The reappearance in this city of the oldest firm of laughmakers in fthe theatrical world is tomorrow could be avoided some of the most night, (Wednesday, February 16) dangerous and fatal diseases would when Klaw and Erlanger's new laughing trust. The story tells of one of the common and shortlived revolutions in Hayti in which two American financhers a stranded theatrical company-young lovers and a pair of rollicking "cullud folks"-become so mixed up that the affair is taken quite beyond the control of the Hytian populace, and explosions of mirth are more frequent than those of the gatling guns.

The company is a brilliant one and made up of high salaried players of reputation. In addition to McIntyre and Heath, who now appear to be at the zenith of their comic power, there is Julian Rose, fresh from the greatest success ever made by an American vaudeville player in Europe; Alfred Fisher, Flora Crostie, John H. The chorus of girls may be depended upon to be the pick of stage beauty, and with the dynamic vivacity of the many dances and the brilliant costuming, Klaw and Erlanger may be said to have provided a real invigorant for the jaded theatregoer. The advance sale of seats commenced this morning and from the way reservations are being made the indications are that the house will be sold out early.

A Common Cold.

We claim that if catching cold never be heard of. A cold often Consumption, fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by all druggists.
