

# Fleet of Submarine Chasers---Boats Which Counteract the Undersea Menace

The submarine chaser, so called, has been in the public eye for some time. We have shipped hundreds abroad to help in defeating the undersea blockade but now war is being rushed in Uncle Sam's shipyards because of the probability of a declaration of war and our own use of these boats. They are built rapidly, as 550 were designed and built in as many days for the allies. Recent advices from England say that all these boats are in service and are giving excellent results. The German submarine loss is said to have been between 200 and 300.

## IN FIVE MINUTES NO SICK STOMACH INDIGESTION, GAS "Pape's Diapepsin" Relieves Stomach Distress in Five Minutes

You don't know what upset your stomach--which portion of the food did the damage--do you? Well don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour, head dizzy and aches, belch gases and acids and eructate undigested food; breath foul, tongue coated--just take a little Pape's Diapepsin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear. If your stomach doesn't take care of your liberal lunch without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful--it stops food souring and sets things straight, so gently and easily, that it is really astonishing. Your stomach will digest your meals. If you keep acids neutralized.

## READY TO MEET ALL TROUBLE ON BORDER

### Sporadic Outbreaks Expected But Such Will Be Promptly Met

Washington, Mar. 30.--While realizing possibilities of trouble from German gathering in Mexico, authorities declared the government is prepared adequately to cope with that situation. Sporadic outbreaks and border raids are the most to be guarded against. Indications are against any real military danger.

Reports to the government show conclusively that a great many Germans have been and still are fleeing to Mexico. Reports indicate concentration at Torreon. But all this flight does not mean that they are preparing to fight this country; many are fleeing in fear.

## DRIVE AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from colds or congestion. And it acts at once! Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Excellent for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, all pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

## UNITY OF PURPOSE SOLIDIFIES RUSSIA

### Workmen In Munition Factories On Strike Return Through Patriotism

Petrograd, Mar. 30.--Nicholas Romanoff is a model prisoner. He seems entirely contented with his lot. Reports from Tsarskoe-Selo palace today declared he was continuing the regime of early rising and plenty of exercise by walking that he adopted when he was autocrat of all the Russias, and that he has uttered no word of complaint at his treatment.

The former czar spends the greater part of his time in the garden of the palace. The royal prisoner has made request of the provisional government for permission to send his son, the former czarovich, to Norway on account of his health. The request has not yet been granted.

Members of the palace guard said today that during Sunday's service in the chapel at Tsarskoe-Selo it was noted that the first one to kneel when prayers were offered for the provisional government, was the former ruler.

Evidences accumulated daily of the unity of purpose of all classes to fight for a victory against Germany. Today a detachment of officers and men of a special artillery brigade asked Minister of War Guchkoff to send them immediately to the front. They had been on duty here in Petrograd.

## University Finishes Survey of Potato Crop

University of Oregon, Eugene, Ore., Mar. 30.--Potatoes stand second only to lumber in Oregon's exports, according to data compiled by Allan C. Hopkins, of the university school of commerce, for the United States department of agriculture. In 1916, Mr. Hopkins finds, 35,791 tons of potatoes, or 2,396 carloads, were shipped out of the state, bringing to the producer, at an average price of \$1.90 a hundred, approximately \$14,000,000. This sum is an average of \$20 each for every man, woman and child in the state.

Oregon's potato growing area, as shown by the survey, to which Mr. Hopkins devoted three weeks, is approximately 35,000 acres. The average yield for the last 10 years has been 129 bushels (almost four tons) to the acre. This is increasing, as indicated by the 1916 yield of 150 bushels, and the increase is laid by the growers and others who reported to Mr. Hopkins, to improved methods of cultivation and the standardization of varieties. The yield varies from 50 bushels in dry Wasco

of interment. Even if the Germans do stir up trouble in Mexico, the scope of their activities and of the Mexican army itself will not be sufficient, in military men's opinion, to be very serious.

Insofar as authorities reveal, there is no disposition on General Carranza's part to heed German machinations and plunge his people into any conflict with the United States. Many of the German workers are being sent out of the Tampico oil region for fear that they will do damage to the properties which are Great Britain's main source supply for her fleet. As for this nation herself authorities foresee the possibility of alien plots against munition plants and the like, and this is the reason behind the orders for ten militia to do police duty in the state.

## DECLARES SHIPPING GREATEST NECESSITY

### United States Must Build to Replace Ships Destroyed In War

San Francisco, Mar. 30.--A movement for shipping preparedness in case of war was launched here today when Theodore Brent vice-chairman of the federal shipping board, appealed to 150 shipping men and builders to be prepared for an output of hundreds of wooden ships. He declared there is a strong prospect of immediate necessity, and he called upon the builders to tell the commission the details concerning their capacity, and their ability to get materials and handle rush orders.

Brent declared the United States is facing a grave emergency. "In our study of conditions," he said, "we have learned that it will be necessary to create a fleet if we are to make munitions, food and supplies to the allies through the submarine blockade."

Shipbuilding has not kept pace with the destruction of ships by submarines. If England should be starved out, the United States would be in a most embarrassing position and our biggest issue now is to provide ships."

