the destruction of an industry built solely to serve the Government?

QUALITY in a motor car is frequently no more than a doubtful claim of the maker. Dort quality is actual working quality that shows itself in results.

The high speed, long stroke motor carries the Dort through—regardless of road conditions. The Westinghouse two-unit electric starting and lighting system, found on no other car in this class, always responds. The big 5 1/4-inch full cantilever springs in the rear ward off the jolts. The crank and cam shafts, made extra heavy, always eliminate vibration. The deep upholstery is always comfortable. The sturdy frame is always dependable.

You don't have to take Dort quality "on faith." It is apparent the moment you lift the hood. The results are evident the moment you start the car. See this quality for yourself.

Prescient Mozart.

At three years of age Mozart would amuse himself for hours together in picking out thirds on the piano with his wonderful ear. At four years he learned minuets and before six played some of his own compositions, actually starting on a concert tour with his sister at that age. Before three years he had elapsed he had taken by storm four of the most important capitals in Europe—Vienna, The Hague, Paris and London. His reputation as a composer was established by the time he was only ten years old. Mozart fulfilled in maturity the promise of his early years, but at the age of thirty-five passed away, engaged on a requiem which he gradually learned was to be for himself.

India's Telegraph Plant.

There are many strange species in the vegetable world, and among some of the queerest may be mentioned what is called the telegraph plant. This plant hails from India, and each of its large leaves is composed of three portions. During the day the largest one stretches out toward the sun, so as to catch the full warmth and brightness, but when night comes on the big leaf turns down, while each of the small petals works day and night, moving as it were, independently. They describe, in somewhat jerky movements, complete circles, thus deriving their name.

Her One Failing.

Frank was an ardent lover and, like most lovers, was of a rather jealous disposition. He was always worrying Ellen with silly questions, most of which she answered patiently.

The other day he reached the limit, however, when he asked:

"Why are you so sure that you will always love me just as much as you do now?"

Ellen thought it time to alter her treatment of his one fault.

"Because," she answered gently, "I am never able to cure myself of any of my bad habits."—London Answers.

WILSON HAS A DODGE

The following conversation is said to have taken place on one of the principal streets in Sisseton the other day:—

"Say John, why is it that W. D. gets all the livery work out of this town?"

"What kind of a car do you run, Ross?"

"Why, I drive a Ford, what do you run, John?"

"Why, I drive a Maxwell and an Overland part of the time."

"Well, W. D. drives a new Dodge Bros. Car and it runs so smoothly and easily, and comfortably that that is the only reason I can see that he is getting the business, John," said Ross.
