THE OFFICIAL ANNOUNCEMENT.

An Associated Press dispatch is sent out from Portland, and that means from the Oregonian office, saying who and who is not an aspirant for the governorship.

Dr. Andrew C. Smith is announced to be the candidate who has the support of Harvey W. Scott and Henry Waldo Coe, the member of the Republican national committee.

Senator Bowerman, J. H. Ackerman and Dr. Withycombe are also mentioned as men whose names will come before the Assembly, and who are possible nominees of that organization.

Col. E. Hofer, of Salem, and Grant B. Dimick, of Oregon City, are named as candidates, but as men who are opposed to the Assembly plan of making nominations.

F. W. Benson for secretary of state, A. M. Crawford for attorney-general, Willis S. Dunaway for state printer and George Steel for state treasurer are said to be up for renomination.

Congressmen Ellis and Hawley, State Engineer Lewis, Labor Commissioner Hopf and Judges Moore and McBride of the supreme bench are to be renominated without opposition.

THE JOINT DEBATE WITH REV. WILSON.

The editor of this paper was invited by the Civic Federation of Portland to debate the proposed constitutional amendment for state-wide prohibition with Rev. Clarence True Wilson.

Rev. Wilson is the ablest representative of the Anti-Saloon League and president of the Portland Ministerial Association, and it was an honor to be invited to meet him in debate.

Three debates were held—one at Hawthorne Park Tabernacle, in East Portland; one at Astoria, and one at The Dalles, and they were presided over by President Reed, of the Civic Federation.

The debates were conducted on a high plane of gentlemanly treatment by the speakers of each other, and with some ability in the discussion.

Four expert shorthand reporters took down every word that was said, and there was intense interest, and the audiences numbered 6000 at Portland and about 1500 at the other two places.

If arrangements are not made by the Civic Federation to publish the debate in full The Capital Journal will print every word said by both speakers and all the interruptions.

The issue is squarely between the present local option and high license for cities and constitutional state-wide prohibition.

The depravity of journalism is well illustrated when a great newspaper gives half a page to a prospective prize-fight 500 miles away, that the whole decent sentiment of the United States is trying to suppress, and three inches of space to a joint debate on the vital issue of a moral character before the people of this state which draws six thousand people in the same city where the paper is printed.

JEFFRIES MEASURE IS TAKEN

BUT NOT BY JOHNSON—HIS OFFICIAL TRAINER GETS POINTERS ON THE SIZE OF THE BIG HUMAN FIGHTING MACHINE.

Moana Springs Training Camp, Reno, Nev., June 30.—The California bear was officially measured yesterday by the trainer Roger Cornell. The story told by the steel tape of Jeff's last 18 months of training for the battle of the races next Monday is eloquent.

The tape showed:
 Height 6 feet 1 1/4 inches.
 Neck 18 1/4 inches.
 Chest normal, 46, expanded 51.
 Waist 35 1/4 inches.
 Thigh 25 inches.
 Calf 16 3/4 inches.
 Biceps 18 1/4 inches.
 Forearm 13 1/4 inches.
 Wrist 8 1/4 inches.
 Ankle 10 inches.
 Reach 75 inches.
 Age 35 years.
 Weight 215 pounds.
 Imagine Jeff with a 35 inch waist. This big grizzly who carries the hope for the white man on his mammoth shoulders boasts a waist that many a man who calls himself slender would be proud of.

What to do at Recess.

(By George E. Johnson, superintendent of playgrounds, Park and Vacation Schools, Pittsburg, Pa., recently published by Ginn & Co. of Boston, Mass., should be in every instructor's hand.)

Teachers everywhere are asking for practical directions for the use of the school playground. In "What to do at Recess" the teacher is told just how to begin, what apparatus to provide, and what games to play. The book considers in turn the needs of the primary, the intermediate, and the grammar school children, both boys and girls. It is easy to read, very suggestive, and deals with essentials. The teacher who makes use of the directions and suggestions given in the book will find that many trials of discipline have disappeared, and that the children have received from the wise use of the school playground a physical, mental, and moral tonic that helps to make teaching both effective and pleasant.

