Tremendous Rooring in the Head - Pain in the Stomach.

To C. I. Hood & Co., Lowell, Mass.: Two years ago I had a severe attack of the Grip, which left me in a terribly weak condition. Last winter I had another attack and was again very badly off, my health nearly wrecked. My appetite was all gone, I had no strength, lelt tired all the time, had roaring noises in my head, like a water-fall. I also had severe headaches and

FASHION'S FANCIES.

Black and white taffets silk makes a pretty addition to a black dress, with white silk gimp laid over black velvet ribbon as a finish.

Iridescent and "jewel" bead jackets are used on shot silk gowns, and bands of the same are laid over velvet, on bodices made in Breton or short empire

Very much admired by many are the deep yellowish brown straws called "sunburned braids." The plait is rather coarse. This kind of straw looks well trimmed with ecru lace, rather coarse meshed, and small pink or damask roses.

Of all fashion's latest freaks none can exceed in absurdity the black glazed leather sailor hat, decorated on either side with two long quill feathers, shading, as a rule, from yellow to brown, the said feathers being laid back like the ears of a vicious horse.

A very economical and effective way of making up or making over a black surah or satin is the addition of large sleeve puffs, vest and girdle of some of the fancy bengaline taffetas or surahs, which are sold in quantities from 65

cents to \$1.75 a yard. Tuscan directoire hats are piped with black or golden brown velvet and trimmed with wreaths of pink brier roses, nodding scarlet poppies and cream lace, or flat chaplets of unripe hazel nuts and leaves which are of the palest tint of green.-New York Evening Post.

Several times this Winter I have suffered from severe colds on my lungs. Each time I have applied Allcock's Porous Plasters, and in every instance I have been quickly relieved by applying one across my chest and one on my back. My friends, through my advice. have tried the experiment and also found it most successful. I feel that I can recommend them most highly to any one who may see fit to try them.

The chiefs for the ensuing in attendance. The chiefs for the ensuing great sun were reised up by Past Great Incohonee Charles H. Litchman as follows: Great prophet, J. Heave E. White. wampum, Henry E. White.

Great Prophet James Lockhart of New York has been connected with the order for over 19 years and a member of the great council since 1877. For 14 years he has been chief of records of Seawanhaka tribe No. 12 of Greenpoint. In 1891 he was elected grand sachem and had an unusually prosperous term, making a showing unequaled in this state.

The team of Minnehaha council No. 3, D. of P., of Easton, Pa., under the leadership of P. G. S. Tanner, is doing some fine work throughout the country.

National Provident Union This organization, which is now in the tenth year of its existence, has made a rapid and continuous growth notwithstanding. occasional cause for deep depression despondency. It has sometimes feit the burden of paying death claims very heavy, but it has always stood up to its piedges and proved itself worthy of the confidence of its citizens. Reports from council balls show that more prosperous times are now being enjoyed by the councils, as evidenced by the many initiations. Confidence and harmony pervade the union, and success is within reach. ROYAL ARGANUM.

The investigation ordered at the last ses-sion of the supreme council in regard to the experience in the cities as compared with the country districts in certain states shows strongly in favor of the country districts as regards death rate, while with one exception the cities show larger gains in mem bership.

The number of councils May 1 was 1,500 and the membership, carefully estimated,

Dr. Joel Seaverns of Boston, medical examiner in chief, received 8,079 applications in 1892, of which 2,146 were approved, 861 rejected and 40 were not acted upon. Of these applications 808 came from souncils under the jurisdiction of the supreme council, no one else ever having been nominated

Proposed Monument to Past Grand Sire Farnsworth-Notes.

The proposal to erect a suitable monument to mark the spot where Past Grand Sire Farnsworth's mortal remains repose is a just and merited tribute. North, south, east and west should take pleasure and pride in having a part and parcel in this tribute to one who belonged to the cause verywhere, and whose work from the At lantic to the Pacific, in the Germanic state and Switzerland and indirectly in Austraia, calls for a national recognition.

The year 1893 will be another successful Read your constitution and bylaws. If

the order, having 63,291 members, a gain of 4,761 for the year. In the cool of the evening as you sit on the front stoop or in the front yard it is a good time to tell your neighbor of the advantages of Odd Fellowship.

Maryland, the home of the sovereign grand lodge, has only four Rebekah lodges. In Illinois 401 applicants were refused ad mission to the order during the past year. Magnolia lodge of Brooklyn has an efficient quartet, which aids materially in making initiations and lodge work im-

The evidence of the rare worth of our institution is afforded by the familiar spectacle of the best and most influential citizens joining it. The time has passed, never again to return, when it was a hissing and a byword to be called an Odd Fellow.

Beware of the Professional Society Tramp.

Degree of Pocahontas Notes Tribes should not allow their members to be imposed upon by contributing wampum to assist so called members of the order who are going the rounds and who have in sev eral cases worked upon the sympathy of brothers to the extent of several liberal collections which they have received. Tribes who assist such imposters do a great injury to the order, and great care should be ex-ercised in the future that the generous brothers of the order should not be fleeced by professional society tramps,

Indiana has 47 councils degree of Pocahontas, and Pennsylvania has 57. Indiana is making a high bid for first place.

The degree of Pocahontas council at Stockton, Cal., has had 14 weddings since its institution, G. S. D. 400, Six couples were members of the council, and four sis ters married palefaces.

Minnehaha council, degree of Pocahontas, No. 2, of Providence was instituted recent-ly with 17 charter members. Waneta council No. 1 exemplified the degree,

Pennsylvania reports 54 councils of the degree of Pocohontas, with a membership of 3,779, an increase of 690 during the year. They paid out nearly \$6,000 in sick and funeral benefits—a very good sum consider-ing the fact that the main feature with the les is sociability more than benefit. Ohio reports 5,766 members in the state

American Legion of Honoz The question of a reserve fund is one of which the beneficiary orders are beginning to think more favorably. The American Legion of Honor is the only one which has accumulated such a fund. This fund in the case mentioned amounts to nearly \$500,600, which is a considerable reserve.

The death rate in the order since Ja has been quite heavy, but this is not to be wondered at when the record of the bursau of vital statistics shows 864 deaths from pneumonia in New York city alone during the month of April.

The order is steadily increasing in New York state and has already nearly reached the high water mark.

The deposed queen of the Hawalian Is-lands is a beneficiary of the American Le-gion of Honor, the late king having been a member of one of the councils of the order located on the islands.

More members were initiated in Massa-chusetts in the first five months of this year than in the first six months of last year. Three examinents have been ordered for July, the official list containing 55 deaths, calling for \$271,500 in benefits.

It is confidently predicted that the mem-bership of the state of New York on July 1 will be 20,180.

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache dieriness, duliness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with neare force; that indigestion, dyspepsis, neuralgia wind in atomach, etc., arise from the darange wind in atomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force.