A score of shipping and shipbuilding men outlined proposals designed to meet the situation. Mayor James Rolph offered his entire shipbuilding plant to the government.

Brent leaves tonight for Seattle where he will study conditions.

county to 200 in the moist Coos.

The largest individual potato-raiser in the state is E. E. Morrison of Springfield, who last year had 60 acres planted in this now-profitable vegetable. These small potato farms contrast with 4,000-acre tracts in California. California, in fact, is Oregon's largest potato customer, and the tubers are bought there not for food but for seed.

From 65 to 70 per cent of Oregon's entire potato yield is used for seed purposes. Next to California, Texas and the southwest are Oregon's best customers.

Clackamas county leads the state in potato production, and Lane county stands fifth.

The leading varieties now grown in this state are the Early White Rose, largely for export to California; Burbank, American Wonder (red), Gold Coin, Prize-taker and Red Rose.

## BAD BREATH

### Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are pure--by a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c per box. All druggists.

## For Skin Irritation

There is one safe, dependable treatment that relieves itching torture and skin irritation almost instantly and that cleanses and soothes the skin. Ask any druggist for a 25c or \$1 bottle of zemo and apply it as directed. Soon you will find that irritations, pimples, black heads, eczema, blotches, ringworm and similar skin troubles will disappear. A little zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes all skin eruptions and makes the skin soft, smooth and healthy. The E. W. Rose Co., Cleveland, O.

## Farm Loan Interest Fixed at 5 Per Cent by Federal Land Banks

Spokane, Wash., Mar. 30.--D. G. O'Shea, president of the Spokane Federal Land bank, has returned from Washington where he attended a conference of the presidents of the 12 Federal Land banks, with Secretary of the Treasury McAdoo, and the members of the Federal Farm Loan board.

He expressed gratification over the fact that this conference had fixed a flat interest rate of five per cent, applying to all parts of the United States. He declared that this interest rate would prove a great boon to the farmers of the northwestern states and predicted that within a year the Spokane Federal Land bank will have made loans aggregating \$10,000,000.

Mr. O'Shea also announced that the conference of bank presidents passed a resolution requesting congress to increase the limit of the loans permitted to an individual borrower from \$10,000 to \$25,000. He expressed the hope that the special session of congress, soon to convene, would make this change for the large borrowings of the Spokane bank district.

In order that more funds may be available for investment in farm loan bonds, and in turn made available to lend to farmers of this district, Mr. O'Shea urged that the legislatures of Washington, Montana, Oregon and Idaho immediately pass laws making farm loan bonds approved investments for trust funds, insurance companies and savings banks.

Mr. O'Shea announced that the bonds issued by the 12 Federal Land banks would be placed on the market at 4 1/2 per cent, but would probably be sold at a premium. He expressed gratification over the fact that the Federal Farm Loan board has anticipated that at least \$100,000,000 of these bonds will be issued during the coming year and is making arrangements which will assure a ready market for them. All of this money will be made available to the farmers of the United States at five per cent.

To borrow from these Federal Land banks, farmers are required to organize themselves into groups containing at least 10 farmer-borrowers and such group asking for at least \$20,000 of loans. The Spokane Federal Land bank is now prepared to furnish a blank form of articles of association to make the organization of these groups simple and easy. Other necessary blanks will also be furnished on application.

Farmers are permitted to borrow up to 50 per cent of the appraised value of the land, plus 20 per cent of the value of the permanent insured improvements. Loans are to be made at five per cent and must be repaid on the amortization plan, which means repayment by fixed annual payments throughout the period of the loan. The loans may run from five to 40 years at the option of the borrower. The object of these long time loans is to enable the farmer to meet these small annual payments out of the increased earnings of the land, made possible by the investment of the borrowed money.

This new banking system is purely cooperative. It is for the sole use of farmers and prospective farmers. Farmers will eventually own all of the stock of the Federal Land banks and they will elect the officers of these banks. There is no opportunity for individual profit in the entire system.

The preliminary organization of National Farm loan associations has pro-

## CHARLIE WHITE MAY GET BOUT WITH WHITE

### Browns In Fine Shape for Opening Game--Will Les Darcy Fight?

By H. C. Hamilton.  
(United Press staff correspondent.)

New York, Mar. 30.--In spite of all Charlie White's failures to acquit himself in a proper manner when pitted against lightweight champions, he looms today as the logical man to fight it out with Benny Leonard for the next long distance crack at Freddie Welsh's title. White took a sudden bound upward in the estimation of New York fight fans when he gave Frankie Callahan, of Brooklyn, a sound beating in 10 rounds. White came very near stopping his eastern rival, only the toughness of Callahan's jaw saving him in a number of rounds. White met in Callahan one fighter who can take the deadly White left hook and the equally deadly right cross without going down.

**Ready for Opening.**  
St. Louis, Mo., Mar. 30.--The Browns and the Cardinals finished their training status as the teams that packs here today and are ready for the opening game tomorrow afternoon in the inter-city series.