12mo. cloth, 33 pages, illustrated, list price, 25 cents.

Two Million Gallons a Year in a "Dry" Town.

During the two years of prohibition in the City of Worcester, Massachusetts, according to the Springfield Republican, 2,127,551 gallons of beer and 102,293 gallons of distilled spirits were delivered in that town by express. This quantity of stuff was consumed in a place of 100,000 inhabitants. The Republican thinks that is about half as much as Worcester would have drunk under a license system; but it has taken no account of the large quantity of liquor that is said to have been sold "brought in surreptitiously." Worcester was one of the most conspicuous of prohibition cities in Massachusetts, and there does not appear to have been any scarcity of intoxicating stuff there during the "dry" season. Prohibition does not prohibit, never has prohibited, never will prohibit, and the wise thing to do is to regulate an district traffic. —Richmond (Va.) Dispatch.

Poison Oak Poisoning.

Ballard's Snow Liniment cures it. Mr. O. H. P. Cornelius, Turner, Ore., writes—My wife has discovered that Snow Liniment cures "Poison Oak Poisoning", a very painful trouble. She not only cured a case of it on herself, but on two of her friends who were poisoned by this same ivy. Price 25c, 50c and \$1. Sold by all dealers.

Adjustment is the secret of harmony, and discord comes in over who shall do the larger part of the adjusting.

You Never Tell

Just exactly the cause of your rheumatism, but you know you have it. Do you know that Ballard's Snow Liniment will cure it?—relieves the pain—reduces the swelling and limbers the joints and muscles so that you will be as active and well as you ever were. Price 25c, 50c and \$1.00.

There is plenty of trouble in the world. The safest course is to accept the proposition without question and spend your efforts trying to keep out of it.

Glad to Recommend Them.

Mr. E. Weakley, Kokomo, Ind., I glad to recommend Foley Kidney Pills. After taking them as directed he says: "The severe backache left me, my kidneys became stronger, the secretions natural in color and my bladder no longer pained me. I am now over my trouble, and glad to recommend Foley Kidney Pills." Sold by J. C. Perry.

FARM HANDS ARE BEING UNIONIZED

WILL PUT PRICES UP TO \$3.50 A DAY AND DURING HARVEST MACHINE MEN ARE TO GET \$10 AND \$12.

Spokane, June 27.—Taking advantage of the shortage of harvest laborers in the Pacific northwest where the grain crop this season is estimated at more than 100,000,000 bushels, several organizers, not affiliated with any of the recognized bodies, are working in eastern Washington and Oregon to form a Farm Hands' union, the purpose being to raise the minimum wage of laborers to \$3.50 a day for eight hours. The scale for sack-sewers and forkers is fixed at \$5 a day, while the pay of machinemakers will be increased from \$6.50 to \$7 to from \$10 to \$12 a day.

Efforts are being made by ranchers and orchardists to bring men into the country from eastern, central and southern states, and in addition to these it is likely that students from a dozen or more colleges in various parts of the country can be enlisted to assist in harvesting the grain, grass and fruit crops.

Several attempts have been made in Washington and Oregon to organize farm laborers, but so far they have not been successful. However, the farmers admit that if such an organization could be formed they would have to pay almost any price demanded by the men.

Frank Trader, who appears to be the head of the organizers, says it is proposed to form a local union in every grain district in Washington, Oregon, Idaho and Montana. He declares that the present scale, ranging from \$2.50 to \$7 a day, is not high enough, "especially," he adds, "at a time when the farmers will be glad to pay more rather than leave their crops in the field. Fifty cents is the initiation fee and we will have enough members at the start to see the thing through. Our members won't work with those not identified with the organization."

THE AFTERMATH OF HENNEYISM

San Francisco, June 30.—Charles P. Snell, whose testimony in the trial of Dr. E. B. Perrin in the land fraud cases five years ago resulted in Perrin's conviction, was yesterday indicted by the federal grand jury on six counts for perjury based on his testimony in the Perrin trial. A bench warrant was issued for his arrest.

The testimony cited in the indictment as false was Snell's statement that Dr. Perrin while writing out a check for \$5,000 told Snell the use of this check might send him to the penitentiary as it was to be devoted to bribe public officials at Washington.

