THE SULLY COUNTY WATCHMAN.

A DISPATCH from Elle idale, Dakota, says that a very singular and startling discovery, consisting of finding the skeletons of twenty-thr e men and about the same number of horses, was made in the northwestern part of Dickey county a few days since by a party of explorers. The skeletons were of hills extending from near Fort Pierre to the British line near the head of Moose river. Among the skeletons were found brass cavalry buttons, shoes and other effects of mounted men, but no guns or implements of war. There were also some shoes remaining on the bones of the horses' feet. This country has been a truitful field of death, as evidenced by the many skeletons found ly county is in other places, most of which came from the raid made in Minnesota in '63, and were a part of the prisoners carried away by the retreating Indians.

BETTER THAN EVER.

THE INTER-OCEAN FOR 1884.

More new features have been introduced in the weekly Inter Ocean in the last twelve months than in any other paper published in the country. Retaining all published in the country. Retaining all the old specialties and departments, the publishers have added illustrated biographical sketches of persons prominently be-fore the public at date of publication; illustrated articles on important historical and current events, or in illucidation of antiquarian research, or interesting engineering and mechanical problems; cable etters from London covering the field of European news for each week; special con-tributions devoted to reminiscences of arniv and political life; and new series of articles given up largely to personal gossip and recollections of prominent literary

The Inter-Ocean will remain uncompromisingly Republican; will maintain its present attitude on the question of protectng American industries; will continue to devote special attention to trade, transportation, and economic questions; will retain the departments of The Curiosity Shop, (a current encyclopedia of curious; interesting, and valuable information called out by inquiries of subscribers); The Woman's Kingdom, (devoted to the progressive movements in which woman is interested): The Farm and Home, (covering topics of Chicago, Ill. special interest to farmers, their wives, and their children); The Veterinary, (containing answers to the treatment of horses, cattle and other animals by one of the best veterinary surgeons in the West); and Complications, (taking in puzzles, enigmas, conundrums, etc.), all of which are peculiar to the paper; we will give as much space as hitherto to serial and short stories, original and selected sketches and poems. and with increased facilities for newsgathering in the shape of Special Wires to New York and Washington, and experienced correspondents well placed at home and abroad, will more than maintain its high standard for enterprise and accuracy in all departments of news.

CLIFTON-ON-THE-OKOBOJO

CLIFTON,

The county seat of Sully County, is beautifully located upon the south bank of the Okobojo---a never failing stream --- upon a plateau just sloping enough to afford an excellent drainage. Though only a few weeks old, it is already of the most importance of any place within a radius of fifty miles, enjoying a steady and permanent growth, and is bound to have a lively "boom" as soon as the dull season is over. Being sitnated so near the Geographical Center of so large and fine a county as Sully and its seat of justice, it cannot be otherwise. The healthfulness of Clifton and surrounding country must commend itself to everybody, and, in selecting a location, those who take this great desideratum into consideration cannot do better in the whole West than right here. Fine Government Land can yet be secured near Clifton, the county seat, and relinquishments bought at a low price.

SULLY COUNTY

Is situate on the east side of the Missouri river in the south central portion of Dakota, and is conceded by those who know to be the most beautiful country in this great territory --- a dis-

tinction of which it may well be proud. It contains some \$00,000 acres of as It contains some \$00,000 acres of as fine agricultural and grazing lands as the sun ever shone upon, only awaiting the plowman and stock grower to fill their pockets with easily made wealth and their hearts with content.
