WHAT ABOUT HOME OIL CO.?

Sisseton, S. D. Jan. 11, 1921
Notice to the stockholders of the Home Oil Company: Let us get busy and find out! And see how that man is that came around to the farmers and told us as soon as they sold enough stock to start the business they would let the stockholders elect their own directors. Have any of you stockholders ever heard of a director that they have elected now? and I don't think you ever will, unless we get busy and investigate.

It is now nearly two years since we paid our stock, and all we ever got is a promise of a dividend. Let us get together and call a meeting and find out who we suckers are furnishing money for. Let us fix a date for a hearing on that Home Oil Company business.

Let us hear from other stock holders.

Yours truly,
Fred Schacher.

In a Gambler's Market

A clerk's error, adding three ciphers to a thousand-bushel selling order, caused wheat to fall 8¼ points on the Chicago Board of Trade last October. It didn't change the world's wheat supply by a single grain or affect actual wheat needs by so much as a crust of bread, but every farmer whose wheat was marketed that day lost money as a result.

A short time before, the market was sent tumbling by a false cablegram announcing that France had a big harvest of wheat.

When a clerical error or baseless rumor can rob the farmer of millions, some remedy MUST be found.

A practical remedy is knowledge of world markets. Accurate information on all foreign crops can be gathered and given out. This would make supply known and demand steady.

The Farm Bureaus aim to prevent costly price fluctuations by this means. They believe in the "light cure" as a remedy for distribution evils. And you can help! If you are not a Farm Bureau member, join today.

In your individual effort to contribute toward the improvement of farm conditions, you will find THE COUNTRY GENTLEMAN a powerful ally. With a large staff of editors and contributors covering every corner of the land—even studying foreign markets—THE COUNTRY GENTLEMAN presents each angle of our national farm problems in the most helpful and interesting way. It warns you of causes for price changes before they occur, helps you to make money, entertains and inspires you—all for just \$1.00 for 52 big issues. Send a dollar bill—or your check is good!