The government had evidence that Perrin entered into an illegal contract. Snell's testimony was essential in showing that he had guilty knowledge of a conspiracy into which it was alleged he had entered. Snell is said to be living in Fruitvale, California.

LET THE PEOPLE SELECT.

Down in Polk county they have just held an assembly and it named a complete ticket. In that section the Republican party is dominated by Ralph Williams, national committeeman from this state. He is a typical machine politician and was largely McHarg to Oregon to bamboozle or to bribe legislators into breaking the pledges they had made their constituents regarding the senatorship. It is safe to say that Williams ran the Polk county assembly or could have done so had he wished. Now the question is whether it is better to have officials nominated for office by such men as Williams or by the people at large under the direct primary. Is it better to have legislators, assessors and judges selected by petty bosses and chosen for "particular reasons" or should such officials be chosen by the people direct and so made responsible only to the people? To the East Oregonian there is but one answer to this question. It is far better to have officials responsible only to the people. Then they should be chosen by the people, direct.

Nor is this a partisan matter. It is a question that pertains to good citizenship.—East Oregonian.

A PROMINENT WOLF CREEK LADY RELIEVED OF GALL STONES

BY BLOODLESS SURGERY; NO KNIFE; NO BLOOD

LIBERAL OFFER TO TREAT ALL WHO CALL FOR COST OF MEDICINE USED TO EXPIRE SATURDAY, JULY 2nd.

Salem is just now entertaining some of the Greatest Medical Experts that ever earned the gratitude of the sick by restoring them to perfect health. The great Fer-Don and his staff of European Medical Experts and Bloodless Surgeons are now here at Hotel Eldridge, 248 N. Commercial street, Salem, Oregon, and have already begun a record of cures that promises to equal at least those they worked in San Francisco, Los Angeles and Oakland the past three years in California. From all these cities come letters and telegrams telling just what kind of men Fer-Don's experts are; what they are doing and what they have done. To all inquiries addressed to the cities where Fer-Don is known, the reply every time is that he is a good man, a man of his word, and his experts are wonderful healers by means of their new European method of treatment, not a complaint that they have ever broken their word or failed to do everything they have promised. Not a single statement that these medical experts ever undertook a case they did not cure if curable. And who are these who vouch for their integrity, their manhood, their power and their skill in which they cure diseases? The obscure, the unknown, the irresponsible? Not one of them. Bank presidents, mayors of cities, editors, business men, housewives, who have known what it is to look death squarely in the face—the patients they have saved. These are the best vouchers any man can have, and Fer-Don's experts have them by the score. A few of these recommendations are given herewith, and the history of a few of the hundreds of cases that have been cured. Some are told by the patients whom they have cured, some by the friends whom they have cured, some by the friends whom they have cured, some by the friends whom they have cured.

Gall Stones Removed.

From a prominent Wolf Creek Oregon, lady.

The offices of the European medical experts were crowded yesterday at 248 N. Commercial street, Salem, Oregon. Many asked to see the great Fer-Don, but were told that it was impossible, as Fer-Don does not examine patients nor treat them but were informed that the European medical experts and the bloodless surgeon would attend to their illness. One woman who was in the reception room stated that her name was Mrs. Katherine Swim, of Wolf Creek, Oregon, and that she had been sick for several years. She consulted several physicians. She heard of the great Fer-Don and the European Medical Experts, and they told her they could remove the gall stones in 24 hours, with just three doses of medicine, and true to their word, Mrs. Swim was relieved of many gall stones by just three doses of medicine, and she has them in a jar. The reputation of the European Medical Experts is established in Salem and multitudes of prominent citizens have been treated by them. An interesting case is that of a young woman living at Coalinga, Calif. Her name is Mrs. J. L. Klitrick. Her case had been given up by physicians; physicians cried: "Operate; use the knife." No wonder this woman came to our experts," said Fer-Don. She had been

scared to death by doctors who wanted to operate on her. She was troubled with cancers. She heard of our bloodless surgery, whereby our experts used no knife. She traveled miles to see us. My experts put her under treatment and my experts removed cancers from this young woman's face. No knife was used."

