Our Store Closes Every Evening Except Saturday at 5:30

FISHERMEN AND WARDEN ARE AT WAR

MASTER FISH WARDEN McALLISTER TO SEIZE ANOTHER CARGO OF FISH AND TO ARREST VIOLATORS — SHERIFFS MUST ASSIST.

The warfare which raged Saturday between Master Fish Warden McAllister and his deputies and the fishermen on the Willamette and Clackamas rivers, who are violating an order of the Board of Fish Commissioners with relation to salmon fishing in these streams was renewed today when the master fish warden and his deputies, together with Assistant Attorney General Van Winkle, went to Oregon City for the purpose of confiscating about 12 tons of fish caught Saturday evening and yesterday by the fishermen.

Mr. McAllister arrested a number of them for violating the law Saturday and confiscated about 10 tons of fish which had been caught and which was on its way to Portland. The fishermen immediately commenced repelling proceedings and the sheriff of Multnomah county took the cargo into his custody. Under the provisions of the fish laws every sheriff in the state is made a fish warden and it is the intention of the state to hold him liable for it. The state today also intends to arrest all violators of the law and will seize all fish that can be found. The deputies of the fish warden will not alone be called into action, but the various sheriffs and deputy sheriffs in the country where the violations occur will be asked to assist. When requested to assist it is said that it is mandatory upon them to do so and the state officers in this manner hope to put the fishermen in an embarrassing position.

TO SCALE MOUNT M'KINLEY

EXPEDITION LEFT PORTLAND TODAY TO CLIMB MOUNTAIN AND ASCERTAIN TRUTH OF COOK'S CLAIMS.

Portland, Ore., April 25.—With the announced purpose to ascertain with impartiality and without prejudice the truth of the claims of various persons including Dr. Cook to having scaled the rugged sides of Mount McKinley, an expedition organized by the Mazama club and backed by a local newspaper, left Portland today for Seattle. On Wednesday the party will embark on the revenue cutter Tahona for Cook's Inlet, Alaska, whence they will ascend the Sushitana river to Ruth Glacier. The climb to the summit will be made from this point. C. E. Rusk, a lawyer of Chelan, Wash., heads the party, the other members being A. L. Cool, a

trapper; Joe Ridley, a forest guard, and Frank H. Rojec of Portland, a photographer.

One of the most prized possessions of the party is the Mazama's record box which it is hoped will be placed on the summit of the mountain. The box is made of aluminum and is indestructible.

Lost Millionaire Located.

[UNITED PRESS LEARNED WIRE.] Ann Arbor, Mich., April 25.—Norman P. Cummings, millionaire real estate owner, who disappeared nearly a week ago, having \$40,000 in cash with him, has been located here. He has communicated with Mrs. Cummings in Chicago, and she is expected to arrive some time today. Cummings laughed heartily when told that Mrs. Cummings had reported to the police that she believed that he had been kidnapped.

According to his story, he came to Ann Arbor to visit his mother. "I came on the spur of the moment," said Cummings, "and had no idea that my sudden leave taking would frighten Mrs. Cummings. Cummings formerly resided in California, where he has heavy investments in real estate.

BELIEVED DR. BARBAT SUICIDED

IS BELIEVED HE LOST MENTAL BALANCE BROODING OVER DEATH OF MOTHER—WAS PROMINENT PHYSICIAN.

[UNITED PRESS LEARNED WIRE.]

San Francisco, April 25.—It is believed today that Dr. W. F. Barbat, once a member of the board of health and a prominent physician here, committed suicide yesterday while temporarily deranged. It is believed he lost his mental balance while brooding over the death of his mother, which occurred a few days ago.

Dr. Barbat ended his life in his rooms in the Hastings building. He first took three doses of poison, then fired a bullet through his heart.

Carbolic acid, potassium cyanide and lyal were each taken in quantities sufficient to cause death. Afterwards Dr. Barbat drew a small circle with a pencil on his vest, directly over his heart, and fired at it. He left a note of farewell to his 4-year-old son and one to his wife.

Dirigible Balloon Wrecked.

[UNITED PRESS LEARNED WIRE.]

Berlin, April 25.—The Zeppelin III, Count Zeppelin's gigantic dirigible balloon, was found wrecked near Weilberg today, when it crashed to earth half an hour after it had been torn from its moorings in a gale. One soldier, carried in the runaway balloon, fell to the ground from a height and was fatally injured.

Government officers are overjoyed that the balloon didn't fall in hostile territory, and thus did not reveal any secrets of its construction. The dirigible was found with its gas bags torn and its steel tailings smashed. The airship will be sent to Cologne for repairs, which it is estimated will cost \$125,000.

INDIANS DON'T LIKE CENSUS MAN

PENDLETON INDIANS TO HOLD POW-WOW AND TAKE ACTION AGAINST THE ENUMERATORS — OFFICERS MAY BE CALLED TO SCENE OF TROUBLE.

Pendleton, Ore., April 25.—Information to the effect that chiefs of the various bands of Umatilla Indians have sent out runners to the different settlements calling for a council to take action against the census enumerators at work on the reservation has caused a feeling of uneasiness among government officials of the reservation. A council of the red men will be held Wednesday night in the vicinity of the agency here and the appearance of any white persons at the pow-wow will, it is expected, be forcibly resented.

Captain Applegate, who has a wide acquaintance among the Indians has started from the Warm Springs reservation for the Umatilla camp and will attend the council with the object of endeavoring to pacify the belligerent redskins.

The aversion of the Indians to being enumerated is said to lie in the fact that they are interested in a large area of land still held in trust by the government and for this reason they do not wish their extra number to become known. The approach of an enumerator is the sign for an exodus of Indians to the hills, until the census man has left the vicinity of their tepees. If the Indians persist in their attitude, United States marshals will be sent to the reservation to make arrests. Such action may be expected to precipitate serious trouble as the Indians are known to be in an extremely ugly mood.

Paulhan to Try for \$50,000 Prize.

London, April 25.—M. Paulhan, the French aviator, will try for the Lord Northcliffe prize of \$50,000 for a flight between Manchester and London.

News received here last evening and this morning is to the effect that he is busily engaged in preparing his biplane for the voyage.

White, the British aviator, who nearly completed the Manchester trip last week, will try again within the next few days. It is rumored that he and Paulhan will start about the same time and race to Manchester. White is confident that his next attempt will be successful.

At a joint meeting of the board of governors of the Oregon City Commercial Club and publicity committee, held last week, \$200 was appropriated for the exhibit of Clackamas county products on the ground floor of the Portland Chamber of Commerce.

Good results always follow the use of Foley's Kidney Pills. They give prompt relief in all cases of kidney and bladder disorders, and are healing, strengthening and anti-septic. The most discouraging cases yield to their treatment. J. C. Barry.