Of the two clubs, the Cardinals seem in better shape and neeked some peppy stuff in practice. The Browns were not so fortunate as the Cardinals in getting sunny weather in their camp at Palestine and have not that "finishing" look. However, they were sleeping the pill hard and Fielder Jones says he's satisfied.

The Cardinals today were six to five favorites in the betting on the opener of the spring series.

## Will He Fight Anywhere?

Cleveland, Ohio, Mar. 30.--Les Darcy will not fight in Cleveland. This decision was reached last night when Matt Hinkel announced that Grays' army, which seats 2,500 persons, would be wholly inadequate. Because of the small seating capacity Hinkel would be forced to charge prohibitive prices.

It is now being planned to match Darcy against George Chip at Cedar Point, Ohio, July 4, in a large arena. He was to have fought Chip here April 19.

Darcy has won many friends during his few days in Cleveland and all are eager to see him fight.

## O. A. C. Holds Record.

Corvallis, Ore., Mar. 30.--Harry J. Cole, a sophomore at the Oregon Agricultural college here, is the new holder today of the national record in college strength tests. He ran up a total of 2,158.6 points, breaking the old record set by Mike Dorizais, 2,100 points. In addition to the strength record, Cole holds the coast record in the discus throw and, in 1915 established a mark of 197.0 pounds in the strength, a record which was later broken by Dorizais, University of Pennsylvania wrestler. Cole weighs 197 pounds, is six feet two and 25 years old.

## May Stop Activities.

Corvallis, Ore., Mar. 30.--The board of athletic directors of the Oregon Agricultural college is on record today in favor of suspension of all athletic activities on the schedule of the Pacific coast conference in case war is declared between the United States and Germany.

## ALL SALEM OUT TO (Continued from page one.)

Junior High school drum corps and the drum corps of the Auxiliary to the Spanish-American War made the air quiver with martial strains.

Six autos for the old soldiers were donated. Three by Dwight Misner and three by Vick Bros. But the old soldiers refused absolutely to ride. They declared they did not have autos in the "Days of '61" and they would not need them now. And they walked every step of the way, the first of '61 giving vigor to their limbs and sparkles to their eyes.

## Scene at Depot.

A seven-passenger car was donated by Vick Bros. for the use of the governor and the Patriotic Week committee.

This committee wishes heartily to thank the bands for their music and the drum corps for their assistance, and all who helped make the send-off for the "finest the state can afford" the finest ever given a departing company of soldiers.

The scene at the depot this morning was a duplication of that witnessed last June when the company entrained for Clackamas under orders to proceed to Mexico. The same brave hearted mothers and sisters and sweethearts crowded the sides of the cars giving farewells. The same laughter that hid a choke and a smothered sob, and the same eyes that bordered on dimness because of unbridled moisture, was present.

It is urged that friends of the boys do not forget to write a letter or a postcard, because a fellow feels mighty lonely when the mail comes and everybody gets mail and he gets none.

## How to Aid the Boys.

It is also suggested that 150 duffel, or ditty, bags be made as soon as possible for the comfort of the boys. These are also known as "comfort bags" and are almost a vital necessity for the boys in camp.

It is also suggested that rifle cases be made for the boys as in the moist climate pressed to a degree far beyond the expectations of the Federal Farm Loan board at Washington and everything points to the unqualified success of this new enterprise.

## Stocks Spurred Upward But Were Not Sustained

New York, March 30.--The New York Evening Sun financial review today said:

The address of the German imperial chancellor before the reichstag yesterday, the reports of which were awaited with the keenest interest in financial and security circles on this side of the Atlantic, destroyed whatever hopes had been entertained with respect to overtures from Berlin on the question of peace.

Those traders who had planned commitments based on a conciliatory attitude, which would minimize immediate danger of war between the two countries, hastened to cover and the result was a considerable show of activity in the first hour and a general advance in prices of a point or more. Thereafter trading quieted down almost abruptly.

Along the Columbia the rifles will have a tendency to rust, and rust and dust are two things that are "taboo" Governor Withycombe was well pleased with the showing made by the people of Salem. He was pleased because it showed that when the time comes the American people will rally to the colors. He said he earnestly hoped that the final break might be avoided and that the crisis might be safely passed without the call to arms.

However, he could not think of accepting a "peace at any price" and if the break does come he felt the nation would respond nobly. He realized the nation was woefully unprepared, that the Pacific coast, the Canal, were unprotected. But the American people at heart were true.

although prices held well with few exceptions.

Railroad stocks were more animated today under the influence of the freight rate increases granted by the interstate commerce commission on early applications presumably on the theory that the commission's action forecasts a favorable attitude with respect to the petition for a general advance of 15 per cent.

Prices in the general list receded at times from top level but at no time were they carried below the previous closing.

Trading in the late market was quiet and prices eased off.

## RHEUMATISM usually yields to the purer blood and greater strength which

# SCOTT'S EMULSION

creates. Its rich oil-food enlivens the whole system and strengthens the organs to throw off the injurious acids. Many doctors themselves take Scott's Emulsion and you must stand firm against substitutes.