Crowd Marvels at Ease With Which Patient Is Relieved of Growth on His Head by the Bloodless Physician.

At least 3,000 expectant persons, anxious to see for themselves just how the bloodless operations of the European experts are performed, gathered on Virginia street last evening at Fer-Don's free show. At a little before 9 o'clock the first part of the minstrel entertainment over, the stage was cleared and a committee of citizens and professional men was invited to witness the removal at close range. Quite a number of persons took advantage of the invitation and gathered up close to the stage. Mr. Miller, who is employed at Herbert Bros. meat shop was then introduced. He had a large tumor on the back of his head. The European medical expert then applied a preparation to the head of Mr. Miller, dissolved the outer covering of the tumor inside of a very few moments the entire growth was out. No knife was used, there was no pain and no blood. Hundreds saw and marveled at the way the thing was done. Many of these came into the entertainment skeptical, saying the operation could not be performed painlessly and bloodlessly, as had been promised. These left satisfied that the Great Fer-Don had known whereof he spoke when he said the European experts could conquer disease and remove tumors, cancers, and gall stones without operation. For they had come through with flying colors in the case where others perhaps would have failed, and if they could do this there was reason to believe they could successfully perform other cures they claim.

From the Vallejo Evening News, July 27, 1909.

The above testimonials are only a few of the many hundreds received daily from grateful women from Sacramento, Oakland, Roseburg, Redding, Eugene and Medford and vicinity, as well as other portions of the country each of whom are loud in their praises for the experts. Wherever these learned physicians have remained for any length of time—Los Angeles, San Francisco, Oakland, and all the large cities in the east—they have brought sunshine and happiness into the lives and homes of hundreds of suffering mothers, wives, sisters and sweethearts, by their wonderful cures.

A charge of \$1 is made for examination and consultation. Office hours from 10 a. m. to 12 noon; 2 to 4 p. m. and 7 to 8 p. m. Sunday, 10 a. m. until noon.

Offices at Hotel Eldridge, 248 N. Commercial street, Salem, Oregon.

Chamberlain's Cough Remedy the Best on the Market.

"I have used Chamberlain's Cough Remedy and find it to be the best on the market," says E. W. Tardy, editor of The Sentinel, Galveston, Tenn. "Our baby had several colds the past winter and Chamberlain's Cough Remedy always gave it relief at once and cured it in a short time. I always recommend it when opportunity presents itself." For sale by all good druggists.

Oust the fake creamery promoter along with the patent medicine man to join the vendor of other discredited and outlawed nostrums. Cut alfalfa when it is dry.

Quality of Service

Some things have to be good, or you don't want them at any price.

A bank is one of these things.

It must be exactly right—good through and through.

The fact that it costs you nothing is no reason why you should not insist on perfection of quality.

The fact that all of our patrons have found good banking quality in our house—have had every dollar faithfully accounted for, and every legitimate demand met, is an evidence now of good quality and good service for you.

Will you join us?

United States National Bank

Salem, Oregon

Some people ride the bicycle.
 And some in autos course,
 Life is full of mixed desires,
 Elect then what you most admire.
 My choice remains the horse.
 But when in search of pure delight,
 Effervescent, clear and bright
 Everyone can read the cheer
 Right in these printed verses here

AN INEXPERIENCED PURCHASER

Will never get imposed upon by dealing at E. C. Cross & Son's, for we keep nothing but the best of meats. All tender fresh and of that fine flavor as only choice meats have. Our steaks, chops, roasts, etc., are as good as those served at the White House, or at the table of H. R. M. King George. E. C. CROSS & SON

SAVING TIME by TELEPHONE

When a Man

feels the necessity of being in two places at the same time he goes to the nearest telephone and sends his voice. It is not exactly the same thing, but when a man talks hundreds of miles in opposite directions from the same Bell Telephone, it is about as good. In daily use of the telephone, a man travels all over town by wire in a few minutes. It is just as easy to travel all over the state and other states by means of the universal Long Distance service of the Bell System

The Pacific Telephone & Telegraph Co.

Every Bell Telephone Is the Center of the System
